

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

NAME	SYMPTOM COUNTER VIBRATION		CONTENTS	NOTES
00 COCO	'00 CONTINUAL COUGH		VB	11/00 combination masquerading as the seasonal flu (that isn't a flu). Cough, like post nasal drip, queasy stomach, fatigue, malaise, brain tiring.
99 EP	99 EPIDEMIC		VB	Flu-like symptoms in 25% of the population are 4 viruses and 2 bacteria. May ALSO need EDB, ZINC CHLORIDE, ASPERGILLIS FUMIGATUS.
ACC	ANTHRACOCXCOB	1-2	VBC	Anthrax, Coxsackie, Cobalt 60 - Especially prevalent around areas where there are nuclear reactors.
ACD LIV	ACID LIVER		MVF	Similar to Primary Biliary Cirrhosis. Including Ergot, this very deep disease slowly eats away the liver and its function.
ACE SPC	ACES AND SPACES		MVB	Reactivates small intestine enzyme making to clean out the gooey mucous that binds dead cells. The remedy supports a long-range and permanent bases of the results of GOO CLN so that you activate ace cells with enough space to operate.
ACIN CA	ACINIC CELL ADENOCARCINOMA		MVB	A low-grade carcinoma that develops in the secreting cells of racemose (grape-like) glands, especially salivary glands and pulmonary alveoli. It combines with other pathogens to make infections in different glands that secrete.
ACP	ANTHRACOXPLOOT	1-2	VBC	Anthrax, Coxsackie, Plutonium - A Denver/Boulder special of people who have lived in the area 5 or more years.
ACT ACT	ACTIVATOR ACTIVATION		MVB	The factor that is used to synthesize proteins and lipids into hormones. The synthesizing factor is made in the spleen and carried by the blood to glands that use it.
ACT VIR	ACTINO VIRUS		V	Crowds the pituitary causing weight gain in pear-shaped bodies.
ACT WEB	ACTIVATING WEB		MVB	Bone/Liver/Lymph condition producing insufficient reticulocytes to maintain neurological brain web multiple concept connection and wakefulness. Subjects appear to have selective apathy for life, irritation with many and disdain for society systems. Because of the lacking they often see others as lacking.
ACU NER	ACOUSTIC NEUROMA		MVB	Growth in ear that diminishes hearing. For tinnitus add one or more of BRC BLK, SWL SFNG, STR FGA, CAN SI.
AD BASE	ADRENAL BASE ENERGY		MVB	Adrenal medulla-based combination at the base of several diseases severely affecting nerve energy. For Addison's, add one of Blastomycosis, Chromomycosis, or (usual) Histoplasmosis. For Von Hippel's, add Rhizamucor.
AD MD BD	ADRENAL MEDULLA BUILDER		MVB	Liver/bone amino acids and enzymes needed to rebuild/regrow adrenal medulla. Take with adrenal trigger and adrenal enzyme alteration remedies. See also AD MD DS as a preliminary.
ADARMA	ADENOARENOMA		MVB	A compound-content lump often found on the adrenals affecting hair growth. Easily combines with a retrovirus plus CMVs.
ADC CAR	ADENOCYSTIC CARCINOMA		MVB	Frequently in salivary glands, breasts, mucous glands of the upper and lower respiratory system and occasionally in the vestibule glands of the vulva. Spreads along nerves causing paralysis in face (often upper lip).
ADEN B	ADENOVIRUS GROUP B		V	Virus known for respiratory, pneumonia and urinary tract issues. Often holds together combinations
ADEN C	ADENOVIRUS GROUP C		V	Virus known for liver and lymphatic issues. Often holds together combinations with liver
ADEN D	ADENOVIRUS GROUP D		V	Virus often known for liver, gall bladder issues. Often holds together combinations with liver
ADEN E	ADENOVIRUS GROUP E		V	Virus often known for liver, gall bladder, respiratory and head issues. Often holds together combinations
ADEN F	ADENOVIRUS GROUP F		V	Virus known for intestinal issues. Often holds together combinations with liver
ADEN G	ADENOVIRUS GROUP G		V	A class of adenovirus not yet recognized in science.
ADEN H	ADENOVIRUS GROUP H		V	Virus not known for any specific areas, other than the flesh of the body.
ADENO	ADENOVIRUS	1-2	V	This major family of viruses loves to lock into lymph and/or muscle tissue connected to glands
ADMDDS	ADRENAL MEDULLA DISEASE		MVB	Could form the base of many adrenal-related inherited diseases, especially collagen diseases.
ADN ADN	ADENO ADENOMA		MVB	Often the cause of intestinal polyps and usually found with a retrovirus. The frequent propensity to vomit is one of the most recognizable traits.

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

ADN SCT	ADENO SQUAMOUS CYTOMA		MVB	A compound lump very similar to a cyst with squamous cells. Found in respiratory control center of brain.
ADN SQA	ADENOSQUAMOMA		MVB	A lump composed of adeno and squamous cells. Most commonly seen in the adrenals, but possible anywhere.
ADN STN	ADRENAL STONES	4-6	T	Adrenal stones are made of a form of mercury and reside at the nerve endings
ADNCAR	ADENO CARCINOMA		MVB	Group of aberrant cells massing towards a tumor in a layer of the interior or exterior skin that can be anywhere in the body.
ADQ REG	ADEQUACY REGAIN	4-14	E	INADEQUACY as to the task in life, the calling of God and the ability to stick with a project interfere with success on any level.
ADR ADN	ADRENAL ADENOMA		MVB	A lump on the adrenals often precipitating a hormonal problem.
ADR BLD	ADRENAL BUILDER		MVF	Rebuilds liver's ability to produce a peptide called "Corticotropin Releasing Factor" for stress reduction in adrenals. Restores depletion caused by overwork, emotional & physical stress, child birth. Digestion is blocked by this string of amino acids.
ADR CHR	ADRENAL CHARGE		MV	With PIT CHR reactivates the whole hormonal system for digestion to sexual performance.
ADR CMA	ADRENAL CAPSILOMA		MVB	Like a form of mesothelioma of the intestines or lungs, this is an infection of the capsulizing layer around the outer surface (cortex) of the adrenals. It often precipitates hair loss, hormonal problems and energy loss. Usually seen with a retrovirus.
ADR CPC	ADRENAL CAPSULE CARCINOMA		MVB	An irritated condition of the outer capsule of the adrenals. When a retrovirus is accompanying the condition, we usually see grey hair. A little more serious than ADR CPS.
ADR CPS	ADRENAL CAPSULE SARCOMA		MVB	An irritated condition of the outer capsule of the adrenals. When a retrovirus is accompanying the condition, we usually see grey hair.
ADR CRT	ADRENAL CORTISOL DISEASE		MVB	Corrects an enzyme defect that results in low levels of cortisol and increased levels of ACTH. In varying degrees, it causes low digestion and low emission of sexual hormones.
ADR DRN	ADRENAL DRAIN		MFV	Inhibits calcium use by adrenals. Blocks histamine conversion so that it binds with protein and inhibits protein conversion to amino acids. (Carbon blockage from another source like Carbohydrates Block with blocked calcium leads to fat.)
ADR EDM	ADRENAL EDEMA		MRV	Inherited adrenal deficiency that causes rise in renin and blockage of kidneys with accompanying water weight
ADR EZH	ADRENAL ENZOHORMONES		MVB	Enzohormones are key triggers of activities throughout the body, from digestion to attitude to body shape. They are made from a combination of follicular cells, endocyt cells and are thwarted by bone infections as well as adrenal or kidney infections.
ADR FIR	ADRENAL FIRE		MVB	Aimed at removing the blocks to progesterone production
ADR HYP	ADREN-BASED HYPOGLYCEMIA		MVB	Cholera Miasm-based cause of hypoglycemia that is adrenal-based (5% of the cases). (95% need Uplift/Sassafras oil for pancreas parasite)
ADR SHI	ADRENAL SHINE		F	Several fungi, including the one causing SAD, converge to make a continual tiredness, hormonal imbalance and disruption in ovaries or testicles.
ADR SOD	ADRENAL SODIUM MAKER		MVB	Approximately 85% of the constitution of sodium is formed by the adrenals and derived from cerebral spinal fluid. The adrenal medulla makes sodium for cell respiration while the adrenal cortex makes sodium for carriage of enzymes, hormones, etc. The thyroid needs this sodium to use with iodine to carry metabolites, the nerves need it for muscle function, etc. Sex, childbirth, worry, altitudes pull it from the body. Its spent form clogs the nerves and memory.
ADR VIR	ADRENAL VIRUS	1-2	V	Virus causes adrenal exhaustion (especially around menopause). Also look at Sleeping Sickness Parasite & ADN STN.
ADREMA	ADRENALEMIA		MVC	Unleashes bone marrow substance for adrenals to synthesize hormones from cholesterol
AEA 17A	ADRENAL ENZYME ALTERATION - 17A		MVB	Enzyme deficiency for stimulation of thyroid that is deactivated by low blood pressure. To reinstate after BP normalization thyroid must be absorbing iodine and oxygen. This enzyme also stimulates the engorgement of genitals and breast with arousal.
AEA 18	ADRENAL ENZYME ACTIVATION 18BASE		MVB	USE ONE OF THE BELOW LETTERED VERSIONS AND NOT THIS BASE. This series reduces the effects of fear and anxiety thoughts on the adrenals. Thoughts of fear originate in the hippocampus which sends actual thought substances/chemicals that we call "mortacts" (kill-the-action) through different hormonal glands via the golgi apparatus to the adrenals, which shut down hormones, neurons and enzymes
AEA 18A	ADRENAL ENZYME ACTIVATION 18 A		MVB	Reduces the effect of fear thoughts sent from the hippocampus to the hypothalamus resulting in "store, protect and save" messages to the adrenals. The adrenals consequently shut down hormones, neurons and enzymes. See explanation under AEA 18.
AEA 18B	ADRENAL ENZYME ACTIVATION 18 B		MVB	Reduces the effect of fear thoughts sent from the hippocampus to the thalamus resulting in psychic fear messages to the adrenals. The adrenals consequently shut down hormones, neurons and enzymes. See explanation under AEA 18.

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

AEA 18C	ADRENAL ENZYME ACTIVATION 18 C		MVB	<i>Reduces the effect of fear thoughts sent from the hippocampus to the epithalamus resulting in emotional fear memory messages to the adrenals. The adrenals consequently shut down hormones, neurons and enzymes. See explanation under AEA 18.</i>
AEA 18D	ADRENAL ENZYME ACTIVATION 18 D		MVB	<i>Reduces the effect of fear thoughts sent from the hippocampus to the pituitary resulting in control fear messages to the adrenals. The adrenals consequently shut down hormones, neurons and enzymes. See explanation under AEA 18.</i>
AEA 18E	ADRENAL ENZYME ACTIVATION 18 E		MVB	<i>Reduces the effect of fear thoughts sent from the hippocampus to the thyroid resulting in fear of applying yourself fear messages to the adrenals. The adrenals consequently shut down hormones, neurons and enzymes. See explanation under AEA 18.</i>
AEA 21A	ADRENAL ENZYME ALTERATION - 21A		MVB	<i>An imbalance of 21 Hydrolase enzymes. Often earmarked by varying degrees of "salt wasting", dehydration, electrolyte abnormalities and sometimes stunted growth.</i>
AEA 21B	ADRENAL ENZYME ALTERATION - 21B		MVB	<i>A variation of 21A. Causes an androgen excess which sometimes has owner controlled by sexual urges instead of having guidance of it. Remedy does not take away sexual drive, but tempers it to a semblance of sensibility.</i>
AEA 21C	ADRENAL ENZYME ALTERATION - 21C		MVB	<i>A variation of AEA 21A. Causes an androgen insufficiency with less sexual drive than benefits the owner.</i>
AEA 21D	ADRENAL ENZYME ALTERATION 21D		MVB	<i>An imbalance of 21 Hydrolase enzyme. Common manifestations are excess facial and body hair for women (hirsutism), excessive perspiration (especially of hands and feet), menstruation difficulties, sparse sexual drive, stenosis of arteries.</i>
AEA 21E	ADRENAL ENZYME ALTERATION 21E		MVB	<i>An imbalance of 21 Hydrolase enzyme. Often with perspiration of hands and feet (especially with stress), fine hair, usually scant menstruation, feels the other sex lacks enough interest (although usually no interest in same sex), hypometabolism of weight,</i>
AEA 3BA	ADRENAL ENZYME ALTERATION - 3BA		MVB	<i>3 Beta Hydroxysteroid Dehydrogenase Deficiency. A key enzyme for the sustaining of adrenal activity and hormone production. Drink water while taking to avoid back aches.</i>
AEA 3BB	ADRENAL ENZYME ALTERATION - 3BB		MVB	<i>A key e3 Beta Hydroxysteroid Dehydrogenase Deficiency alternative correction (the most commonly used). A key enzyme for the sustaining of adrenal activity and hormone production. Drink water while taking to avoid back aches.</i>
AEA PC	ADRENAL ENZYME ALTERATION - PLASMA CELLS		MVB	<i>Adrenal-based remedy for reenabling an enzyme to break down protein in a way that feeds instead of clogs red blood cells. See also PC MAL and PC EZ UT.</i>
AFLGOT	AFLAGOT	1-4	F	<i>Combination of the molds Aflatoxin and Ergot. The combination is high in beer and wine and destroys liver.</i>
AFLTOX	AFLATOXIN	1-4	F	<i>Liver mold that causes cirrhosis, found in hepatitis, cancer. From bread, brown rice, etc.</i>
AGPHOB	AGORAPHOBIA	3-8	E	<i>Fear of crowds of people, like parties and public places, caused by Syphilis miasm in the pituitary plus bacteria and fungus</i>
ALC DSR	ALCOHOL DESIRE		MR	<i>With alcoholinum, this combination increases the body's desire for alcohol</i>
ALC INT	ALCOHOL INTOLERANCE		MBF	<i>For those who swoon at the slightest taste of alcohol (not former alcoholics). Will not make you a lush. In milk tablets.</i>
ALCLFL	ALUMINUM CHLORIDE FLUORIDE		C	<i>Water infiltrated chemicals often lodging in pancreas</i>
ALCNUM	ALCOHOLINUM		M	<i>Obviously this miasm is a world-wide issue</i>
ALCO	ADRENAL LIVER CONNECTION		MBF	<i>Prepares cholesterol for the adrenal to use in the synthesis of adrenal hormones</i>
ALD ADN	ALDOSTERONE BLOCKING ADENOMA		MVF	<i>In the adrenals this lump blocks the precursor hormone to estrogen, progesterone and testosterone.</i>
ALFCF	ALUMINUM FLUORIDE CHLORIDE FORMALDEHYDE		C	<i>Lethal water byproduct and food combination that can impair brains.</i>
ALG BLD	ALLERGY BLOOD		MV	<i>IgD Immunoglobulin Deficiency relevant to allergic responses to milk, insulin, penicillin and various toxins</i>
ALK LUK	ALEUKEMIC LEUKEMIA		MVB	<i>Causes Pyruvate Kinase Deficiency, an enzyme that helps red blood cells in converting phosphate compounds to cell food.</i>
ALM FLR	ALUMINUM FLUORIDE		C	<i>Newest means of fluoridating city water after sodium fluoride was declared poisonous. Affects brain (memory, dementia) and bones.</i>
ALOPEC	ALOPECIA		MVF	<i>Inherited factors that affect kidneys/adrenal connection to cause patchy hair loss. Other remedies for inherited patterns of hair loss.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

