First of all Milnet is a system used by the Air Force and the Pentagon for communication use. You know you are on milnet when you see that infamous TAC login xxx. Milnet is run out of the University of Southern California, (this might give some of you some ideas who live around there).

The Milnet number is 1-800-368-2217.  
The ISI MASTER DIAL UP IS 213-306-1366.  
This is a more tricky logon procedure but if you got balls, you're using a trunk box, or you are just S-T-U-P-I-D here goes:  
ISIE MASTER LOGON PROCEDURE

```

1> call 213-306-1366
2> when the phone stops ringing you are connected
3> enter location number (9 digits) + 1 or 0
4> hang up and it will call you
5> pick up the phone and hit the '*' on your phone
6> hit a carriage return on the computer
7> at the 'what class?' prompt hit RETURN!!!
8> then a 'go' prompt will appear and log on as you would the 800 number.
MILNET LOGIN PROCEDURE

```

If you have trouble connecting try 300 bauds instead of 1200. It's a bite in the ass but, sometime the connection will fuck up if you don't.

```
When you first connect you will see:
'WELCOME TO DDN. FOR OFFICIAL USE ONLY.TAC LOGIN
CALL NIC 1-800-235-3155 FOR HELP
WRPAT TAC 113 #:36
(you type)
@o 1/103
```

ISIA	3/103	
ISIB	10:3/52	
ISID	10:0/27	
ISIE	1/103	(THE EXAMPLE)
ISIF	2/103	
VAX A	10:2/27	

Next you will see a 'USER-ID' prompt. The first 4 characters vary but it is

is always followed by a '-' and what ever connection you choose.

User-Id: (example) CER5-ISIE or MRW1-ISIE

The first three letters are the initials of the user followed by a random number (1-9).

-----  
Access Code: (example) 2285UNG6A or 22L8KK5CH

An access code will never contain a ( 1, 0, G, Z).

-----  
@ USERNAME + PASSWORD IE USERNAME SAC.305AREFW-LGTO

THE USERNAME EXPLANATION:

The first 3 letters will be SAC. This stands for Strategic Air Command.

Followint that is a '.' Then the squadron number and the prime mission.

In this case '305AREFW', (305TH AIR REFULING WING). Then a '-' and the Individual Squadron name 'LGTO' (LOGISTICS GROUND TRANSPORATION OPERATIONS), a fancy name for the motor pool. I'll try and get a list of these there are tons of names.

The password will not be echoed back and should be entered after a the username.

The new user password as a default is: NEW-UZER-ACNT

-----  
+-----+

THINGS TO DO: PROGRAMS AVALIABLE TO SAC USERS:

+-----+ and what they are for

copied directly from the help manual

ADUTY aids in management of additional duty assignments.

(International help - use the ? and <ESC> keys, HELP.)

ARCHIVE requests files to be stored on tape for later retrieval.

(Type HELP ARCHIVE <RET> at TOPS-20.)

CHAT Provides near real time communication between terminal users on the same host computer.

(Use ? with CHAT.)

DAILY Executive appointment scheduleing program

DCOPY Handles output on DIABLO and XEROX printers

EMACS Powerful full-screen text editor

FOLLOW Suspense follow up program

FTP provides file transfer capabilites between host computers

FKEYS allows user to define function key (real spiffaruni)

HELP the command used by stupid generals or hackers that have never used milnet before

HERMES E-Mail

NPCALC spreadsheet program

PHOTO saves transcripts of sessions

REMIND sends user-created reminders

RIPSORT a sophisticated data sorting program

(Described in SAC's User manual (sorry))

SCRIBE a powerful text formatter for preparing documents.

(ISI's manual, SCRIBE manual - soon on MILNET V.2)

SPELL text file spelling checker.

(HELP at TOPS-20 and <DOCUMENTATION> directory international help -?)

SUSCON allows the creating, sending, and clearing of suspenses.

(international help - ? and <ESC>, HELP command)

TACOPY used for printing hard copies of files

(international help - ?)

TALK pretty much the same as chat.

TIPCOPY predecessor of TACOPY

TEACH-EMACS (SELF EXPLANITORY: GIVES LIST OF COMMNADS)

TN        Tel-Net provides multi-host access on MILNET.  
          (HELP at TOPS-20 and <DOCUMENTATION> directory,  
          international help - use ? and <ESC>)  
XED       line oriented text editor.  
          (HELP at TOPS-20 and <DOCUMENTATION> directory)  
          LOGGING OFF

-----  
TYPE:    @L                    (PRETTY TOUGH HUH?)

+-----+-----  
The Milnet ID card If you should be trashing somewhere and find a card that  
+-----+ looks like this, then save it. (it will be blue & white)

/-----\ It's also wallet sized so you may  
HOST USC-ISIE 26.1.0.103            wish to mug someone who you know  
HOST ADMINISTRATOR GORDON,VICKI L.    is in the air force..haha!  
----- (just kidding!)

DDN CARD HOLDER:  
REID, CALVIN E, 1st LT.  
CARD 118445

-----  
USER ID:CER5-ISIE  
ACCESS CODE:2285UNG6A  
USERNAME: SAC.305AREFW-LGTO
