

## **Acres\_for\_Survival/Average\_Garden\_Yields\_2004**

Asparagus Each plant will yield half a dozen spears during harvest season.

Beans, bush One 10-foot row yields 8 pounds; yellow varieties tend to yield less.

Beans, broad One 10-foot row yields 10 pounds

Beets One 10-foot row yields 10 pounds; if you prefer small beets, double seeds.

Broccoli One to three pounds per plant

Cabbage One to three pounds per plant

Corn Approximately 30-36 ears per 10-foot row

Cucumbers 10-15 cucumbers per plant

Eggplant Four to five pounds per plant

Onions One pound of sets produces 30-40 pounds of onions.

Peas, shell One 10-foot row yields 10 pounds.

Peppers Six to 22 bell peppers per plant

Potatoes Five pounds of seed potatoes yield 125 pounds of potatoes.

Summer squash & zucchini If kept picked, one plant will yield 5 pounds of squash.

Tomatoes Yields vary tremendously, but on average, 6-8 pounds per plant