ALS	ALATERAL SCLEROSIS		RVB	<i>Lou Gehrig's Disease; inherited conditions combine with a little-known form of clostridium and NEV CHM forms a base, often with Neisseria</i>
ALT ADR	ALTERED ADRENALIN		MB	<i>Shock, birth and extreme fatigue can so drain the adrenals that infection turns adrenaline into a selective hormone deactivator causing undermetabolization and weight</i>
ALT KID	ALTITUDE KIDNEYS		MVB	<i>Seems to make kidneys close down in altitudes, which throws blood viscosity and lymph out of kilter. Subclinical at low altitudes</i>
ALT SIC	ALTITUDE SICKNESS		MVF	<i>A tightening of veins in brain causing a low-blood-pressure chain reaction from kidneys to heart to lungs. This lowers O2 in blood which is felt strongly in areas with decreased oxygen. People become weak, sick and, in extreme cases, delirious.</i>
AMALG	AMALGAMS		C	<i>The toxicity of amalgams (silver-looking fillings that are actually mercury) is becoming legendary, especially in MS</i>
AMM	ADRENAL MEDULLA MOLD	2-5	F	<i>Mold involving the varied reasons for slowed circulation in the adrenals which allows a mold in the medulla</i>
ANA VIR	ANESTHESIA VIRUS		V	<i>Virus in liver created by anesthesia from surgery or dentistry. Weight gain and/or possible hair loss follows.</i>
ANC ISU	ANCIENT ISSUES	8-11	MV	<i>Leprosy, Plague, Hemorrhagic Fevers, Coxsackie, Anthrax, VPV-Base, deep immune robbers of miasm level. Primordial issues may arise.</i>
ANEM GB	ANEMIC GALL BLADDER		MRV	<i>An inherited condition involving rickets and polio that suppresses GB. Most possessors LOVE mayonnaise</i>
ANG BLS	ANGIOBLASTOMA		MVB	<i>A lump of newly forming cells on any channel of fluids in body from heart to brain or any other organ.</i>
ANK SPN	ANKYLOSING SPONDYLITIS	10-16	MVB	<i>Bechtrew's in Scandinavia - Chronic low back pain with deteriorating disks and forward/backward double spine curve</i>
AOR SQE	AORTA SQUEEZE		MVF	<i>Coarctation of Aorta is a congenital cardiac anomaly characterized by a localized narrowing of the aorta which results in increased pressure back into the heart and decreased blood pressure towards the extremities.</i>
APH ADN	ACIDOPHILIC ADENOMA		MVF	<i>Via the pituitary, this lump affects body use of calcium, fibrogen, skin & nails, especially when cytoviruses accumulate. Involved with growth hormones w/acromegaly and giantism.</i>
APL ANM	APLASTIC ANEMIA		MVB	<i>Officially - Lymphocytic Leukopenia. Periodic sore throats, reduced resistance to viral infections, unexplained blood-shot eyes or hemorrhages, flu-like swollen glands, stuffiness.</i>
APRAX	APRAXIA		MVF	<i>Growing forgetfulness of how to do sequential tasks; misuse of objects (picking up a pen instead of a knife or cutting a tablecloth with scissors); occasional forgetting of how to write a letter or a word; periodic academic dementia & growing memory loss.</i>
ARBO	ARBO	1-4	V	<i>Arbo Virus - Parasite-born viruses and fevers. Often causes disorientation after teeth work. Much worse in low nutrition settings.</i>
ARENO	ARENO	1-3	V	<i>Areno Virus - Meningitis forms of diseases carried by ticks, fleas and animals.</i>
ARG DEF	ARGININE DEFICIENCY		MVB	<i>Correcting the deficiency of an essential amino acid that can cause seizures, spacity and retardation</i>
ARISE #1	ARISE #1		MVB	<i>Inherited nerve blockage in the sexual apparatus of male and female. Take with ARISE 2 and ARISE 3.</i>
ARISE #2	ARISE #2		MVB	<i>Inherited issue with the adrenals that blocks testosterone from the reproductive glands. Take with ARISE 1 AND ARISE 3.</i>
ARISE #3	ARISE #3		MVB	<i>Inherited issue with the thyroid that blocks thyroxin from reproductive glands. Take with ARISE 2 and ARISE 3.</i>
ARNOMA	ARENOMA		MVB	<i>A miasmatic-based propensity for mass or swelling based on the areno virus instead of the usual Papilloma virus</i>
ART BLD	ARTERIES BLOOD		MB	<i>IgM Immunoglobulin Deficiency associated with Pneumonia, meningococcal meningitis and mushy arteries</i>
ART LNG	ARTERY LUNG TANGLE		MVB	<i>Second to blood diseases, this is primarily for windedness. Arteries from the heart to the lung are congenitally tangled and block each other by their expansion when exercising. Shortness of breath w/exertion, insufficient oxygen for the lung and thyroid.</i>
ART OPN	ARTERY OPEN		MV	<i>Inherited condition involving cholera miasm on the adrenals that shrinks arteries and reduces circulation to brain and extremities</i>
ART PNC	ARTERIAL PINCH		MBF	<i>Inherited "rings " on the arteries that constrict occasionally and restrict blood flow. SRG V&A is a ballooning of arteries.</i>
ARTERS	ARTERIES INHERITED		MVB	<i>Granulomatosis and Takayasu's inflamed arteries. Causes myalgia and "headaches like no other". Rheumatoid aches in hips and shoulders</i>
ASBL GL	ASTRO BLASTO CYTOMA GLIOMA		MVB	<i>Combination brain lump of astrocytes, blast cells and glioma mass.</i>
ASC ADR	ASCITES ADRENALS		MVB	<i>One of 3 remedies to dissolve the cause of fluid collection in the abdomen called ascites. It needs accompaniment of Herpes #9 or 13 or 15 and Coxsackie B5 or B9.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

ASC LIV	ASCITES LIVER		MVB	One of 3 remedies to dissolve the cause of fluid collection in the abdomen called ascites. Although it can accompany other kinds of weight, this is distinctive for the lack of puffiness or size accumulated on the limbs.
ASC TRD	ASCITES THYROID		MBF	One of 3 remedies to dissolve the cause of fluid collection in the abdomen called ascites. Although it can accompany other kinds of weight, this is distinctive for the lack of puffiness or size accumulated on the limbs.
ASCITS	ASCITES		MVF	Folliculhitechia -The holding of fluid in abdomen after or during sickness. Places strain on kidneys that also will need draining support.
ASCRI	ASCARIS		P	Common parasite of the round worm family. Includes the vibration of black walnut, picked in green stage.
ASD	ATRIAL SEPTAL DEFECT		MVB	Unclosed hole in upper mid wall of heart which doesn't allow blood from lungs to bring enough oxygen. Shortness of breath, easy sweating.
ASPTM	ASPARTAME	3-10	C	Headaches and dizziness from artificial sweeteners and all sodas (even decades later) from this because it "fries" your brain slowly.
ASSIM	ASSIMILATE NOW		B	Antidotes a fungus that binds minerals that engender digestive enzymes. Acts quickly, gives energy gain and girth loss
AST BLS	ASTRO BLASTO CYTOMA		MVB	Non-glioma brain lump combination of astrocytes and blast cells
AST CYT	ASTROCYTOMA	9-11	MBF	Common glioma (brain mass going to tumor) especially with any type of herpes. Also connected to calcium imbalance (KID CAL, TRD CAL)
ASTIG i	ASTIGMATISM i		MVB	Improved version of remedy for well-known eye condition
AT MASS	ADRENAL/THYROID MASS		MVF	Phemochromocytoma -causes night sweats, anxiety, lack of concentration usually around menopause. Other issues also.
ATHRMA	ATHEROMA		MVB	The most common disease of large and medium-sized arteries involving coronary, cerebral and lower-limb arteries. With lower limbs it can produce ulcerations of ankles and legs. Sudden occlusions of legs produces cold, painful, pulseless limbs.
ATM TRD	ATOMIC THYROID	2-6	MBC	Combination of radon, magnetic influence and light nuclear waste equals thyroid problems. Formerly Atomic Denver.
ATR AMY	ADRENAL TRIGGER AMYGDALA		MVB	Corrects condition in the amygdala that blocks motivation stimulus. Subjects often lack the oomph to move from victim to solution and often stay in bad situations.
ATR BC	ADRENAL TRIGGER - BLOOD CLEAN		MVB	This helps kidneys/adrenals make enzhormones that dissolve dead protein and excess CO2 in the blood. The same process frees the thymus to function better. Symptoms are tiredness, overworking heart and circles under eyes. See also TB KID.
ATR CC	ADRENAL TRIGGER - CHOLESTEROL CONVERSION		MVB	Enzhormones from the adrenal/kidneys and involving the bones. They catalyze cholesterol to form other hormones, combine with calcium to form discs, maintain flexibility of the cornea, maintain heart wall flexibility and feed all cartilage.
ATR HAR	ADRENAL TRIGGER - HAIR		MVB	Because this is adrenal based, it triggers liver for hair growth on the head. See also HAR LIV.
ATR LFT	ADRENAL TRIGGER LIPID/FATS		MVB	Restores the depleted ability of the adrenals to produce metabolizing enzymes which dissolve bound-together lipids and fats.
ATR LIP	ADRENAL TRIGGER - LIPID .		MVB	Restores the depleted ability of the adrenals to produce metabolizing enzymes which dissolve lipids.
ATR SG	ADRENAL TRIGGER - STARCH GLUCOSE		MVB	Releases enzymes which dissolve starch/glucose combinations.
AV EXPN	ARTERY/VEIN EXPANSION		MVB	A break-down of the subtle flexibility and porosity of arteries and veins from that of a cotton cloth to a hardened sweater weave. A non-islets of langerhans pancreatic condition that also shrinks the diameter of veins and arteries.
AV RELS	ARTERY/VEIN RELEASE		MVB	Kidney/adrenal condition that emits norepinephrine (artery constrictor) with any stress in other endocrine glands. When the condition is removed, stress releases epinephrine (artery restoration).
AVN NOD	ATRIALVENTRICAL NODE DISEASE		MVB	Like the Sinoatrial Disease this can cause arrhythmias and low blood pressure. It may play a role in sleep apnea. See also SIN ART, NIT.

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

AXNOMA	AXONOMA		MVB	<i>A lump in the cylindrical extension of a nerve cell that conducts impulses through the neuron body. Could interrupt any form of nerve communication from action to thought.</i>
BA HPHS	BLOOD ANEMIA HYPOPHOSPHATE		MVB	<i>Too little phosphorus in the serum and plasma causes brittle red blood cells destroyed by the rigors of circulation. The cells lose ATP (cell energy sugar), O₂, 2-3 diphosphoglyceric acid, decreases glucose utilization (red blood cell energy sugar). Worse with diabetes, alcohol withdrawal, respiratory alkalosis, dialysis and use of antacids.</i>
BA LDL	BLOOD ANEMIA-LOW DENSITY LIPOPROTEINS		MVB	<i>Designed to reactivate a group of plasma enzymes to process depleted chylomicrons. Depleted chylomicrons bind to albumin creating ascites and may be depleted of triglycerides through a thyroid malfunction (FRM CTG). The plasma enzymes frees the LDL receptors to allow lipoprotein to feed the rest of the body.</i>
BA STM	BLOOD ANEMIA STOMATOCYTOSIS		MVB	<i>Too many red blood cells are shaped like mouths. Like an open mouth, too much of the electrical charge runs out so that red blood cells become too fragile, die too easily and cause spleen swelling (abdominal swelling). Under these circumstances alcohol makes it increasingly worse, ATP (cell energy sugar) decreases and O₂ is lost easily. The condition usually travels with other blood diseases. It stops potassium from holding nutrition in the cells. See also POT SRG.</i>
BAC DIS	BACTERIA DISCOMBOBULATION		MVB	<i>Bone disease- Chronic Granulomatous Disease- making the whole system more susceptible to Staph, Strep and other bacterial infections.</i>
BAC FRG	BACTERIA FRAGILIS	1-4	B	<i>Frequently found in brain abscesses and brain tumors. Often found with Coxsackie and Wormwood.</i>
BAR CNG	BAROMETRIC CHANGE		VF	<i>Congestion in head makes person decrease in function with altitude. From headaches to kidney backup to lymph coagulation</i>
BAROCP	BARORECEPTOR ARTERY DISEASE		MVB	<i>An inherited malfunctioning of the Marinesco bodies of the substantia nigra and locus ceruleus in the arteries. These cells monitor blood flow and send messages to the brain to raise or lower blood pressure.</i>
BAS CEL	BASAL CELL CARCINOMA		MVB	<i>Skin disease that looks like a scab or festering mole that lingers on. Melanomas sometimes look similar</i>
BBT	BUG BITE TOXINS		T	<i>For those who swell up at the slightest bite of mosquitoes, gnats, chiggers, etc. Spider and bee remedies are separate kinds.</i>
BCP	BLOOD CELL PARASITE	1-3	P	<i>Kalaazar, also called Leishmania Donovanii, also called Leishmaniasis. Eats blood cells and forms skin lesions. RE Anemia, AIDS, CFS, etc..</i>
BD FLK	BILE DUCT FLUKES	1-5	P	<i>Inflames and causes to malfunction the connection of Liver/Gall Bladder & Liver/Pancreas. Part of calcium upset</i>
BEL BUS	BELLY BUSTER		MVB	<i>Sclerosing Cholangitis-Secondary Biliary Cirrhosis. Malformed bile that hardens liver, bile ducts and eats both. Poor digestion accompanies the condition.</i>
BEN	BENZENE ANTIDOTE	1-4	C	<i>Common chemical toxin weakening especially pancreas, liver, and thymus. In most AIDS cases. See Thymus Strong.</i>
BER	BLOOD ENZYME REPAIR		MB	<i>(Hexose Monosulphate Shunt Defect) Blocks the formation of over 100 blood enzymes. Also tests to be an attraction to the Holy Spirit into the body</i>
BHK CAN	BRAIN HEART KIDNEY CANDIDA		F	<i>Highly involved with chemical sensitivity plus clogging of pituitary in weight gain and fogged thinking. May well go to liver and other parts of body</i>
BIL BOO	BILIARY BOOST		MVF	<i>Aimed at Sarcoidosis of the liver. Inherited, chronic infection of the liver tissue that decreases all liver functions and attracts other liver diseases.</i>
BLAD CS	BLADDER CYST		MB	<i>Aimed at interstitial cystitis</i>
BLADMA	BLADDEROMA		MBF	<i>Mass growing on either the urinary bladder or the gall bladder</i>
BLASMA	BLASTOMA		MVF	<i>Lump of new cells that don't fully mature. Loves the medullas (but doesn't do them any good).</i>
BLC MEN	BLANCAMENINGITIS		MVB	<i>A swelling of the white matter of nerves that pressures neighboring nerves.</i>
BLD CRD1	BLOOD CRADLE #1		MVB	<i>Similar to leukemia, this could technically be called a phagocytomia. It is a defective formation of the immune protector, phagocyte, which has leukocytes inside. Phagocytes carry (cradle) in the blood needed enzymes.</i>
BLD CRD2	BLOOD CRADLE #2		MVB	<i>Similar to leukemia, this could technically be called a phagolysosome. It is a self-destructing formation of the immune protector, phagocyte, which has leukocytes inside. Phagocytes carry (cradle) in the blood needed enzymes.</i>
BLD DBR	BLOOD DEBRIS SWEEPER		MVB	<i>An enzyme that dissolves the debris of dead organic cells that gather excessively when healing blood diseases like leukemia, thalassemiias, hemoglobin diseases, etc..</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

