® Powered by Tornado®

WARNING: READ INSTRUCTIONS CAREFULLY PRIOR TO USE.

Notice: Possession and/or use of pepper spray may be prohibited or regulated in some states or locales. Improper use may result in criminal action, including but not limited to lawsuits, fines, prosecution and even imprisonment. Pepper spray should only be used in cases where you (or someone you are protecting) are in an unavoidable and threatening situation.

Exposure: KEEP OUT OF REACH OF CHILDREN. Severe irritant affects eyes, skin and respiratory areas. In case of exposure, rinse eyes with water. Wash skin thoroughly with soap and water. DO NOT RUB. Do not apply creams, salves or lotions. If symptoms persist after 45 minutes, call a physician.

Caution: Contents under pressure. Keep away from heat. Do not store above 120° F, below 32° F or in direct sunlight. Use caution when activating in windy conditions. Do not puncture or incinerate can. Do not carry on any passenger aircraft.

Please ensure that you are familiar with the operation of your Ultra Pepper Spray System, and that you are aware of the applicable laws in your area with respect to the use of this type of product.

ULTRA PEPPER SPRAY SYSTEM

1. For full visual instructions visit: www.ruger.com/tornado

WARNING When practicing do not remove:

- Two white actuator tabs
- One orange actuator clip

With the actuator tabs and clip in place, the Alarm, Strobe Light and Pepper Spray will not function, making it safe to practice and familiarize yourself with the operation of your Ultra Pepper Spray System.

2. Slide the clear plastic Safety Door down until it clicks into the open position.

Insert index finger pushing the Release Button to release the Ultra Pepper Spray System head into your hand.

Practice this release until you are comfortable with this operation.

3. Your Ultra Pepper Spray System is designed to naturally release into your hand in the optimal position. The Finger Lock makes the device more difficult to remove from your grip. Your Pepper Spray will shoot from the Spray Nozzle at a slightly upward angle. A sweeping spray motion is most effective in ensuring you hit your intended target.

Point the Ultra Pepper Spray System head at the aggressor and press down firmly with your thumb on the Thumb Trigger to release the Pepper Spray. (Spray will not release as orange safety tab is still in place).

4. Now that you are familiar with the operation of your Ultra Pepper Spray System, it is time to activate the system.

- Remove the white tab to activate Alarm (alarm will now sound).
- Remove the white tab to activate Strobe (light will now strobe).
- Replace the head into the base (both Alarm and Strobe Light will automatically turn off).
- Slide the clear plastic Safety Door up until it clicks in the closed position.
- Repeat the release and replacement of your Ultra Pepper Spray System to ensure the activation is functioning properly.
- Remove the orange Pepper Spray actuator clip.

Your Ultra Pepper Spray System is now fully activated and in the safe position.
