# Announcing the **CPX-3** .380 ACP

## Featuring the "Roebuck Quad Lock" system

SCCY Firearms introduces the all new CPX-3 Pistol in .380 ACP Caliber. The pistol features the Revolutionary "Roebuck Quad Lock" system. This patented technology locks the Barrel to the Slide in four distinct areas. The system locks up at the rear of the chamber, the front of the chamber and two adjacent points at the front of the barrel.

The Quad Locking of the Barrel and Slide marries the two components into one solid piece. This improves accuracy by ensuring that the Barrel returns to the exact same location every time the Pistol is in Battery. While Locked in Battery the CPX-3 will not allow any side to side movement of the Barrel. Accuracy is repeatable shot after shot.

The top of the Slide is Laser Etched to reduce reflected glare. This high tech slide treatment provides a clear sight picture in bright light conditions.

The CPX-3 is the perfect size, not too large nor too small. This is a highly concealable pistol that can comfortably be shot multiple times at the range. The slide is easy to rack and smooth as silk. Lack of hand strength is not an issue with this shooter friendly pistol that is easily manipulated by all.

This is the most advanced .380 ACP Pistol on the market today and is value priced. Quite simply, the CPX-3 is the most gun for the money in the .380 ACP Caliber category.

Caliber: .380 ACP

Barrel Length: 2.96"

# CPX-1 and CPX-2 9mm Firearms

The SCCY CPX-1 is equipped with an ambidextrous manual safety, while the CPX-2 is designed for shooters who prefer a concealed carry pistol without an external safety. The two models are identical in all other aspects of specifications and performance.

Both are available in low-glare, heavy-duty black nitride or natural stainless steel finishes. Both come with two 10-round mags.

## CPX-1 and CPX-2 Finishes:

### Stainless Steel Black Nitride (CB)

Self-lubricating, hard nitride treatment with a scratch-resistant black nitride surface.

### Stainless Steel (TT)

Natural stainless steel finished by ceramic abrasion, producing a durable, non-reflective satin finish.

**CPX-1 TT**  
MSRP \$334  
Stainless

**CPX-1 CB**  
MSRP \$334  
Black

**CPX-2 TT**  
MSRP \$314  
Stainless

**CPX-2 CB**  
MSRP \$314  
Black

## Accessories

### 10-Round Magazine

10-round magazine with finger extension base (installed) plus flat base (included).

**01-006** - MSRP \$26.95  
(per magazine)

### Child-Resistant Trigger Lock

SCCY Firearms promotes child safety. Our trigger lock is warranted for life against breakage and loss, and if you lose it, we'll replace it.

**01-060**

Every SCCY pistol comes complete with two 10-round magazines (with both flat and extended base plates), a trigger lock with two keys, and owner's manual, all in a sturdy, foam-lined storage box.

# Be dazzled by the SCCY Spectrum.

The entire SCCY CPX-1 and CPX-2 9mm line is now available in a brilliant array of distinctively colored frames...enabling you to choose a SCCY that reflects your own style.

# Extraordinary Quality, Extraordinary Price.

The SCCY CPX series comes loaded with features you'd expect to find in a pistol costing twice as much. In fact, we're confident it delivers "more gun per dollar" than any other choice in its class. **When it comes to value and customer satisfaction, the SCCY's the limit!**

FEATURES		BENEFITS
1	Compact, concealed carry .380 or 9mm	Powerful performance in a small, 10-round package
2	Slide and barrel machined from 416 stainless steel bar stock	Maximum performance and durability
3	Double-action trigger	Smooth, consistent pull with multi-strike capability
4	Recoil-absorbing backstrap (CPX-1 & CPX-2 only)	More comfortable shooting
5	Fully encapsulated, all-steel recoil spring system (including steel guide rod)	Simple disassembly and easy maintenance, with no stray springs
6	Three-dot sights	High visibility for rapid sight alignment
7	Two 10-round magazines with two base-plates	Valuable accessories at no extra charge

## SCCY Perpetual Warranty

Our SCCY Perpetual Warranty might be the most impressive of all the SCCY's many features and accessories. SCCY firearms carry a lifetime warranty that stays with the firearm. In the event your SCCY firearm requires service, just contact the factory service department directly: Toll Free - (866) 729-7599 or by Email - [service@sccy.com](mailto:service@sccy.com)

## Made in the USA.

We manufacture and assemble all our firearms (as well as our magazines) in a 21,000-square-foot production facility in Daytona Beach, Florida — just a half-mile from the famous Daytona International Speedway. Our new factory incorporates multiple CNC machining centers with customized tooling...enabling us to produce a quality product that is both precision-engineered and affordable.

## Don't just take our word for it:

"I found it completely reliable with every type of ammo I fed it, including hollowpoints.... This pistol has the nicest DAO trigger pull I've ever felt on a gun. It was completely smooth, consistent, and snag-free.... I liked both the looks of the pistol and the way it felt in my hand."

- *Guns & Ammo Handguns magazine*

"This company is truly a team that is dedicated to winning by doing what no American armsmaker has done before-build a semi-auto to exceed in performance, quality and features where no such expectations at the price point exist."

- *Combat Handguns magazine*

"The slide is very well machined with weight-saving angles and rounded edges for improved comfort and ease of holstering. The ejection port is aggressively lowered on both the right and left side to improve ejection.... Its black polymer frame has an appearance and feel that suggests attention to detail in the CPX-2's manufacturing.... Overall, we found the CPX-2 to be reliable, well-made and designed, light-weight, and compact. Its full lifetime warranty, careful construction, high-quality appearance and feel, as well as the included extras, belie its very reasonable price."

- *American Rifleman magazine*