BLD IMP	BLOOD IMPROVEMENT BASE		MMM	<i>A group of miasms that weaken the blood strength and function. Body health is in direct proportion to blood health. Take with HEM CRB.</i>
BLD OXY	BLOOD OXYGEN MIASM		M	<i>Causes blood to decrease in electro/magnetic power over the years.</i>
BLD SCB	BLOOD SCRUBBER		ENZ	<i>Cleans blood of cholesterol, breaks up lipid, opens follicular glands plus thyroid and adrenal glands with follicular-based lumps, helps eyesight, opens capillaries (stroke folks), increases nitrogen availability.</i>
BLN L	BLOOD ENERGY- LIVER		MVF	<i>For the forms of Glycogen Storage Disease that clog the liver and cause balloon abdomens. Often they regulate themselves to the point of stopping before they exhaust themselves deeply.</i>
BLN M	BLOOD ENERGY - MUSCLES		MVF	<i>A blood disease. For the forms of Glycogen Storage Disease causing deep muscle fatigue after exercise.</i>
BLEPH	BLEPHARO SPASM		MVB	<i>Condition that causes involuntary contraction of eyelids.</i>
BLF	BLOOD/LYMPH FLUKES	1-3	P	<i>Several forms of Schistosomas. Especially likes kidneys as well as arteries.</i>
BLK OUT	BLANK OUT MASS		MB	<i>Causes a "mismatch" of acetylcholine (neurotransmitter) so that the nerve impulse blanks out and the message is not received in Myesthenia Gravis, etc</i>
BLK TRD	BLOCKED THYROID	3-5	VB	<i>Two viruses and 2 bacteria with a strange propensity to gang up on thyroids everywhere</i>
BLNC NR	BLANCA NERVE DISEASE		MVB	<i>Most commonly seen as aging, the white matter of the nerves controls the autonomic bodily functions. It seems to shift focus from intellectual thinking to current observations, bodily functions and distant memory. Attention span is shortened.</i>
BLS CYT	BLASTOCYTOMA		MVB	<i>A lump of embryonic tissue developing from the blastema (primordial, undifferentiated cellular material that makes up the foundation) of an organ or tissue.</i>
BLST	BLASTOMYCOSIS	1-4	F	<i>Bronchial/lung form of pneumonia. Spreads by blood to all other organs and skin. Sometimes warts that change into small abscesses.</i>
BLT BLT	BLOAT BLOAT		MVB	<i>Inherited kidney condition that backs up and distributes uremic poison in way that lands in intestines/gut and causes large waist line.</i>
BMM	BRAIN MEDULLA MOLD	2-4	F	<i>Common collection of mold/fungus/bacteria that simultaneously clogs and deteriorates the brain.</i>
BNB	BRAIN NERVE BLOCK	3-5	VB	<i>Virus/Bacteria/Fungus group blocks ability to get words out. Involves Posterior/Anterior pituitary lobes.</i>
BNM MAL	BONE NERVE MUSCLE MALADY		MVB	<i>A wide-spread, bone-based "age-related" disease that dissolves strength and firmness. In Latin this could be called a "myomyelo" disease.</i>
BOFG BF	BLOOD ORGAN FUNGUS with BREATH FREE		F	<i>General fungus killer for intestines and lungs used in Europe successfully since 1996.</i>
BOMOTO	BONEMONE TONE		MVB	<i>Frees bonemone (the substance made in the bones needed to make hormones) to supply all the endocrine glands.</i>
BON BMP	BONE BUMPS		MVB	<i>Aimed at "Osteochondromas" which appears as little nodules forming mostly on the joints, especially fingers. Looks like Rheumatoid Arthritis</i>
BON COV	BONE COVER		MVB	<i>Infections in the periosteum (sheath of the bone) that often affect the sacral area (as well as other bones).</i>
BON CRK	BONE CRACK	3-18	VB	<i>When a bone is only cracked it invites several forms of Klebsiella different from that of the standard BON INF.</i>
BON FLU	BONE FLU		V	<i>A form of influenza that settles in the bones (and often the brain) causing collection of fluid in body (ascites). Like LYM GUT</i>
BON HRD	BONE HARD	10-14	MV	<i>The inherited basis for Scleroderma and some other conditions that contract tendons</i>
BON INF	BONE INFECTION	10-25	BV	<i>A combination of Strep in Bone, Klebsiella Ozaenae, Coxsackie B - seen in so many cases of brewing bone cancer and osteoporosis.</i>
BON JCS	BONE JOINT CYSTS		MV	<i>Osteochondroma-Cartilage tumors loose and painful in joints. If skin discoloration over joints, look for kidney issues. See BON BMP</i>
BON LIT	BONE LIGHT		MBF	<i>Pineal growth giving brow headaches and light mal assimilation of endocrine system</i>
BON LMF	BONE LYMPH		MVB	<i>Reduces excess of Von Willebrand factor in platelets. Designed for a bone condition that distorts lymph function from absorbing toxins and exiting to a pathological condition of depositing its toxins in the body as a form of dropsy weight.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

BON PAP	BONE PAPILOMA	10-16	V	A form of papilloma preferring bones. Included in OST ART.
BON PCT	BONE PUNCTURE INFECTION	3-9	VB	One of several ways infections start in the bone . . . and spread.
BON PNM	BONE PNEUMONIA	5-8	B	Often inherited, involving a number of bone swellings that resemble polio, multiple myeloma and neuropathy
BON RAD	BONE RADIATION	10-18	MVB	A bone cancer precipitated from nuclear or microwave exposure, or over x-raying or over radiation treatments.
BON SKN	BONE SKIN INFECTION		BF	<i>Infection in periosteum (covering of the bone). Can contribute to infection in bone and osteoporosis.</i>
BON SLD	BONE SOLID		MRV	<i>Designed for Albright's Disease, a form of bone dysplasia, endocrine dysfunction, precocious puberty in girls, fast growth in boys, hyperthyroidism, insomnia, fine motor tremors, cafe au lait spots.</i>
BOT STF	BOTUSTAPH	1-6	B	Botulism and staph. Almost always in spinal cord.
BPH	BENIGN PROSTATIC HYPERTROPHY	1-6	MVB	An old issue of prostatic swelling usually after 45. Liver controls prostate, so also check liver issues.
BPNMV	BOVINE PNEUMOMEGLOVIRUS		V	<i>Like CMV, this virus locks into the lymph trapping oxygen around cellular fluid</i>
BR ANE #1	BIRTHING ANESTHESIA #1		CF	<i>Anesthesia when you gave birth to a child, plus the anesthesia used with your mother and possibly the anesthesia used for your grandmother. The chemical continues to paralyze your nerves, plus attract pathogens that eat your nerves.</i>
BR ANE #2	BIRTHING ANESTHESIA #2		CF	<i>Anesthesia when you gave birth to a child, plus the anesthesia used with your mother and possibly the anesthesia used for your grandmother. The chemical continues to paralyze your nerves, plus attract pathogens that eat your nerves.</i>
BR ANE #3	BIRTHING ANESTHESIA #3		CF	<i>Anesthesia when you gave birth to a child, plus the anesthesia used with your mother and possibly the anesthesia used for your grandmother. The chemical continues to paralyze your nerves, plus attract pathogens that eat your nerves.</i>
BR ANE #4	BIRTHING ANESTHESIA #4		CF	<i>Anesthesia when you gave birth to a child, plus the anesthesia used with your mother and possibly the anesthesia used for your grandmother. The chemical continues to paralyze your nerves, plus attract pathogens that eat your nerves.</i>
BR ANE #5	BIRTHING ANESTHESIA #5		CF	<i>Anesthesia when you gave birth to a child, plus the anesthesia used with your mother and possibly the anesthesia used for your grandmother. The chemical continues to paralyze your nerves, plus attract pathogens that eat your nerves.</i>
BRC BLK	BRONCHIAL BLOCK	1-5	F	Aspergillosis - A fungus ball in the bronchi liking dry weather. Binders are clostridium & chlamydia pneumonia.
BRC STR	BRONCHIAL	1-4	RFB	Pneumonia residue + +
BRD BEL	BREAD BELLY		MVB	<i>Mold developed out of yeast used to leaven bread. Usually in liver. Bread making using commercial yeast can put on weight and inches. Leviticus says do not eat leavened bread and this may be why.</i>
BRIBRI	BERIBERI		D	<i>Vitamin B1 deficiency that often causes mental confusion and forgetfulness. Often with other brain issues.</i>
BRN BLB	BRAIN BLOB		MVF	<i>Cerebral Hemangiomas - Not quite tumor status; Causes pressure on brain and some forms of malfunction</i>
BRN BLG	BRAIN BULGE		MVB	<i>Ependymoma, often with GLI CER, crowding pituitary</i>
BRN CLR	BRAIN CLEAR	2-6	MVF	<i>Combination of brain fungus with the binders of Coxsackie and T. B Miasm in pituitary.</i>
BRN DRK	BRAIN DARK		MBF	<i>A mass that crowds the pineal causing forms of paranoia and a gate of entry for negativity</i>
BRN FGS	BRAIN FUNGUS	2-6	F	<i>Cryptococcosis instead of Cryptomycosis. Fungus that loves brain, left lung and spine.</i>
BRN FLU	BRAIN FLU		V	<i>A virus lodged in the brain, thought to especially effect the epiglottis and possibly sleep apnea.</i>
BRN FLX	BRAIN FLEX		MVB	<i>Hardening around thalamus and hypothalamus, in a way that squeezes pituitary and its hormones. With BON HRD may stunt growth to some forms of dwarfism</i>
BRN MUS	BRAIN MUSCLE	1-5	P	<i>Fuzzy thinking that infuriates the possessor is the ear mark of this trichinosis family parasite formula</i>
BRN OXY	BRAIN OXYGEN		MVB	<i>Brain controlled factor of the lungs that allows more oxygen absorption and, thus allows more oxygen for the whole body. See also TRD OXY & OXY BOO)</i>
BRN RGN	BRAIN REGAIN	3-6	MVB	<i>Miasmically based cause of either ankle restlessness, sleeplessness or headaches and brain fog.</i>
BRN SWL	BRAIN SWELLING	1-5	MVB	<i>Residue of Whooping Cough and Coxsackie on top of TB in the Brain.</i>
BRS BLD	BREAST BUILD		MVB	<i>Using a combination of hormones and enzymes breast cells are unblocked to grow to the full potential for the person. Other adrenal and pituitary problems may reduce results. First reports are favorable.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

BRS PUG	BREAST PUDGE		MVB	<i>Liver/adrenal remedy mostly for males to flatten unwanted breasts stemming from clogged liver. For women, it helps to better shape and firm the breasts.</i>
BRUS	BRUSILLOSIX	1-5	B	<i>Brucellosis (Undulant Fever) from bad milk. Often like a residue it hangs in the body, especially around bone and intestinal issues.</i>
BSG BOB	BLOOD SUGAR BOBBLES		MVB	<i>A blood disease of the bones called acanthocytosis that affects the liver and the pancreas making blood sugar highly unstable. Lipids (A BETALIPO-PROTEINEMIA) are not assimilated and there is a feeling of always "starving". The subject has a sense of never getting better, gaining weight and seemingly random food sensitivities are common. Retinitis Pigmentosa, ataxia and impaired thinking are also common. Growing tearfulness is a major symptom.</i>
BTK	BACCILUS THURINGIENSIS KURSTAKI		B	<i>Dusty bacteria sprayed from planes to destroy respiratory systems of caterpillars</i>
BTR ANT	BETRAYAL ANTIDOTE		E	<i>For those who carry deep thoughts, usually buried, of BETRAYAL - usually by God and/or someone who represents God to them.</i>
BTUL	BOTUBAN	1-6	B	<i>Botulism often from punctures. Heads quickly to spine. Many cases of incontinence respond. It is a nerve paralysis bacteria.</i>
BUC MUC	BUCCOSAL MUCOSA		MVB	<i>A loosely hardened specialized mass in the lip/cheek area (usually) with the same characteristics as a hardened lump elsewhere.</i>
BUG SPR	BUG SPRAY		C	<i>Off the shelf sprays used for bugs that may affect your brain, lungs, skin, liver, gall bladder, intestines, kidneys, sinus, etc.</i>
BUNYUN	BUNIONS	8-10	MVB	<i>A derivative of Tuberculosis miasm plus a few bacteria may be why the miasm manifests in the toe</i>
BURN OT	BURN OUT FUNGUS		F	<i>A form of Pitayriasis that is found in exhausted adrenal cortex causing hardening and lesions. Caused by over worry and over exertion. Leads out to "burn out", decreases stamina. Causes white skin spots and white extrusions like soft corns.</i>
C & MP	COXSACKIE & MONKEYPOX		RV	<i>Pancreas-based issue of sweet desire (such as sweet liquor at night), deteriorating digestion with age.</i>
C & VAC	COXSACKIE & VACCINA		RVB	<i>(Vaccina = Cow Pox) Another possible pancreas block that precipitates Diabetes (and, in this case, lots of extra weight).</i>
C TOBO A	CHILD'S TOOTH/BONE INF A		BV	<i>Retrovirus, with teeth/gums/bone/pancreas blocks from mother's same infection. Basis of lowering immune system to allow miasm manifestation</i>
C TOBO B	CHILD'S TOOTH/BONE INF B		BV	<i>Retrovirus Radiation, with teeth/gums/bone/pancreas blocks from mother's same infection. Basis of lowering immune system to allow miasm manifestation</i>
CABAMA	CARBAMATES		C	<i>Pesticide, like organophosphates, that kills insects by inhibiting the formation of cholinesterase enzyme in the nervous system. Chemicals also store in the liver.</i>
CAL FRE	CALCIUM FREE		MVB	<i>Dissolves calcium compounds attached to histamine and some hormones. Process of freeing reactivates hormones and lets go of some blockages that contribute to unwanted weight.</i>
CAL MJK	CALCIUM MAJIK		MVB	<i>Converts into beneficial use calcium blocking brain, arteries, GB, Kidneys & O2/N2 absorption. Take w/500 mg cal/mag, per evening.</i>
CAL PEP	CALCIUM PEP		MV	<i>Relieves blockage of calcium transformation by parathyroid and kidney. The disease decreases electrolyte production leading to diarrhea, etc. Causes pseudo-Graves disease leading to hyperactive thyroid and thyroid dysfunction.</i>
CAL PRL	CALCIUM PARALYSIS		MVF	<i>Pancreas condition that binds calcium instead of distributing it. Take with C&D.</i>
CAN ELM	CANDIDA ELIMINATE		MVF	<i>Candida is called a yeast common to the body and all 12 forms are thought to be natural to the body. Perhaps candida in all of its forms is another, long-accepted illness. The body seems to have used it to finish digestion and maybe there is a better way.</i>
CAN PAN	CAN PAN	1-3	F	<i>Candida in the pancreas. The trigger for diabetes and lupus. Other steps are needed for full picture.</i>
CAN SI	CAN SI	1-7	F	<i>Candida in the Small Intestines (Sporotrichosis). "Skinny person's candida" No diet needed.</i>
CAND X	CANDIDIASIS		F	<i>An approach that has worked well for relieving the overgrowth of candidiasis. It is still important to heal liver and pancreas as the more substantial cure.</i>
CAP JAM	CAPILLARY JAM		MVB	<i>Capillaries miasmically shut down for lack of an enzyme that dissolves materials that clog them. The result is a fertile ground for moles, warts, skin tags, etc.. This condition is usually connected to low blood volume/dehydration and kidney problems.</i>
CAR ADR	CARCINOMA ADRENALS		MVB	<i>A deterioration of the adrenals that a surprisingly high number of people live with for years. It is a baseline remedy for many issues. Especially valuable for general tiredness, loss of energy after child birth, loss of life interest.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

