I. INTRODUCTION

THE EASY LINK SYSTEM, OPERATED IN 154 COUNTRIES BY WESTERN UNION IS A WORLD-WIDE SYSTEM DESIGNED FOR THE PURPOSE OF ELECTRONIC MAILING AND CATERS TO SEVERAL HUNDRED THOUSAND IMPORTANT PEOPLE.

THE EASY LINK SYSTEM HAS SYSTEM BRANCHES
IN EVERY STATE ALONG WITH THE 153
OTHER COUNTRIES MENTIONED (MAKING
IT ECONOMICAL TO HACK).

II. SYSTEM CONFIGURATION

IN ORDER TO USE (OR HACK) THE EASY
LINK SYSTEM, YOUR TERMINAL MUST
BE CONFIGURED TO THE FOLLOWING PARA-
METERS -

- 7 DATA BITS
- 1 STOP BIT
- EVEN PARITY
- 110, 300 OR 1200 BAUD

OBVIOUSLY, USING ANY OTHER CONFIGURATION
WILL NOT ENABLE YOU TO UTILIZE (OR

HACK) THE EASY LINK SYSTEM.

III. HACKING EASY LINK

THE EASY LINK SYSTEM HAS A MEDIOCRE SECURITY SYSTEM FOR PROTECTING ITSELF WHICH INCLUDES A USERNAME (WHICH IS NOT THE ACTUAL NAME OF THE SUBSCRIBER), A PASSWORD, AND SEVERAL OTHER METHODS OF PREVENTING PENETRATION. HOWEVER, AS WITH ANY SYSTEM, IT IS NOT TOTALLY SECURE FROL HACKING.

THE FOLLOWING IS A LIST OF PROMPTS THAT THE EASY LINK SYSTEM WILL GIVE YOU ONCE A CONNECTION IS MADE (SEE SECTION IV FOR NUMBERS). NOTE THAT SYSTEM (EASY LINK) CHARACTERS ARE [IN BRACKETS].

[PLEASE ENTER YOUR TERMINAL IDENTIFIER]

IF YOU ARE USING 300 OR 1200 BAUD, TYPE "A".

[PLEASE LOGIN]

THIS IS A TRICKY PART FOR THE HACKER WHO IS A NOVICE TO THE SYSTEM, AT THIS PROMPT YOU MUST TYPE CTRL-P AND NO [RETURN]. YOU WILL NOT GET ANOTHER PROMPT UNTILL TYPING "ESL" AFTER YOU ENTER THE CTRL-P.

[ID?]

THIS PROMPT SIGNALS THAT YOU HAVE PENATRATED THE PRIMARY SYSTEM OF SECURITY AND IS ALSO THE HARDEST PART 40 HACK, ESPECIALLY TO THE NOVICE. THIS IS TRUW BECAUSE THERE ARE SEVERAL ELEMENTS WHICH MUST BE ENTERED IN THE CORRECT FORMAT IN ORDER TO PENATRATE THIS FINAL

SECURITY STAGE.

THE FOLLOWING IS THE FORMAT IN WHICH THE FIELDS (TERMINAL IDENTIFIER, IDENTIFICATION, USERNAME, AND PASSWORD) ARE TO BE ENTERED -

ID?00 EID62#### USERNAME.PASSWORD

THE SPACES INDICATED ARE ABSOLUTELY NECESSARY FOR THE CORRECT FORMAT!

THE "00" SHOWN IS A TERMINAL IDENTIFIER OF WHICH I ASSUME "00" IS PRETTY MUCH THE STANDARD.

THE SIX (6) NUMBER SIGNS THAT FOLLOW THE "EID62" ARE FOR A 4 NUMBER ID FIELD WHICH IS PARTICULAR TO EACH SUBSCRIBER.

THE "USERNAME" IS A USERNAME WHICH IS NOT THE NAME OF THE SUBSCRIBER (I HAVE FOUND THAT MOST USER NAMES CONSIST OF 4 LETTERS).

THE "PASSWORD" IS A PASSWORD THAT IS ALSO PARTICULAR TO EACH SUBSCRIBER. (I HAVE FOUND THAT MOST PASSWORDS ARE 3 LETTERS IN LENGTH, BUT I AM NOT SURE).

GETTING TO THIS POINT IS AN
ACCOMPLISHMENT

ONCE INSIDE, YOU WORK PARTIALLY OFF OF MENUS AND MOSTLY OFF OF THE MANUAL AND YOUR OWN SKILL.

IV. N&Y.S. NUMBERS

THE FOLLOWING IS A LIST OF EASY LINK NUMBERS FOR NEW YORK STATE (LONG ISLAND) -

O	HEMPSTED	-	516-485-7422
O	HUNTINGTON	-	516-420-1221
O	MELVILLE	-	" " "
O	MINEOLA	-	516-294-3120

V. CONCLUSION

EASYL.TXT

I HAVE ATTEMPTED TO MAKE THIS
GUIDE TO HACKING THE EASY LINK SYSTEM
AS COMPREHENSIVE AND "HELPFUL" AS
POSSIBLE AS A PART OF MY SERIES.

COMING SOON -

HACKING THE EASY LINK II
HACKING THE UNIVAC

TAKE CARE AND GOOD LUCK!