CAR LIV	CARCINOMA LIVER		MVB	<i>A gradual deterioration of the liver, inherited as a potential and activated by long-term problems with the liver or harsh chemicals or an acute infection.</i>
CAR MT	CARCINOMA MEDULLARY THYROID		MVB	<i>Carcinoma of the thyroid core, usually involved in weight gain/low metabolism, poor oxygen absorption, liver malfunction. Direct hormonal support for the heart is attributed to the medullary thyroid.</i>
CAR NRV	CARCINOMA NERVES		MVB	<i>A rawness of the nerve from long-term trouble. It leads to a form of cancer and usually needs a retrovirus remedy with it.</i>
CAR ORG	CARCINOMA ORGAN LUMP		MVB	<i>A carcinoma of any organ or cavity (like thoracic, peritoneum, pericardium) that especially includes the shell. Effectively the whole organ or cavity becomes a lump, usually as a result of long-term infection in the area. It may accompany carcinoma just of the inner tissue (e.g. CAR LIV, CAR ADR). Always with RV FOAMY. Sometimes the infection is in several organs simultaneously.</i>
CAR PAN	CARCINOMA PANCREAS		MVB	<i>A gradual deterioration of the pancreas that may accompany diabetes or any sugar/carbohydrate digestion problems.</i>
CAR PTD	CARCINOMA PARATHYROID		MVB	<i>Usually needs a retrovirus remedy with it. The parathyroid controls such diverse issues as the calcium in teeth, joints, edema in the ankles and knees, the gall bladder</i>
CAR TRD	CARCINOMA THYROID		MVB	<i>A gradual deterioration of the thyroid for many, especially with hypothyroidism. Affects parathyroid as well and usually seen relative to weight gain and low energy.</i>
CAT ALG	CAT ALLERGY	2-5	VP	<i>The effect of long-term Toxoplasmosis leaves a residue in the kidneys</i>
CAT RAK	CATARACTS i		MVF	<i>Improved version of remedy for drying out of lens of eyes (includes Vitamin A Deficiency Miasm)</i>
CAT SCN	CAT SCAN		C	<i>Liquids swallowed before the cat scan for better results and sometimes strange after effects, especially w/bone infections.</i>
CBN INF	COCCYX BONE INFECTION	2-8	BV	<i>When the coccyx is broken or cracked its position often invites a different form of strep and/or Klebsiella than other bone injuries.</i>
CCC	COCCOGEAL CHONDRO CONTRACTUS		MVB	<i>An infection of the cartilage surrounding the tail bone causes it to draw in and tighten up, which impairs marrow flow and red blood cell development.</i>
CCP	C&CP	2-5	R	<i>Chicken Pox combined with Coxsackie. Residues. The basis of childhood diabetes and adult pancreatic weaknesses.</i>
CD	C&D	2-5	R	<i>Coxsackie and Diphtheria - More likely to be used in conjunction with other remedies for long term swelling.</i>
CDC	CELL DIVISION CORRECTION		MVB	<i>Stops the bacteria tuberculosis in many of its forms that contribute to the interruption of cell division.</i>
CDC #2	CELL DIVISION CORRECTION #2		MVB	<i>Spleen remedy that corrects farnesyl transferase into a lipid-dissolving enzyme. Farnesyl transferase converts lipids to a form that feeds cancer.</i>
CEL BRE	CELL BREATH		MB	<i>Unblocks calcium from cells allowing greater sodium/potassium exchange, which allows more oxygen carriage at cellular level.</i>
CEL CLN	CELL CLEAN	1-4	MVB	<i>Cell level weaknesses from flus, viruses with miasmatic overtones. Also good with BPH.</i>
CEL KLG	CELL KLOG		MBF	<i>Primarily aimed at kidney cells, but seems more broadly applicable</i>
CEL LIT	CELLULITES		MVB	<i>A pancreas condition that allows a thousand and one bacteria to block skin health. Probably behind greater weight issues.</i>
CEL MAN	CELL MANNA		MVB	<i>Activates a mitochondria key nutrient made in the bones and distributed by the pituitary via the blood stream. It feeds the "powerhouse" of the cells. In science, the closest comparison is the human growth hormone, which is a portion of cell manna.</i>
CEL PNM	CELL PNEUMONIA		B	<i>A systemic, inner cell bacteria that affects blood, spleen, liver, and pituitary. Weight and blood weakening are results.</i>
CEL POT	CELLULAR POTASSIUM ABSORPTION		MVB	<i>Bone/thalamus miasm group causing blood cell breakdown (especially at high altitudes). Causes alkalinity, weight gain, kidney insufficiency, diarrhea, etc. Common companion to leukemia.</i>
CEL SOD	CELLULAR SODIUM ABSORPTION		MVB	<i>The disease is called "osmotic fragility" in science. A bone-based blood cell breakdown (especially at higher altitudes) causing acidity, weight gain, kidney insufficiencies, calcium loss, dry skin, diarrhea, etc. The major symptom is bubbles from urine.</i>
CEM ALG	CHEMICAL ALLERGIES		VBF	<i>A group of pathogens in the liver that seems to hold instead of process chemicals. The chemicals can range from chemo to industrial derivatives of chemical processes.</i>
CEM CMP	CHEMICAL COMPOUNDS		C	<i>Wide-spread applicability to chemicals on skin and in intestines.</i>
CER PAL	CEREBRAL PALSY		MBF	<i>A well-known shaking disease that starts in the head. Often seems to require SHK FRE to accompany it.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

CER REG	CEREBELLUM REGENERATION		MVB	<i>For deterioration of cerebellum involving white (seminovale) portion of the cerebellum and cells of fibro, glio, meninges, polio and tuberculosis. The condition will affect the central nervous system in ways looking like MS and ALS.</i>
CER SPN	CERVICAL SPONDYLITIS		MVF	<i>Curvature of the neck that is exaggerated, putting pressure on ears that causes tinnitus. Often good w/Strep Pneumonia for ringing in ears</i>
CGTS	CAN'T GET TO SLEEP		VB	<i>Difficult getting to sleep, but can sleep long afterwards. Usually accompanied by a "nervous stomach" and sometimes racing mind. See INSOM</i>
CHC MOD	CHOCOLATE MODERATION	5-8	V	<i>If you will eat chocolate when it's around, then you have it. Chocolate is a nerve irritant and this craving deteriorates the nerves.</i>
CHLRGN	CHLOROGENESIS		MVB	<i>Insufficiency of the liver to make chloride salt, which holds water (hydrochloric acid for digestion). Decreases poisonous albuminuria (bubbles in urine) and activates lymph system (toxin removal).</i>
CHOL	CHOLEROUT	1-8	B	<i>Cholera - In full clinical condition or subclinical intestinal problems.</i>
CHRG UP	CHARGE UP		MBF	<i>A deep remedy aimed at restoring the electrical charge of the cells so that they do not allow pathogens. Goes well with GOD BLT</i>
CIEV	CANADA INNER EAR VIRUS	3-7	V	<i>A form of stomach flu starts and leads to dizziness, imbalance and mild-to-strong forms of immobility and/or vomiting</i>
CLC ADR	CALCIFICATION ADRENALS		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC BRN	CALCIFICATION BRAIN		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC BRS	CALCIFICATION BREASTS		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with magnesium Malate (appx 500 mg). When calcium is released the alkalining affect is tiredness.</i>
CLC CRB	CALCIFICATION/CARBONIZATION		MVB	<i>Unconverted calcium plus inert carbon bound to the tissue constitutes both weight and impediment to circulation of all kinds of necessary fluids.</i>
CLC EYE	CALCIFICATION EYES		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC LIV	CALCIFICATION LIVER		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC LNG	CALCIFICATION LUNGS		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC NRV	CALCIFICATION NERVES		MVB	<i>Calcification of nerves, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC PAN	CALCIFICATION PANCREAS		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC RST	CALCIFICATION RECEPTOR SITES		MVB	<i>The receptor sites for neurohormones release. Usually taken with Escherichia-Coli-Enteroaggregative. Best taken with Magnesium malate (appx 500mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC ST	CALCIFICATION SPONGY TISSUE		MVB	<i>Calcification of various areas with spongy tissue, based on flexible infiltration that blocks the function of the area. Best taken with magnesium malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC SWT	CALCIFICATION SWEAT GLANDS		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLC TIS	CALCIFICATION TISSUE		MVB	<i>By releasing magnesium the body starts to dissolve the paste-like calcium out of the organs so that all works well. This remedy is best taken with decalcification remedies of specific organs.</i>
CLC TRD	CALCIFICATION THYROID		MVB	<i>Calcification of organ, based on flexible infiltration that blocks the function of the organ. Best taken with Magnesium Malate (appx 500 mg). When calcium is released, the alkalining effect is tiredness.</i>
CLD CLP	COLD CLIPPER	1	VB	<i>First signs of colds as well as ongoing colds. Fast Flu Fighter and Strep may also be involved.</i>
CLD H&F	COLD HANDS AND	1-4	VB	<i>Brain fungus/virus condition that blocks the thyroid function. Thyroid is temperature controller. Often works astonishingly swiftly.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

CLL	CHRONIC LYMPHATIC LEUKEMIA		<i>MVB</i>	<i>One of the most common leukemias. Symptoms include the typical leukemic swelling of liver and spleen, pain at the top of the leg bone before the hip joint and shin pains. May be taken with regular Lymphatic Leukemia (LOC LUK).</i>
CLM GRD	CHLAMYDIA GARDNERELLA	1-4	B	Tough combination complicating vaginal or testicular difficulties -all genitals are candidates,as well as gb,kid, bld
CLM LEP	CHLAMYDINUM/LEPRINUM		<i>M</i>	<i>Miasm combination that shuts down the whole metabolic process to about 1/2 or 3/4 speed.</i>
CLM TRA	CHLAMYDIA TRACHOMATIS	1-4	<i>B</i>	<i>Often known for its affect on eyes, it also seems to bind Lymph Weight (LMF WHT). Both together are dynamite weight loss. The cause of endometriosis.</i>
CLMGRN	CALYM GRAN	2-5	B	A form of Chlamydia involved in chronic vaginal yeast infections (when candida is absent), manic depression.
CLMNUM	CHLAMYDINUM	10-12	<i>M</i>	Chlamydial Miasm can be found at the base of highly resistant herpes,in the liver with Crohn's or IBD, or in the nose with persistent sinus infections
CLMPNM	CHLAMYDIAL PNEUMONIA	1-4	B	Often adjuncts to oral herpes and asthma (especially childhood asthma), complicates other lung/bronchial problems.
CLOSTFB	CLAUSTROPHOBIA	3-9	E	Fear of closed spaces caused by Syphilis miasm in the pituitary and several bacteria
CLOST	CLOSTRIDIUM	1-3	B	A family of nerve bacteria mistaken for cold or flu. Causes deep cough in middle of Bronchi. Binds Aspergillosis.
CLP BUS	CLUMP BUSTER		<i>MVB</i>	<i>When red cells agglutinate (clump) causing circulation and immune problems. May also affect lymphomas.</i>
CLRN	CHLORINE	1-4	C	Arteries are hardened by this plus it combines with other chemicals and metals as a binder
CLS CER	CLOSTRIDIAL CEREBELLUM	2-9	B	Clostridium is a family of nerve bacteria with special locations that stop or deteriorate activity. Behind some cases of cerebral MS.
CLS DIF	CLOSTRIDIUM DIFFICILE	3-8	B	Common strong-binding nerve bacteria in intestines and liver, often spreading to spine. Can be found in brain, etc. See also CLS PER
CLS MEN	CLOSTRIDIAL MENINGITIS	3-9	B	A nerve bacteria in the spinal cord that is often diagnosed as MS (which is one of the worst diagnosed illnesses in the medical field)
CLS NER	CLOSTRIDIUM NEUROTOXIN	3-7	B	Most common cause of incontinence, frequent trips to bathroom with urgency. Most common complication of prostate cases.
CLS NOV	CLOSTRIDIUM NOVYI		<i>B</i>	<i>Bacteria involved in deep-seated issues directly related to materializations of long-held thought</i>
CLS PER	CLOSTRIDUM PERFRINGENS	3-8	B	Strong-binding nerve bacteria that loves liver, intestines, heart and places in between. See also CLS DIF
CLS SPL	CHOLESTEROL SPOILERS		<i>MVB</i>	<i>A group of fungi in the liver which make cholesterol unusable for hormone making, causing waste cholesterol (the "bad" cholesterol) to elevate and stick to arteries. Take with ATR CC.</i>
CLS TET	CLOSTRIDIUM TETANUS		<i>B</i>	<i>A nerve bacteria most know for "Lock Jaw" where the nerves of the jaw muscles paralyze from this bacteria. The same bacteria is a common complication of surgery and can be obtained from a number of sources other than stepping on a rusty nail.</i>
CMN TRU	COMING THROUGH		<i>MVF</i>	<i>A deterioration of the ganglia that allows nerve impulses to the thyroid, including a penicillin complication. This is a strong remedy for those with thyroid problems and penicillin histories.</i>
CMPBAC	CAMPYLOBACTER	3-6	B	Family that includes HEL ATR. With CAN SI, causes "panic" attacks. Found in large & small intestines.
CMV	CMV	2-5	V	Cytomegalovirus, often associated with mononucleosis, is a herpes that affects nerves as well as organs and blood.
CMV CAL	CYTOMEGALOVIRUS CALCIUM		V	<i>Mononucleosis type of attack on parathyroid/adrenals that binds with calcium to make person feel tired and to slow calcium movement in body.</i>
CMV NRV	CYTOMEGALOVIRUS NERVES		V	<i>Makes nerves achy all over and makes person simultaneously tired (like mononucleosis)</i>
CN CNS	CONNECTOR - CENTRAL NERVOUS SYSTEM		<i>MVB</i>	<i>Liver-based remedy that reconstructs effector/receptor/catalistic proteins for central nervous system.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

CN CRNV	CONNECTOR CRANIAL NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins in the blood for carriage to appropriate sites. Cranial nerves are known for many issues including smell, taste, vision and speech.</i>
CN EAR N	CONNECTOR EAR NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for fine nerves of the ear , in order to improve hearing and reduce tinnitus.</i>
CN GENI	CONNECTOR GENITAL NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for genital nerves to excitatory organs of both genders.</i>
CN HOBL	CONNECTOR - HORMONES TO BLOOD		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins in the blood for carriage to appropriate sites.</i>
CN HORM	CONNECTOR HORMONES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for making hormones.</i>
CN INTS	CONNECTOR INTESTINAL NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins in the blood for carriage to nerves for intestinal activity.</i>
CN MEMR	CONNECTOR MEMORY NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for nerves in the brain that affect memory. In cases of forgetfulness and /or dementia, be sure to clear the appropriate amyloid complications ("Thick" series).</i>
CN PLSM	CONNECTOR PLASMA		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins in the blood for carriage to appropriate sites. In addition to proteins, plasma carries other nutrients, maintains the acid-base balance of the body and transports wastes from the body. It affects the fluids in the eyes and the kidneys as well as the osmotic pressure with interstitial fluid.</i>
CN PSMP	CONNECTOR PARASYMPATHETIC NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for parasympathetic nerves which control occumotor, facial, glossopharyngeal, vagus and pelvic nerves.</i>
CN RETN	CONNECTOR RETINAL NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for retinal nerves.</i>
CN SNPS	CONNECTOR SYNAPSE		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for nerves controlling muscles.</i>
CN SYMP	CONNECTOR SYMPATHETIC NERVES		MVB	<i>Liver-based remedy that reconstructs effector/receptor/catalytic proteins for sympathetic nerves which control heart rate, constriction of blood vessels and raising of blood pressure.</i>
CN TRD	CONNECTOR THYROID		MVB	<i>A liver remedy that creates plasma receptor sites for thyroxin (T4) and thyroxin (T3). These thyroid hormones are responsible for (1) carriage of 90% of iodide in the blood and regulate metabolism of fats, protein and carbohydrates in cells (2) cardiac rate, force and output (3) promote central nervous system development (4) are necessary for muscle tone and vigor (5) and stimulate the synthesis of many enzymes. The thyroid as a gland must be in good shape also. Often seen with TBR FLD.</i>
CNC M	CANCER MIASM	8-10	M	<i>A new Miasm - especially needed when grandparents died of cancer.</i>
CNDRMA	CHONDROMA		MBV	<i>In short, this is a lump on the bone and cartilage, usually on top of other bone problems. This could have a retrovirus complication. Symptoms include soreness to pressure and soreness running from the center.</i>
CO	CARBON MONOXIDE	1-3	C	<i>Lung and liver conditions arising from leaking home heating systems, cars and bad air areas.</i>
COL BLD	COLLAGEN BLOOD		MVF	<i>IgG Immunoglobulin Deficiency associated with Rheumatoid Arthritis, other collagen diseases and endocarditis. Susceptible to many bacterial infections.</i>
COL SCL	COLLAGEN SCLEROSIS		MVB	<i>Bone-centered hardening of staples of the ear causing tinnitus, hardening of collagen. Breaks down carbon causing loss of fullness/firmness of the skin. Involved with impaired joint connection and some collagen vascular diseases.</i>
COM SPR	COMMERCIAL SPRAY		C	<i>Government and corporate insecticides that interfere with your brain, lungs, nervous system, intestines, liver, gall bladder, kidneys. Often sprayed from planes and wind up on vegetables of supermarkets.</i>
CON ANG	CONTRAIL ANGER		VB	<i>Combination that "eats" the liver and white blood cells simultaneously so that anger often accompanies both digestive difficulties and immune loss.</i>
CON ATX	CONTRAIL ANTHRAX		BC	<i>A new strain of anthrax dumped via the mysterious jets flying purposeful patterns over the population</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

CON COF	CONTRAIL BASE COUGH		CB	For people often infected by contrails, the residual of the base material forms a constant cough that simply doesn't want to go away. This remedy is designed to nullify the deepest carriers of the former infections.
CON DES	CONTRAIL DESPONDENCY		CVB	Makes person tired, apathetic and very irritated. Uncharacteristic thoughts of suicide often arise.
CON KID	CONTRAIL KIDNEYS		B	Further dross of contrails - Pseudomonas Aeruginosa #3 bound by Fusiform Fungus in the kidneys. Sore mid back, dull pain over kidneys
CON NRV	CONTRAIL NERVE VIRUS		V	Another dump from airplanes. Especially affects lung nerves, but also central nervous system to all the organs so that there is weakness in organ function.
CON PAN	CONTRAIL PANCREAS		BC	Further dross from the contents of contrails - Pseudomonas Aeruginosa #3 with Zinc Chlorate. Mimics a hiatal hernia.
CON PNM	CONTRAIL PNEUMONIA		B	For those repeatedly infected by contrail/chemtrails
CON VIR	CONTRAIL VIRUS		BV	Actually Mycoplasma Incognitus. The same culprit found in the Desert Storm sickness is suddenly showing up in the contrails of US planes over the world
COP SRP	COPPER SURPLUS		MF	Inherited condition leading to schizophrenia , kidney necrosis, central nervous system deficiency, zinc deficiency, skin problems, etc..
COR ADN	CHORIO ADENOMA		MVB	A lump in the choroid tissue, usually seen in the brain. See also Chorio Epithelioma.
COR CAR	CHORIO CARCINOMA		MVB	Usually starting with fetal tissue and usually starting in the uterus, it may deteriorate the uterine wall and predispose the fetus to infection of the choroid tissue. This may later affect the growing child or adult with problems in the lymph, lymph nodes, blood vessels, lungs, liver and brain. See also COR SRC.
COR RETi	CHORIORETINITIS i		RVP	(Improved) Condition of eyes that stems from toxoplasmosis in mothers womb. May appear immediately or later in life.
COR SRC	CHORIO SARCOMA		MVB	Usually starting with fetal tissue and usually starting in the uterus, it may deteriorate the uterine wall and predispose the fetus to infection of the choroid tissue. This may later affect the growing child or adult with problems in the lymph, lymph nodes, blood vessels, lungs, liver and brain. See also COR CAR.
CORECT	CORRECT		E	SHAME usually comes from feeling wrong in the eyes of God and unacceptable to self and others. Often buried
CORNS	CORNS		VB	A viral skin eruption with a seed-like appearance in the center. Although the "seed" can often be cut off the viral condition that causes it is best solved from the inside out (with this remedy).
COROMA	CHORIOEPITHELIOMA		MVB	Skin tumor mostly recognized in uterus of pregnant women. Subclinical in other area from pineal to testes
CP C SP	CHK PX-COXSACKIE- SML POX	2-7	RV	Another key tie-up of the pancreas that bridges to long-term diseases, like cellulite and other weight issues.
CPCD	CP C D	2-6	RVB	Chicken Pox, Coxsackie and Diphtheria - Involved in all cases of adult diabetes and many cases of Lupus.
CPS	CHICKEN POX IN SPINE	3-7	RV	Residue and location that causes shingles.
CR BDMA	CAROTID BODYOMA		MVB	A carotid body tumor impedes the regulation of oxygen causing great tiredness, faintness, and dizziness. It could physically impede the flow of blood and cause pressure in the vascular system - a different kind of high blood pressure.
CRB BLK	CARBOHYDRATE BLOCK		MVB	Similar to AlhA,Antitrypsin (ATT) Deficiency. The liver side of carbohydrate digestion. See SUG BUG
CRB CLP	CARBON CLUMPER		MVB	Hypothalamus disease causing large amounts of weight by enveloping carbon in a way that clings to calcium, histamine and lipid. Call it fat.
CRB MET	CARBON METABOLIZATION		MVB	Carbon is metabolized through the hypothalamus. Unmetabolized carbon attracts tuberculosis which interrupts cell division and attracts calcium and histamine. It's a setup for fat.
CRB REL	CARBON RELEASE		MV	Aimed at processing carbon into life force in more than the digestive tract. (See CRB BLK for digestion)
CRB TET	CARBON TETRACHLORIDE		C	Chemical used in some food processing, grease cleaning in industry and dry cleaning. Slowly makes a "fatty" liver.
CRM	CHROMOMYCOSIS	1-5	F	Little-known fungus that clogs tissues. Runaway cases turns into wide-spread, growing warts that eventually develop skin ulcers.
CRM ADN	CHROMOPHOBE ADENOMA		MVB	Most commonly in the pituitary . When in the pituitary it is the most common cause of endocrine problems. Usually with coxsackie A4 & B10 and frequently other coxsackies.

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

CRNOMA	CRANIAL NERVOMA		MVF	<i>Affects cranial nerves, which differ from other nerves. Makes most senses better - hearing, taste, seeing.</i>
CRON	CROHN'S		MVF	<i>Improved formula of Crohn's based on liver inadequacy. Use with SYF/CLM & SML POX. Attracts CRP SPO, HEL ATR, CAN SI, CMP BAC</i>
CRP SPO	CRYPTOSPORIDIUM	2-6	P	<i>Involved with Helicopter Pylori in ulcers, common in arthritis and general intestinal problems.</i>
CRPT FA	CRYPTOGENIC FIBROS AVEOLITIS		MV	<i>Inherited probable basis of many lung issues</i>
CRS NOS	CRUSTY NOSE		B	<i>When nose dross hardens, it obstructs breathing and the bacteria can cause some adhesion to the nostril</i>
CRT FNG	CAROTENE FUNGUS		F	<i>On carrots, sweet potatoes, leafy vegetables, milk fat, spinach and broccoli. Causes Vit A, D deficiencies, blocks enzymes & contracts mucous muscles</i>
CRT SAV	CARTILAGE SAVE		MVB	<i>Infection that causes deterioration in the cartilage, like knees and elbows. May help for pain that follows joint replacements</i>
CRV FRE	CRAVE FREE		MBV	<i>A bacteria/virus combination forms an intensifying factor of desires that overcomes good judgment</i>
CSMV #1	CEREBROSPINAL MULTIPLE VIRUS #1		MVB	<i>Multiple Sclerosis look-alike sometimes with actual MS. Attracts TB Nerves, TB Meninges, TB Spine. Attracts lumps on the mesencephalon and cerebellum.</i>
CST FNG	CYST FUNGUS		F	<i>Fungus that feeds cysts, especially found w/PNM CAR.</i>
CSTITIS	CYSTITIS		MB	<i>Urinary tract infection</i>
CTCHSN	CYTOCHALASIN B		F	<i>Fungus/mold that stops cell division. Most known in liver for keeping dead liver cells from regenerating</i>
CTY WAT	CITY WATER		C	<i>What a variety of toxins combines can mean to an unprotected tap water.</i>
CYCLO	CYCLOSPORA		P	<i>Parasite sometimes associated with, but not limited to, strawberries. Sometimes found in testicles and ovaries</i>
CYL FEV	COW YELLOW FEVER	6-9	R	<i>Pancreas-based issue that affects digestion. People usually have an unusual intelligence.</i>
CYLOMA	CYLINDROMA		MBF	<i>Specific type of mass most known in the neck, pharynx, and sinus area.</i>
CYS MYX	CYSTIC MYXOMA		MVB	<i>Cysts looking like lipomas (squishy skin lumps), growing on muscles, making lumps under the skin.</i>
CYS NER	CYSTIC NEUROMA		MVB	<i>Cyst growing on nerves anywhere in the body.</i>
CYT LUK	CYTOPENIC LEUKEMIA		MVB	<i>A blood cell breakdown based on interlocking weaknesses of the bone, liver and lymph.. lymph is affected more than blood . Isolated lymph edema is most common symptom (i.e. big belly, swollen ankles or legs). Take with Myelocytic Leukemia.</i>
DAC	D.A.C.	1-3	VB	<i>Diphtheria/ Anthrax/ Coxsackie - Hits the lungs and comes from stratospheric bombing.</i>
DCC	DIVIDED CELL CLEANSER .		MVB	<i>Enzyme creation that cleans the factors around cell division that turn them into cancer.</i>
DEN ABC	DENTAL ABCESS		MVB	<i>The major elements of an abcess that may be deeply hidden in the jaw bone</i>
DEN CAR	DENTAL CARRIES	10-25	B	<i>Good, old fashion tooth decay (strep), that often goes into the bone. See also BON INF, STR BON.</i>
DEN DEN	DENDRITE DENSITY		MVB	<i>Condition inside dendrites that densifies nerves and causes depolarization of dendrite/nerve signal (stopping signals).</i>
DEN DYN	DENTAL DYNAMITE	10-25	B	<i>A combination of strep and fusarium bacteria that often attack teeth/gums/bones together.</i>
DEP ENG	DEEP ENERGY		MVB	<i>Pineal remedy that releases an oxyenzyme which allows ATP to feed the mitochondria and help reverse aging.</i>
DEP SIN	DEEP SINUS		VB	<i>Where sinus and gums meet the throat, the shared infection makes sinus and teeth problems perpetuate each other</i>
DEV SEP	DEVIATED SEPTUM		MVB	<i>Bent nostril separator which makes it difficult to breath through at least 1/2 of the nose.</i>
DI SHEP	DIGESTION INTOLERANCE - SHEEP		MVB	<i>Liver-based remedy based on ancestors eating diseased sheep. Seems allergic to almost any food in a way that directly affects mind to anxiety, hyperactivity and negative behavior.</i>
DIA SIP	DIABETES INSIPIDUS		MVB	<i>An inherited form of diabetes insipidus. See also POO PAN.</i>
DIBON	DIABETIC BONE	10-14	MVB	<i>An exploration into a bone-based form of diabetes - perhaps all diabetes.</i>
DIG BLD	DIGESTING BLOOD		MVB	<i>Releases carbon, calcium and histamine back into the blood so that they can go to their respective needed locations instead of storing in the flesh.</i>
DIG HRP	DIGESTION & HERPES		MVB	<i>Vienna Adams found the a connection between these and it seems to be based on a chlamydial miasm. Look for this in the liver when both present</i>
DIG ROB	DIGESTION ROBBER		VF	<i>Stunts nerves to muscles of digestive organs plus virus lodges in liver. Sleep problems often accompany.</i>
DIP DRS	DIPHTHYDROSE	1-3	B	<i>Diphtheria and Drosera (Solution to Whooping Cough) - Causes forms of dizziness. Often used with Brain Clear.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

DIP M	DIPHTHERIA MIASM		M	<i>Often in the head or arteries. May partially explain brain damage from shots including diphtheria</i>
DNG	DENGUE	2-5	V	A hemorrhagic fever known as Break Bone in the Caribbean, India, Tahiti and warm weather climates.
DNRITE	DENDRITEOMA		MVB	<i>Lump on the nerve dendrite. Condition may well be part of the answer to narcolepsy and Long Q-T Syndrome (Q wave and T wave for EKG of heart). Some can't get thoughts or language right.</i>
DOG HRT	DOG HEARTWORM	4-5	P	Can stay in the heart for decades and impede the valves as well as the muscles.
DOG LTW	DOG LIVER TAPE	3-4	P	Can live in the liver for many decades without major difficulties except liver and sinus.
DOUBT	DOUBT		E	<i>Doubt about who we are and our ability to find and do what we came to do.</i>
DRAC	DRACUNCULIASIS	3-5	P	Eats blood often causing chalky complexion. Possessors lose sense of security.
DRG RES	DRUG RESIDUE		C	<i>For the residue of drugs, especially all the "caine" drugs, legal or illegal including cocaine. Often used with mercurius arsenic MRC ARS).</i>
DRG VIR	DRAGON VIRUS	2-5	V	Herpes # 6 which makes blood cells swell. One of the 2 herpes remedies taken to shorten miasm remedy time. SEE SWT VIR.
DRY LIV	DRY LIVER		MVB	<i>ERGOTULINUM/ROTINUM based for condition that retains dead bile salts, suffocating gall bladder, drying skin, builds liver stones</i>
DSFC	D - SF - C	1-4	R	Diphtheria/ Scarlet Fever/ Coxsackie - Residue. Inherited hearing loss, skin problems and some teeth problems.
DUP CON	DUPUYTREN'S CONTRACTURE		MV	<i>Tendon in the palm contract, pulling finger into curl. Tendon looks like a rope under the skin. Operations are temporarily successful.</i>
DWN1f2	DOWN'S 1 OF 2		MB	<i>Part 1 of 2 parts-Down's Syndrome in cerebellum. Based on Celiac Miasm ++</i>
DWN2f2	DOWN'S 2 OF 2		MBV	<i>Part 2 of 2 parts- Down's Syndrome in brain from placenta toxins and bacteria.</i>
DYSLEX	DYSLEXIA		VF	<i>Transposing of numbers, letters, names and general confusion in reading or thinking where thoughts get turned around</i>
E. COLI	E. COLI	3-9	B	Escherichia Coli is most known for urethral tract infections, but also appears in kidneys, intestines, wounds, etc.. Related to strep and staph.
EAR RNG	EAR RINGING		BF	<i>A combination of pathogens that deteriorates the hair follicles on the ear nerve mechanism causing a ringing in the ear and decreased hearing.</i>
EAR SHT	EAR SHUT		RB	<i>Combination of Scarlet Fever residue with Bacteria Fragilis plus a clostridium to lock the brain from hearing</i>
EBOLA	EBOLA	2-5	V	The infamous virus that has made it from Africa to the Dominican Republic by mid 1997
ECHO	ECHO	2-6	V	Sometimes like a viroid in the spinal cord. Most often with entero bacteria. Affects liver considerably.
ECZEMA	ECZEMA		MVB	<i>Syphilinum-based remedy for well-known eruptive skin disease. See CPS for shingles.</i>
EDB	ETHYLENE DIBROMIDE	2-6	C	Pesticide affecting respiratory area and breaking down immune system. Known for eye & skin irritation, liver clogging. Part of 99 contrail spraying.
EDB ENT	EDB ENTERIDITIS		B	<i>Bacterial infection caused by the major ingredient of contrail (chemtrail) pollution.</i>
ELC BAL	ELECTROLYTE BALANCE		V	<i>Pancreas-based residue causing kidney to discharge potassium, sodium and chlorides (electrolytes). Tiredness, muscle aches, memory interference.</i>
ELC FNG	ELECTRIC FUNGUS	2-6	RF	Primarily for people who spend lots of time with the computer. Affects the whole system through the head (usually).
ELC RES	ELECTRIC RESIDUE		C	<i>Probable miasmatic condition in the liver causing sensitivity to electricity. Shows up after collection of electricity in system.</i>
EMT SCR	EMOTIONAL SCARS		E	<i>The memories that hurt and distort our perception of the world</i>
EN HOR B	ENVIRONMENTAL HORMONE BLOCKAGE		C	<i>A conglomeration of nine common vegetable-bourne preservatives/cleansers that lodge as a single toxin in the liver. The resulting blockage of estradiol pushes estrogen to breasts and adulterates testosterone in the prostate.</i>
END EXP	ENDOCRINE EXPAND		MVB	<i>Expands contracted endocrine glands so that there are hormones to genuinely "feel" with. CAUTION: If pancreas, prostate or ovaries are blocked, this will cause pains in right thumb. Clear the blocked gland first.</i>
END UP	ENDOCRINE UPLIFT		MB	<i>Nine miasm based relief of whole endocrine system beyond any medical model. Especially good with PIN PRM & BER.</i>
ENDCAT	ENDOCAT MALADY		MVB	<i>Sometimes called Polyendocrine Disease. The remedy for a bone failure to make endocrine catalyzing cells for hormones in the endocrine glands.</i>
ENT BAC	ENTERO	3-5	B	Bacteria family well-known to eat at the intestines. Often mistaken for cancer when in gall bladder and liver.
ENTRC	ENTERIC FEVER	2-7	B	Common lingering infection of the liver, upsetting digestion and all other liver functions
ENZ GEN	ENZYME GENERATE		VB	<i>Fanconi's Syndrome-Inherited in Parathyroid. Helps unblock many organs by correcting calcium balance.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

ENZ GEN2	ENZYME GENERATE #2		MVB	<i>Adrenal production of peptides to convert minerals to enzymes for digestion. Best to use after adrenals are clear of other issues such as sleeping sickness, CMV, Epstein Barr, etc.</i>
EP THAL	EPITHALOMA		MVB	<i>Tumor of the epithalamus of the diencephalon</i>
ERGNUM	ERGOTULINUM	9-12	M	<i>The miasmatic form of an old, well-known liver-eating fungus. May combine with other liver issues.</i>
ERGOT	ERGOT	1-9	F	<i>Liver mold that precedes inability to detox chemicals and alcohol and is often a component of liver cirrhosis. Mental problems plus allergies.</i>
ERLIC	EHRlichiosis	2-6	PB	<i>Lymes or Rocky Mountain Spotted Fever form without a rash. Carried by brown dog tick. Tick, not dog is brown.</i>
ERW A	ERWINA A	3-5	B	<i>Bacteria from vegetables that swirls into ball causing stones and clots. Also eats veins & thickens blood.</i>
ERW C	ERWINA C	3-5	B	<i>Bacteria from meat that swirls into ball causing stones and clots. Also eats veins & thickens blood.</i>
ERY LUK	ERYTHRO LEUKEMIA		MB	<i>Weakens red blood cells, reduces blood iron's oxygen carrying ability, clogs liver. Worse at altitudes 5,000 ft+ and cold weather.</i>
ESN LUK	EOSINOPHILIC LEUKEMIA		MVB	<i>A leukemia of the blood-forming tissues in which the eosinophils are the predominant cells. The disease resembles chronic myelocytic leukemia, but may have an acute course even though no blast forms are present in the peripheral blood.</i>
ESO RFX	ESOPHAGEAL REFLUX		MVB	<i>The propensity for food to come back up after sticking for awhile in the diaphragm area. Miasmatic</i>
ESR #1	ENDOCRINE SYSTEM REPAIR #1		MVB	<i>Primarily for DiGeorge Syndrome involving low T Cell count of the thymus and underdevelopment of the parathyroid, thyroid and heart (especially valves). This blood platelet disease of the red bone marrow is similar to immunoglobulin disease and may be accompanied by any of ALF BLD, COL BLD, PRT BLD, SKIN BLD. In the formula is the aim of repairing proacta A cells. See also END CAT.</i>
ESR #2	ENDOCRINE SYSTEM REPAIR #2		MVB	<i>For the proacta B cells of the adrenals, kidneys, pancreas, prostate, testicles, ovaries, uterus, T cells, B cells, Thymus enzymes, hormones, neurons and neural tube cells. This platelet disease of the red blood cells of the bone marrow is behind multiple neurological diseases and reproductive gland diseases.</i>
EST BLK	ESTRADIOL BLOCK		RVB	<i>The precursor to estrogen and progesterone is estradiol. Adrenal-aimed remedy</i>
EST MAL	ESTRADIOL MALADY		MVB	<i>Unleashes the hormone catalyst (along with BOMOTO) to activate oxygen as a food to the primary proteins (spark-of-life proteins) for metabolism in the body via the endocrine system.</i>
ETHELI	EPITHELIOMA		MVB	<i>Tumor of the epithelium tissue which is the main tissue of the diencephalon (where the hypothalamus, thalamus and epithalamus is located).</i>
EXR WND	EXERCISE WIND		RV	<i>Pulmonary Artery Meningo Encephalitis. Constriction of artery from heart to lung that makes coughs. Subjects hold hand over chest in wind</i>
EYCLMD	EYE CHLAMYDIA	2-5	B	<i>Involved in several eye diseases. Causes granule like feeling on inside of eye lids called conjunctivitis. Take orally.</i>
EYE SRK	EYE SPARKLE		MVB	<i>Brings light infections out and life into the eyes. For many people this may be a base remedy for throwing away glasses.</i>
FAL BAL	FALLOPIAN BALANCE	3-5	RVB	<i>Birth control pill residue and inherited imbalances join forces to cause crampy periods. Widespread</i>
FAM LMF	FAMILY LYMPH		MV	<i>Inherited conditions that cause lymph not to move out. The issue is aimed at the adrenal/kidney connection.</i>
FET WA	FLUID ENZYME TRIGGER WEIGHT AND ASCITES		MVB	<i>The brain's choroid plexus makes cerebral spinal fluid. When diseased blood runs through the plexus it triggers a change of enzymes which causes a waste fluid to be leaked through the veins into the body fluids. The fluid becomes a binder for weight.</i>
FFF	FAST FLU FIGHTER	1	V	<i>Starts to work in 20 seconds and completes in 30 minutes. So far, if it doesn't work, there's no or only partial flu.</i>
FIB CAD	FIBRO CYTO ADENOMA		MVB	<i>A fibroadenoma lump with a cyto virus thrown in.</i>
FIBRO	FIBROADENOMA	2-7	V	<i>Another common cause of lumps in the breasts and uterus.</i>
FING FS	FINGER FISSURES		V	<i>A virus that causes splits in the skin near the tips of the fingers especially in cold weather with repeated wetting of hands.</i>
FIRE UP	FIRE UP		F	<i>Fungus on an amino acid that may be cause of erection problems</i>
FIS PIC	PFIESTERIA PISCICIDA		PB	<i>New microorganism from hogs (to fish) to humans attacking the brain mylar sheath, causing anything from abhorrent behavior to craziness</i>
FLE WEK	FLEA WEAK		VB	<i>A tick-like disease inflicted by a flea bite. Extreme weakness, usually with mental confusion, myalgia and arthritis like pains. Great tiredness interspersed with occasional good days.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

FLO CLR	FLOW CLEAR		RB	<i>Parkinsons (along with Park),Ataxia,Down's Syndrome,Brain/Spinal lesions. W/SHKFRE third eye development, deviated septum.</i>
FLRQLN	FLUORO-QUINOLONES		C	<i>Chemical family in prescription drugs including Avelox, Cipro, Floxin, Levaquin, Mazaquin, Noroxin, Tequin and Zagam. So far Cipro, Florin and Noroxin have been linked to severe tendon inflammation because of the presence of this ingredient.</i>
FLU M	FLU MIASM		V	<i>A miasm that may combine with issues from the lungs to the kidneys</i>
FLX BLA	FLEX BLADDER		MVB	<i>Hardening and shrinking of gall bladder and urinary bladder. With FLX KAD there is easy formation of gall bladder stones and great difficulty digesting some fats and cream. Urinary bladder produces stones and frequent urination, which increases with time.</i>
FLX BLD	FLEX BLOOD		MVB	<i>Liver/bone condition that adjusts blood by thickening for different altitudes, brings up hemoglobin and iron that would otherwise be deficient and adjusts carbon dioxide and oxygen exchange for cell function.</i>
FLX CAR	FLEX CAROTID ARTERY		MVB	<i>For inherited condition of hardening of the carotid artery</i>
FLX KAD	FLEX KIDNEY ADRENALS		MVB	<i>Hardening and shrinking of kidneys/adrenals which is astonishingly wide-spread. Subject is acidic, low in electrolytes, progressively anemic, has backed-up proteins, nitrogen waste in blood, low blood pressure, shallow breathing.</i>
FLX NRV	FLEX NERVES		MVB	<i>A hardening of the nerves that causes muscle contraction. Very noticeable in eyes where micro nerves tighten, making vision function more difficult. Taken often with FLX OPT as a base for better vision.</i>
FLX OPT	FLEX OPTICAL		MVB	<i>Hardening and shrinking of the optic chiasm leading to squeezed optical nerves and vision difficulties.</i>
FLX PAN	FLEX PANCREAS		MVB	<i>Hardening and shrinking of pancreas. Causes desires for sweets in unusual forms as well as standard fruits and sugars. May complicate various forms of diabetes.</i>
FLX TRD	FLEX THYROID		MVB	<i>Hardening and shrinking of thyroid. Decreases oxygen absorption, calcium processing, metabolism and body warmth.</i>
FLY HRT	FLYERS HEART	1-4	CB	<i>Combination of EDB, Jet Fuel fumes, radiation, cadmium and nitrate - all of which cause constriction/cramping in heart</i>
FNG SYS	FUNGUS SYSTEM BASE		FB	<i>For those allergic to everything, especially alcohol-based materials. May need other bacteria, fungi or parasite remedies with it.</i>
FOD BLK	FOOD BLOCK		MB	<i>Liver based condition when food simply doesn't process/digest. Drowsiness often follows within 2 hours.</i>
FOL ACT	FOLLICULAR ADENO CYTOMA		MVB	<i>A compound lump lead by follicular cells with adenoma virus and cyto virus. commonly found as thyroid nodules.</i>
FOL BCR	FOLLICULAR BASAL CARCINOMA		MVB	<i>A gradual deterioration of the skin area of organs that involve hormones.</i>
FOL MAL	FOLLICULAR MALADY		MVB	<i>Mal formation in the bones of follicular cells. Follicular cells hold many important proteins (including hair) necessary for digestion. Take with follicular-based lumps.</i>
FOL PPO	FOLLICULAR PICORNA POLIO OSTEOMA		MVB	<i>Follicular cell-based lump with picorna virus, polio virus and bone/cartilage material. Take with or after follicular cell malady.</i>
FOR FRM	FOREVER FIRM		MVF	<i>Aimed at inherited factors that cause loss of firmness in all parts of body, from skin and beyond</i>
FOR POL	FOUR POLES	3-8	MB	<i>Two possible forms of Bipolar in the same bottle. See also Two Poles</i>
FOS FEV	FOSSIL FEVER		VB	<i>A form of hanta virus most associated with the dust conditions of North and South Dakota. Strongly affects respiratory area with lingering tiredness and occasional fever.</i>
FRAZ FX	FRAZZLE FIX		MVB	<i>Disease of bone/adrenal cortex from worry that "defects" all-important sodium in a way that binds it to sugars, which block countless internal sacks (glomerular, follicular), which gathers weight and tumors.</i>
FRC INT	FRUCTOSE INTOLERANCE		MVB	<i>Usually there is anywhere from a dislike of fruit to mild avoidance. However, fructose or sucrose in foods (there's more than you think) can cause varying degrees of hypoglycemia, tremors, confusion or coma. The condition causes renal tube acidosis with urinary loss of phosphate and glucose, cirrhosis and mental deterioration.</i>
FRM	FORMALDEHYDE	2-5	C	<i>Formaldehyde suffocates the system by itself and binds many chemicals and metals, especially aluminum</i>
FRM CHL	FORMALDEHYDE CHLORIDE		C	<i>Two of the most readily binding chemicals in our environment. They will harden veins and arteries, clog thyroids, livers, gall bladders, lymph and brains. plus plus plus</i>
FSH TOX	FISH TOXINS	1-3	T	<i>Especially shell fish that make people swell up with heat or when eating some form of shell fish</i>
FSH WRM	FISH TAPEWORM		P	<i>Common parasite (diphyllobothrium latum) found in fish across the world.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

FT STMP	FAT STUMPER		<i>MVF</i>	<i>EXPERIMENTAL. The propensity to hold fat because of a condition in the frontal lobe which decreases oxygen absorption. Probably this will be taken in concert with other remedies.</i>
FUS FES	FUSARIUM FESTER	3-9	<i>B</i>	<i>Fusarium is a pus-producing bacteria liking to eat at cartilage and bone. Found in teeth, knees, etc.</i>
G. MEN	GONOCOCCAL MENINGITIS		<i>B</i>	<i>Inflammation of nerves coverings of the brain and spine. tiredness, tight neck, headaches, irritability, changing pulse rates, changing temperatures, nausea, vomiting delirium are common in some combination of the preceding.</i>
GALL D	GALL D		<i>MV</i>	<i>Replenish the ability to convert vitamin D into usable form for bones and reproductive areas.</i>
GAN VIR	GANGLION VIRUS		<i>V</i>	<i>Essentially this is the HIV virus that hides in the ganglion, like the culprit retrovirus, so for the sake of AIDS tests, we should eliminate it.</i>
GB FLUK	GALL BLADDER FLUKES		<i>P</i>	<i>Dicrocoelium Dendriticum- thought to be primarily passed via snail trails on vegetables. Also found in occipital lobe and cerebellum.</i>
GB SALM	GB SALMONELLA		<i>VB</i>	<i>Chicken/egg based salmonella bound by same type of virus as found in diverticulitis. Either love or hate eggs.</i>
GB SKIN	GALL BLADDER SKIN		<i>VB</i>	<i>Bacterial infection in gall bladder preventing the absorption of Vit D and oils into dry skin</i>
GB SWEL	GB SWELL		<i>VB</i>	<i>Common combination of pathogens led by paramyxovirus that makes the gall bladder inflamed and problematic.</i>
GB THAL	GALL BLADDER THALAMUS		<i>MB</i>	<i>Brain-based blockage that makes gall bladder under function</i>
GB VIR	GB VIRUS	3-5	<i>V</i>	<i>Papilloma and chlamydia love to congregate in the gall bladder with other viruses and thwart evacuation of stones. See also TYFD M.</i>
GBI	GB INFECTION	3-5	<i>B</i>	<i>Unknown bacteria often blocking gall bladders.</i>
GEN BRN	GENITAL/BRAIN	7-9	<i>RVB</i>	<i>A form of herpes that affects simultaneously both ends of the spinal column. Includes NRV CHM.</i>
GL CL LK	GLAND CELL LEUKEMIA		<i>MVB</i>	<i>Alters the making of epithelial gland tissue causing many glands to crowd out their own function by swelling. Epithelial cells bond with calcium, carbon and histamine causing enzyme-proof masses that dissolve best with basil and L-Taurine. Best w/ERY LUK</i>
GLAUC	GLAUCOMA	3-5	<i>RF</i>	<i>A polio residue with a fungus that is the actual cause of the disease. Take orally.</i>
GLI BLS	GLIOBLASTOMA		<i>MVB</i>	<i>Lumps, usually in brain, formed with blast cells and mucous gli cells.</i>
GLI CER	GLIOMATOSIS CEREBRI	9-12	<i>MBF</i>	<i>A form of brain tumor based on miasms with multiple possible problems in head and nervous system</i>
GLM MAL	GLOMERULAR CELL MALADY		<i>MVB</i>	<i>The mal formation of glomerular cells which cause their malfunction. Related to the pineal, glomerular cells are associated with the kidneys, the brain, inner ear, sinus, lungs, breasts, stomach, adrenals, thyroid, clitoris and penis.</i>
GLMONA	GLOMONOMA		<i>MRV</i>	<i>Brain blockage that allows cells to glom on to other cells and create weight.</i>
GLOOB	GLOOB		<i>VB</i>	<i>Tuberculosis-based group turning all effluences (sweat, lymph, etc.) of body into glue-like mixture that doesn't metabolize out and collects in body weight.</i>
GLT ANT	GUILT ANTIDOTE	4-15	<i>E</i>	<i>Buried GUILT produces subconscious self assessment of deserving punishment and failure.</i>
GLU DEF	GLUTATHIONE DEFICIENCY MIASM		<i>M</i>	<i>Miasm - decrease in primary brain food that encourages aging, senility and leads to Alzheimers</i>
GLUCMA	GLUCAGONOMA		<i>MVF</i>	<i>Pancreas tumor creating hyperglycemia so sugar causes redness or eruptions of extremities</i>
GM RGRW	GUM REGROW		<i>P</i>	<i>For the amoeba that causes gums to recede. See also PAR PAR.</i>
GNG GLB	GANGLION GLOB	6-12	<i>MV</i>	<i>Ganglion Neuromatosis - Tumor on the nerve ganglion that doesn't allow full impulse to go through the crossroads of nerve pathways</i>
GNT CEL	GIANT CELL MYEOLITIS		<i>MVB</i>	<i>Form of leukemia</i>
GOD BLT	GOLDEN BULLET			<i>Designed to help increase immune system and support all other remedies. May decrease number of bottles needed for non-miasmatic based remedies</i>
GOITER	GOITER	6-10	<i>VB</i>	<i>Swelling of thyroid, sometimes prominent. Often mixed with other thyroid and parathyroid problems</i>
GON	GONORRHEA		<i>B</i>	<i>Well-known venereal disease causing painful swelling of genitals, lower abdomen, liver, heart, joints, conjunctiva. Some have nausea, vomiting, fever, racing heart beat. Usually there is a tell-tale discharge from genital openings.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

GOO CLN	GOO CLEAN		ENZ	<i>A group of enzymes that cleans the gooey mucous that holds dead calcium, carbohydrates, lipids, follicles, etc. that are bound in a cell-clogging quagmire. Take with PRM AZN, PRM CRB, PRM CLC, PRM FOL, PRM LIP, PRM PLP.</i>
GOUT	GOUT		MV	<i>Familiar swelling of big toe involving kidneys and inherited weakness. Usually needs Kidstone (plus Shigella and Blood Lymph Flukes) to complete.</i>
GRAV#2	GRAVES BASE #2		MVF	<i>Thyroid bases combination that reveals itself only with a concurrent brain mass</i>
GRDN	GARDNERELLA	2-5	B	<i>Commonly known bacterial infection of the vagina . . . which commonly wind up in prostates.</i>
GRMOMA	GERMINOMA		MVB	<i>Lump of the germinal tissue of the gonads, the mediastinum (chest tissue) or the pineal region. Commonly with pineal disorders. Even more commonly on adrenals with 2 retroviruses affecting central nervous system.</i>
GROUND	GROUNDING		E	<i>A sense of feeling comfortable to live in the earth plane instead of trying to escape</i>
GRV TRD	GRAVE THYROID		MRB	<i>A Trench-fever based residue with miasm that seems involved with Grave's Disease issues</i>
GRW SPR	GROWTH SPURT		MB	<i>Corrects curvature of the back that stunts growth. See also BON HRD w/BRN FLX</i>
GRY HAR	GRAY HAIR upgraded		MVF	<i>EXPERIMENTAL Hair regain formula w/added remedy for hair-eating bacteria, plus. Works best w/other adrenal formulas</i>
GUILL	CANDIDA GUILLIERMONDI		F	<i>A poorly identified form of candida.</i>
HAE	HIGH ALTITUDE EASE	2-4	B	<i>Bacteria that cause swelling in high altitudes and cases of hay fever</i>
HALLUX	HALLUX		MV	<i>When the big toe crosses over or under the smaller toes beside it.</i>
HANTA	HANTA VIRUS		V	<i>In clinical form a deadly hemoragic Virus. In subclinical form it also attacks respiratory, sinus, and thyroid areas. Occasional nose bleeds are common. It is serious when you start coughing up blood.</i>
HAP PAN	HAPPY PANCREAS		V	<i>Infection of the pancreas causing sugar desires, blood sugar imbalance and attitude that happiness is hard to find</i>
HAR HOR	HARMONIOUS HORMONES		M	<i>Cholera Miasm-based adrenal insufficiency that may affect hormones in many ways, including baldness over the crown. . .</i>
HAR LIV	HAIR-LIVER		MVB	<i>Corrects liver condition for some people in order that liver can be stimulated to grow hair. No, it does not grow hair on the liver.</i>
HAR LOS	HAIR LOSS		CF	<i>Female hair loss, based on the small intestines and relationship to anesthetics. Not tested yet for males.</i>
HASHIM	HASHIMOTO'S	6-10	VFP	<i>This supposed thyroid disease is actually a disease of the parathyroid.</i>
HBP	HIGH BLOOD PRESSURE		MVF	<i>Improved version of remedy that now includes the adrenal as well as the kidney portion of the problem</i>
HCK SMO	HACK SMOOTH		BVC	<i>Another contrail special for a hacking cough that hangs on from deep down.</i>
HEA 70A	HYPOTHALAMUS ENZYME ALTERATION 70A		MVB	<i>Mismade enzyme causing an underactive thyroid and shrinking jaw (crowded jaw).</i>
HEA 70B	HYPOTHALAMUS ENZYME ALTERATION 70B		MVB	<i>Mismade enzyme causing an overactive (hyper) thyroid and shrinking jaw (crowded jaw).</i>
HEAR MO	HEAR MORE	3-6	RV	<i>Inherited cause of hearing loss</i>
HED LMF	HED LYMPH		MR	<i>Adrenal/Kidney based issue that blocks sodium and lymph generally and sodium specifically in head. (Sodium imbalance is basis of stroke).</i>
HEL ATR	HELICOPTER ATROPHY	1-2	B	<i>A rememberable name for helicobacter pylori. With cryptosporidium = ulcers. Binds with other parasites.</i>
HEM CAR	HEMOLOGICAL CARCINOMA		MVB	<i>Usually when there's one form of cancer, there are others brewing. This cleans the blood of carcinogenic elements and buys time to find the whole solution. Read label instructions carefully.</i>
HEM CRB	HEMOGLOBIN CARBON		MVB	<i>Designed to only be taken with BLD IMP, this bone/livercondition doesn't release enough oxygen from hemoglobin. The oxygen binds carbon (dioxide) into a bicarbonate which alkalines protein to the point of non digestion and contributes to weight retention.</i>
HEM EX	HEME EXPIRE		MVB	<i>A bone condition in which the heme that carries iron for oxygen transport expires just after it is made. See also HEM LIF.</i>
HEM HEM	HEMORRHAGIC HEMOPHILIA		MV	<i>A breakdown of the blood based on an Asian (India) form of hanta hemorrhagic fever. More destructive than the standard form of hemophilia.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

HEM LIF	HEMOLYTIC LONG LIFE		MBF	<i>Bone/Liver Methoglobin Disease of blood causing early death of hemoglobin which carries oxygen deprivation to body and organs.</i>
HEM MAL	HEMOBLASTIC MALADY		MVB	<i>Bone-based insufficiency to make new heme cells. Heme of hemoglobin is responsible for carrying the iron that carries oxygen. The condition incapacitates the thyroid from converting oxygen for metabolization.</i>
HEM MYE	HEMOLOGICAL MYELOMA		MVB	<i>Blood disorder starting in the bone marrow that produces stem and progenitor cells for so many of the constituents of what we loosely call blood. This disorder is the grandfather of blood diseases.</i>
HEMFL B	HEMOPHILIA B		MVB	<i>A deficiency of coagulation factor 9, the plasma thromboplastin.</i>
HEMOFL	HEMOPHILIA		MR	<i>All too easily bleeds with great difficulty in stopping. There are subclinical cases as well as the much-talked of clinical cases.</i>
HEMOG C	HEMOGLOBIN C		MBV	<i>Physical science unclassified form of hemoglobin disease.</i>
HEMOG D	HEMOGLOBIN D		MVB	<i>A form of blood disease akin to, but different from, Thalassemias. The base is in the liver.</i>
HEMOG E	HEMOGLOBIN E		MV	<i>A form of blood disease akin to, but different from, Thalassemias. The base is in the liver. This one more common.</i>
HEMOG F	HEMOGLOBIN F		MVB MVB	<i>A blood disease that weakens a person over time. Iron anemia and hypochondria. Kidney issues. Could be more important with bone infections.</i>
HEMOG G	HEMOGLOBIN G		MVB	<i>Blood disease that tires person and blocks kidneys mildly, while adding to other diseases.</i>
HEMOG H	HEMOGLOBIN H		MVB	<i>A blood disease of the hemoglobin not yet classified by science.</i>
HEMOG M	HEMOGLOBIN M		MVB	<i>A spleen disease caused by insufficient creation of an enzyme Nicotinamide reductase dinucleotide glycohydrolase (NADH methemoglobin reductase system present in normal red cells). It puts iron in a condition that cannot carry oxygen to the rest of the body.</i>
HEMOG SC	HEMOGLOBIN SC		MVF	<i>Blood disease like sickle cell usually for non-black people. Often connected to numerous kidney diseases.</i>
HEMR	HEMORRHOIDS		CB	<i>Pesky condition often caused by the molding factor in cheese. Often compounded by parasites.</i>
HEP C	HEPATITIS C	3-7	VB	<i>A retrovirus bound by a fusarium bacteria. Often seen with Aflagot.</i>
HEP C1	HEPATITIS C1		VB	<i>Recently the regular Hepatitis C formula hasn't been enough because of fairly new complications. Check both, especially after vaccinations</i>
HEP D	HEPATITIS D	1-4	B	<i>Seemingly rare form of Hepatitis</i>
HEP F	HEPATITIS F		B	<i>One of many forms of liver swelling from infection.</i>
HEP G	HEPATITIS G		VB	<i>This form combines the retrovirus with Calymmomato Granuloma, giving the person occasional thoughts (perhaps actions) of a nasty behavior.</i>
HEP I	HEPATITIS I		B	<i>Variation of Hepatitis from mutations</i>
HEP J	HEPATITIS J		B	<i>Variation of Hepatitis from mutations. Part of Pulmonary Aveolar Proteinosis.</i>
HEP L	HEPATITIS L		B	<i>Liver and adrenal condition involving common bacteria. Blocks hormones to heart, related to Amyloidosis</i>
HEP O	HEPATITIS O		B	<i>A special condition of the liver that, when combined with CLS DIF or CLS PER, causes a crab, pincer-like movement of the hand. It looks like Parkinson, except the thumb moves independently towards the fingers.</i>
HEP PNM	HEPAPNEUMONIA		B	<i>A form of pneumonia (brought in through the lungs) which gets inside the cells of the liver and reacts to air conditions.</i>
HEP RVE	HEPATITIS RVE	1-3	VB	<i>A newly discovered form of hepatitis that binds retro virus in liver.</i>
HEP X-1	HEPATITIS X-PART 1		MVB	<i>A lump of wide variety of components common to the liver that makes the liver swell. Tubercifibrocytosarcobasiloma.</i>
HEP X-2	HEPATITIS X-PART 2		VB	<i>A group of pathogens that gather around HEP X and make the liver swell and dysfunction.</i>
HERPO	HERPORAL	3-6	RV	<i>Can also require Strep, CPS, Small Pox, Chlamydia Pneumonia. Coxsackie and Anthrax are mistaken for Oral Herpes.</i>
HEV CEM	HEAVY CHEMSMOKE		CBV	<i>Summer 2001 chemtrail combination with an unusual pervading respiratory and sinus infection that travels to the brain and clogs it. Heavy feeling in chest, cold like feeling in sinus and thick feeling in head.</i>
HG TOO	HG TOO		V	<i>The non-herpes part of Herpes Genital. Best taken with HG</i>
HH LA&T	HEAD HORMONES LOW ADRENALS & THYROID		MRV	<i>A form of pituitary adenoma. Subjects are always tired, short memories, low comprehension of new material and lack energy to attempt new endeavors. Sometimes itching is involved if thyroid is removed or very under functioning.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

HIRSUT	HIRSUTISM		MVF	<i>Adrenal condition of growing excess hair. Especially disagreeable to women with lip, chin, etc hair. Also adversely affects hormonal balance</i>
HIST	HISTOPLASMOSIS	2-7	F	Lung condition mostly associated with birds or bird droppings
HIVES	HIVES		MVB	<i>Syphilinum-based remedy for painful skin disease that can also be in interior, mucous membrane. If seen on the outside, can be on inside.</i>
HM CNCT	HEART-MIND CONNECTION		MF	<i>Seems to bring the two lead systems together. With Copper Surplus, it tests to make a person ,more "heart felt". Don't inflict it upon spouses !</i>
HND	HUMAN NERVE DISEASE		MVF	<i>So common of a disease in humans that it has no name because this weakness in the nerves is considered normal. Behind many other nerve diseases.</i>
HONOR	HONOR		E	<i>HATE is the product of not understanding or honoring a lesson that was tough (negative on surface) because previous opportunities were ignored.</i>
HOOK A	HOOKWORM AMERICANA		P	<i>Necator Americana (actually brought to America from Africa with slave trade) has a "cousin" in Europe, Asia and elsewhere (HOOK I). The vibrations are different.</i>
HOOK I	HOOKWORM INTERNATIONAL		P	<i>Ancylostoma Duadenale, the so-called old world version of hookworm which seems prevalent everywhere, is now seen more often in North America with international travel. It differs from Nector Americana (HOOK A).</i>
HOR BND	HORMONE BINDER		MVB	<i>Liver condition that produces hormone derivatives that bind hormones instead of producing hormones with releasing factors. Involved in excess weight and insufficient reproductive gland function.</i>
HP THAL	HYPOTHALOMA		MVB	<i>Major gland of diencephalon, which controls pituitary and many hormone functions.</i>
HPNMV	HUMAN PNEUMOMEGLOVIRUS		V	<i>Like CMV, this virus locks into the lymph trapping oxygen around cellular fluid</i>
HPO FNC	HYPOFUNCTION DISEASE		MVB	<i>A disease in the Chronic Fatigue Syndrome group. People chronically feel tired and wasted. First check Epstein Barr, CMV, Bone INFS and SSP</i>
HPTROP	HYPOTROPIA		VF	<i>A vertical tendency of one eye, caused by unequal ocular tone. That eye will track differently than the other eye.</i>
HRLVLN	HEART LIVER LUNG		MVB	<i>Protein Losing Enteropathy-Dehydration of heart, thickening of heart wall, hypoxia of lung, weakens sodium retention in kidney, weakens muscle of intestines, weakens prostate</i>
HRM REG	HORMONE REGENERATION		VB	<i>A bacteria /virus combination may block the body's ability to produce estrogen, progesterone and testosterone.</i>
HRP BRF	HAARP BARF		CB	<i>Contrail dropping composed of elements of tuberculosis, meningitis and bubonic plague. Lovely !</i>
HRP ENC	HERPES ENCEPHALITIS	4-9	RFB	<i>The poxes in the spine with fungus and nerve bacteria cause a slow deterioration of central nervous system</i>
HRT FIB	HEART FIBROMATOSIS		MVB	<i>Inherited fibrosing of heart, weakening function, causing hypertension of lungs, and back pressure on kidneys</i>
HRT FLX	HEART FLEX		MVB	<i>Hardening of the heart walls and heart septum (as well as the nose septum)</i>
HRT JN	HEART JOIN		MVB	<i>A heart weakness in an estimated 30% to 40% of the population causing a "nitrogen narcosis" (like a general anesthesia) causing unexplained tiredness. Worse with altitude, cold, and stress.</i>
HRT RAC	HEART RACE		MVB	<i>Brain/kidney/heart disease that causes the heart to race uncontrollably. It stems from the brain signaling the kidneys to release a material that pushes the heart to race.</i>
HRT VLV	HEART VALVE DISEASE		MVB	<i>For both kinds of inherited heart valve diseases. May attract STAPH AUREUS #1&2, IEV and DOG HRT</i>
HRTCAN	HEART CANDIDA	2-5	F	<i>Candida forms around the valves of the heart with the help of a rare clostridium bacteria.</i>
HRTOMA	HEART ADENOMA		MV	<i>Lump in heart eschewing circulation, causing arrhythmias, inviting chemical contamination, cramping and making blood pressure irregular</i>
HST BIN	HISTAMINE BINDER		MVB	<i>Liver-based affliction that causes histamine to bind to calcium and carbon producing excess weight.</i>
HTA	HANTA	1-2	V	<i>Alone and full-blown, this is a killer virus. Sub-clinically it binds with a bacteria or other virus to mimic Chronic Fatigue Syndrome.</i>
HV STEN	HEART VALVE STENOSIS		MVB	<i>Congenitally narrowed or constricted heart valves. One of the most common causes of heart failure over the age of 50. Symptoms include heart cramps, irregular pulse, edema, fluid in lungs, enlargement of liver and spleen and "rattle " with breath.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

HW SUPP	HORMONE W SUPPRESSOR		MVB	<i>A miasmic formula aims at the adrenals to unsuppress a hormone that helps dissolve fat/weight.</i>
HYDR TX	HYDROCARBON TOXINS		C	<i>Especiallly good for exhaust fumes for people who work around such. More applications to be tested</i>
HYDRAT	HYDRATION		MVB	<i>For interruption of H5O1 that dries up all parts of the body and decreases coordination of inner processes. It is in all forms of withering, decreased capacity and aging. Therefore it is a huge factor in looking older.</i>
HYP GLY	HYPER GLYCEMIA		MVB	<i>An excess of sugar in the blood based on a problem in the Medulla Oblongata.</i>
HYP MET	HYPOTHALAMUS METABOLITES		MVB	<i>A precursor hormone, like thyroid stimulating hormone, stimulates the cascade of signals that activates metabolites throughout the body. If there are no serious infections in the pituitary, thyroid and liver, this will strongly help reduce weight, digest food and improve the health of all cells.</i>
I E L	INFECT ENCARD-	3-8	FB	<i>Infectious endocarditis residing as the effect of long-term, Strep Pneumonia. Usually is behind Aspergillosis.</i>
I E V	INFECT ENCARD-	3-6	FB	<i>Infectious endocarditis residing in the heart valves. Insidious, slow, long-term problem that kills.</i>
IFC ADN	INFLUENZA C ADENOMA		MVB	<i>An unusual compound-content lump that may be diffuse throughout the body instead of localized (can also localize). Look for it with mast cell leukemia and weight issues.</i>
IG	INDUSTRIAL GASES	2-7	C	<i>Lead, Arsenic, Chlorine and Mercury. Check on the T-1 (below where neck meets shoulder) plexus of nerves.</i>
IMG MAL	IMMUNOGLOBULIN MALADY		MVB	<i>A bone/liver disease of the blood that affect all Ig types. Each variation blocks or distorts the release of other cell functions, which affects weight storage, hormone blockage and endocrine function.</i>
INF FIT	INFECTION FIGHTER		MVB	<i>Designed to restore full function to mononuclear phagocytes, including histiocytes in the blood, monocytes in the bone marrow, macrophages in the liver, Kupffer cells in the liver sinusoids and alveolar macrophages in the lungs. Mononuclear phagocytes are critical components in the inflammatory and immune response. In distorted form they cause swelling without infection. See also T CELL MALADY, JMP STR.</i>
INS FOL	INSULIN FOWLER		VB	<i>A group of pathogens that prevent insulin from converting blood sugar. Usually they are a complication of INSLOM or TBR INS.</i>
INSLOM	INSULINOMA		MVB	<i>A lump in the pancreas that interrupts the flow of insulin. Most people with this lump have an intolerance to sugar & milk at the same time. See LAC INT, LAC SEN.</i>
INSOM	INSOMNIA	2-4	VB	<i>Rota virus, along with several other constituents sticks in the liver. Check also RAD ENT.</i>
INV NIP	INVERTED NIPPLE		MVB	<i>Ductile contraction caused by missing enzyme from the adrenals.</i>
IOD ABS	IODINE ABSORPTION		F	<i>Fungus in the thyroid caused by pancreas. When calcium is infected it coagulates in pancreas which inhibits calcium conversion by parathyroid which binds iron in the thyroid which creates fungus that inhibits thyroid from absorbing iodine.</i>
IODULS	IODULSE			<i>Iodine in dulse is the best food for thyroids after removal of blocks and with Low Thyroid remedy.</i>
IRN CRY	IRON CARRY		MVB	<i>Liver condition which blocks the making of a protein transferrin used by the blood to carry iron to the normoblasts in the bone. People are often winded, light sleepers, have blood-based tiredness, trouble in high altitudes, pale with very dry skin. See IRN SRP.</i>
IRN LTL	IRON LITTLE		MV	<i>When the body makes too little iron the condition is called Chloroasis, in the scientific world.</i>
IRN SRP	IRON SURPLUS	9-11	M	<i>Hemochromatosis is an inherited production of too much iron that is wide-spread = PSRTUB + ERGOT</i>
ISO ALO	ISOPROPYL ALCOHOL	2-4	C	<i>Strong catalyst in turning fungus to cancer.</i>
JITRS	JITTERS	1-5	B	<i>Bacteria on adrenals that instigates other diseases and causes nervous tension</i>
JMP STR	JUMP START		V	<i>When the immune system is very low and a quick rejevination of the infection-killing T-Cells is needed, this may jump start the battery of healing.</i>
JP8 ANT	JET FUEL #8 ANTIDOTE		C	<i>Chemtrail remedy that antidotes the superheated/ burned form of ethylene dibromide and benzene in Jet Fuel #8.</i>
JUMPY	JUMPY		MF	<i>Based on Syphilis Miasm in the brain, a combination of fungi like bipolar makes the person anxiety-ridden</i>
KA A OCC	KIDNEY/ADRENAL ARTERY OCCLUSION		MVB	<i>Cuts off blood circulation to both kidneys and adrenals causing both to malfunction.</i>
KADOMA	KIDNEY/ADRENAL OMA		MVB	<i>In the connection of the organs in a way that pressures both organs into aberrant function.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

KAL PHS	KAL PHOS	1-3		Cell salt brain tissue and nerve re-builder
K-B FILT	KIDNEY BLOOD FILTER		MB	<i>Miasmatic impairment of kidneys in their ability to cleanse the blood as it becomes urine</i>
KDEYER	KIDNEYS/EYES/EARS		MB	<i>Aimed at a kidney disease called "Alports Syndrome" which can include kidney deterioration, high note deafness, some eye lesions and cataracts</i>
KDS	KIDSTONE	3-6		When kidney stones form, Blood/Lymph Flukes and/or Shigella are attracted. Drink lots of water.
KID ADR	KIDNEYS-ADRENALS		MVF	<i>Inherited imbalance of coordination of kidneys and adrenals that decreases desire to love as well as physical conditions</i>
KID ART	KIDNEY ARTERIES		MRF	<i>Aimed at inherited deterioration of the kidney arteries called "Renal Cortical Necrosis". "Rare?" form of acute kidney failure.</i>
KID CAL	KIDNEY CALCIUM		MV	<i>Condition that does not allow proper conversion of calcitron so that calcium can be assimilated. Related also to brain hardening and astrocytoma</i>
KID CMP	KIDNEY COMPLETION		MVB	<i>A hippocampus-based remedy that helps complete the full formation of the kidney/adrenals that was not finished at birth. This is not for rebuilding (see AD MD BD), but for formation. Symptoms are hormonal insufficiency, kidney and adrenal infection.</i>
KID COR	KIDNEY CORE		MF	<i>Blockage in the kidney medulla that festers and gathers fungus to block kidney function.</i>
KID FLD	KIDNEY FLUID RELEASE		MVB	<i>The cause of Goodpasture's Syndrome. A constriction in the kidney (and lungs) from storing too much iron (FE-) that holds fluids like ascites and edema. Worse with HEMOG M and other blood diseases. Releases iron through blood to intestines and may cause temporary constipation.</i>
KID FRE	KIDNEY FREE		MVF	<i>Releases calcium, carbon and histamine that especially affect the kidney and cause edemic weight</i>
KID HOR	KIDNEY HORMONES		MVB	<i>Pituitary/Liver coordination for what blocks renin in kidney, causing weight, aches from backed-up uric acid and lymph blockages</i>
KID PRO	KIDNEYS AND PROTEIN		MV	<i>Inherited mal-processing of proteins and aimed at "Berger's Disease". Kidneys block with poor digestion of meats.</i>
KID REL	KIDNEY RELEASE	3-5	VF	Penicillin and aflagot, among others, combine to impair kidney function.
KID RUM	KIDNEY RHEUMATICUS	9-12	MB	Inherited condition that slowly deteriorates kidneys while wasting Potassium, Sodium and Chlorides. Aimed at "Bartter's Syndrome"
KID SCR	KIDNEY SCRUNCH		MVB	<i>Inherited form of glomerulonephritis which causes various forms of blood pollution, sodium depletion, dehydration, intermittent to constant diarrhea, paralytic ileus, fistulae and dry skin.</i>
KID SOF	KIDNEY SOFTEN		MVF	<i>Aimed at hardening of the kidneys, especially felt when weather turns cold, and "Chronic Glomerulonephritis"</i>
KIDD SK	KIDNEY DRY SKIN		MV	<i>Blockage of the kidney that backs uremic poisoning into the skin causung various degrees of eruptions during cold weather</i>
KLB CAR	KLEBSIELLA CARCINOMA		MVB	<i>Usually felt as an ache inside bones and joints. May spread to digestive issues. Triggers blood diseases along with BONE INFECTION.</i>
KLB OZ	KLEBSIELLA OZAENAE	3-6	B	Bone-eating bacteria in many types of bone loss. See also BON INF, Alumina.
KLB PNM	KLEBSIELLA	1-4	B	A bone bacteria involved in several inherited bone degenerations
KLM	KIDNEY LUNGS MUSCLES		MVB	<i>An inherited kidney hormone and enzyme insufficiency unable to process magnesium which causes frequent urination, shallow breathing, leg cramps, inability to release ascites and heart congestion. Releases electrolytes in intestines which relieves dry skin. Worse with blood diseases and alcohol.</i>
KMM	KIDNEY MEDULLA MOLD	2-5	B	Frequent kidney blockages; perhaps relationship to high blood pressure and alopecia.
LAC INT	LACTOSE	8-9	MB	Reactions to milk, cheese or other milk products.
LAC SEN	LACTOSE SENSITIVE		MB	<i>A mild disagreement with milk products, upsetting digestion. Itching in center of back. See also LAC INT and gall bladder issues</i>
LAZ EYE	LAZY EYE	3-6	MRB	Some people have an eye that doesn't quite focus in line with the other eye. Involves inherited issues.
LBC TRD	LOW BLOOD PRESSURE-THYROID		MVF	<i>One of the causes of low blood pressure</i>
LBP	LOW BLOOD	3-7	MF	This fungus in the adrenals should not always be fixed, yet in extreme cases and high altitudes and impotence and ...
LBP2	LOW BLOOD PRESSURE #2		MB	<i>Another form of low blood pressure based on adrenals</i>
LBR PNM	LOBAR PNEUMONIA		MVB	<i>A form of fused lung tissue resulting from long-term lung infection, such as asthma, emphysema, primary amyloidosis, etc.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

LEA 63B	LIVER ENZYME ALTERATION 63B		MVB	<i>Liver enzymes that no longer support adrenal activating enzohormones are reactivated by this formula. Used especially with SEN.</i>
LEC LEC	ELEC COLEC		C	<i>The collection of and sensitivity to electricity, usually based on ELC COL. Headaches, sleeplessness and fuzzy thinking are symptoms. Like radiation symptoms</i>
LEIOMA	LEIOMYOMA		MVB	<i>One of the most common masses found in the throat/esophagus. Also found on fallopian tubes and in uterus..</i>
LEP	LEPROSY		B	<i>Officially called Hansen's Disease this involves multiple systems of the body, with wide-spread skin nodules, destruction of the nose cartilage and bone, testicular atrophy, peripheral edema and eye problems often involving blindness.</i>
LEP LEP	LEPROMATOUS LEPROSY		B	<i>Not very contagious form of tuberculoid leprosy to be taken with TB skin (usually there is TB in other parts of the body as well). Thickens cutaneous nerves and has saucer-shaped flat skin lesions.</i>
LESQAM	LEIOMYOSQUAMOMA		MVB	<i>A lump composed of leio and squamous cells, commonly found in reproductive glands or breast.</i>
LF NV ML	LYMPH NODE VALVE MALADY		MVB	<i>Bone-based paralysis of afferent and efferent valves of lymph nodes, leaving them always open or always closed. The effect is to shut down the lymph system and leave toxins in the blood. The toxins interfere with the immune function and transportation of nutrients and hormones</i>
LIF FRC	LIFE FORCE		MVB	<i>A bacteria /virus combination may block the body's ability to produce DHEA</i>
LIG SCL	LIGAMENT SCLERA		MVF	<i>The Gall Bladder can form inherited conditions with current fungi and viruses to strangle assimilation of what it takes to feed a ligament</i>
LIHT A	LIGHTFUNGUS ADRENAL		F	<i>A special fungus on the pineal affecting the adrenals and their function.</i>
LIHT P	LIGHTFUNGUS PITUITARY		F	<i>Pineal fungus affecting Pituitary and prohibiting light conversion of vitamin D for bones, gall bladder, prostate and kidneys/adrenals.</i>
LIHT TL	LIGHTFUNGUS THALAMUS		F	<i>A special Pineal fungus affecting the thalamus and inhibiting its Lymbic system and governing role on the master gland, the pituitary</i>
LIM ZIM	LIMBIC ZIMBIC		MVF	<i>Unblocks the lymbic system where pleasure is processed and helps the release of healing endorphins.</i>
LIP LOS	LIPID LOSS		MV	<i>Part of combination used for holding excess lipid and water. Often w/WHT LOS,FOD BLK, SLP WEL & CRB BLK</i>
LIPID	LIPDEMA		MVB	<i>Miasmic combination that disallows pancreas to digest lipid fat (gelatous fat). Check parathyroid function along with this remedy)</i>
LIPN LM	LIVER PANCREAS BUMPS		MVB	<i>Aimed at a mal-digestion of proteins and lipids which bind together by inherited deficiencies of the liver and pancreas. Internal lumps/klogs</i>
LIPOMA	LIPOMA		MVF	<i>Internal or subcutaneous tumor that is malleable. May be with a retrovirus.</i>
LIST	LISTERIOSIS	3-8	B	<i>Toxin found in babies whose mother had toxins in blood. Found in 50-year olds sometimes.</i>
LIV ACT	LIVER ACTION		MVB	<i>For Glucose 6 Phosphate Dehydrogenase Deficiency, a liver disease. A form of mild to severe anemia in activities that involve all muscles simultaneously, like swimming. Inability to break down glycogen to glucose. See SPRUE for gluten intolerance.</i>
LIV CLN	LIVER CLEANSE		MVB	<i>Activation of enzymes that clean the liver of undigested, coagulated material.</i>
LIV DRL	LIVER DRILLERS	2-5	P	<i>Schistosoma Mansoni, one of the most common forms of liver flukes drills holes in the liver and impairs protein digestion</i>
LIV DTX	LIVER DETOX	3-5	VB	<i>Complex chemicals including wood alcohol, kojic acid, drugs, etc. collect in the liver. See also CHEMX.</i>
LIV ENZ	LIVER ENZYME REGENERATION		MVB	<i>Reconstructs the liver's ability to create enzymes correctly for digestion and collagen (anti-wrinkle) making.</i>
LIV FIB	LIVER FIBROMATOSIS		MV	<i>Inherited fibrosing of liver causing weakness, contributing to liver spots and neural degeneration</i>
LIV HOR	LIVER HORMONES		MVB	<i>Pituitary-based remedy (take gradually). Affects the liver function that stores excess weight. Originally- Store Not</i>
LIV MET	LIVER METABOLITES		MVB	<i>Activates the metabolites (Anabolites and Catabolites) riding on the sodium of the body. Spawns supporting enzymes for the metabolites to work with from the liver. (Other enzymes will often be needed). Take with ADR SOD.</i>
LIVOMA	LIVER ADENOMA		MVB	<i>Lump in the liver that may crowd the function of the liver and gall bladder</i>
LK SHRP	LOOK SHARP		MVB	<i>Tones teeth, eyes and thyroid so that eyes see more sharply and thyroid metabolizes body to look sharper.</i>
LLL	LIVID LIPID LIVER		MVF	<i>A miasmic condition that prevents the liver from breaking down lipids (along with adrenals). Take with LPD COL</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

LM BASE	LYMPHOMA BASE		MV	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM BRN	LYMPHOMA BRAIN		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM CHST	LYMPHOMA CHEST		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM CNS	LYMPHOMA CENTRAL NERVOUS SYSTEM		MVB	<i>Causes a cerebral edema with symptoms of any of headaches, seizures, cranial nerve palsies, eye/vision problems and mental perception changes. Most commonly this is seen as the result of a deeper, chronic infection from herpes to syphilis to AIDS. Sometimes the mass blocks the chorioid plexus and causes ascites.</i>
LM GUT	LYMPHOMA GUT		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM HRT	LYMPHOMA HEART		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM IMBD	LYMPHOMA INTRA-ABDOMINAL		MVB	<i>Often w/leukemias, TB ASCT, TB MCLN</i>
LM LI	LYMPHOMA LRG INTEST		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM LIP	LYMPHOMA LIPOMA		MVF	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM LIV	LYMPHOMA LIVER		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with leukemia.</i>
LM LUNG	LYMPHOMA LUNG		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM OVAR	LYMPHOMA OVARIES		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM SI	LYMPHOMA SML INTEST		NVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM SPLN	LYMPHOMA SPLEEN		MVB	<i>Part of a series of lymphomas that accompanies different leukemias</i>
LM STOM	LYMPHOMA STOMACH		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM TEST	LYMPHOMA TESTES		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LM TROT	LYMPHOMA THROAT		MVB	<i>Lymphocytes gathering in this location either in protrusion or in complication of another swelling. With retrovirus when cancerous. Often with a leukemia</i>
LMF ACD	LYMPH ACID		MVF	<i>Lymphatoid Granulomatosis - Relentless necrotizing and destruction of the lymph system. Attacks respiratory, skin, CNS.</i>
LMF CAR	LYMPHOCARCINOMA		MVB	<i>A carcinoma of the lymph</i>
LMF CYS	LYMPHO CYSTOMA		MVB	<i>Lymph cyst filled with pus or other dead material in a lump with lymph. Substantially different from a Lymphocytoma which is a lump complicated by a cyto virus.</i>
LMF DCG	LYMPH DECOAGULATION		VF	<i>Frees a protein (yet to be identified by science) that normally keeps lymph loose and flowing. Coagulated lymph store and solidifies toxins, creating a body environment for infection.</i>
LMF FRE	LYMPH FREE		MVF	<i>Releases carbon, calcium and histamine trapped into the lymph (causing weight)</i>
LMF GRN	LYMPHOGRANULOMA INQUINALE	3-6	B	<i>A form of yeast converting to fungus behind vaginal yeast infections not especially related to candida. Check also CLM GRN.</i>
LMF LUK	LYMPHATIC LEUKEMIA	5-9	MVB	<i>Toxin result of (emotional) tail bone dislodging over years which takes subject in and out of leukemia.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

LMF PLQ	LYMPH PLAQUE		MVB	<i>Just as plaque forms on the inside of arteries and on nerves, another kind forms on the inside of lymph channels. Often involved in weight issues and lymphatic leukemias.</i>
LMF PMP	LYMPH PUMP		MVF	<i>Based on the kidneys/adrenals, this miasm stops the pumping of lymph fluid (toxin removal). Subjects don't perspire much, toxins gather around the endocrine glands to fix hormones and causes collection pouches from chin to belly to legs. Use with PAR MYX.</i>
LMF SLT	LYMPH SALT		MVB	<i>An adrenal/kidney conversion of lymph into salt for digestion instead of cell clogging.</i>
LMF STR	LYMPH STRENGTH		M	<i>Four miasms that form a weakness to lymphomas and other lymph issues.</i>
LMF WHT	LYMPH WEIGHT	7-9	VF	<i>After candida as a cause of weight, this may be worth the use of 5-9 bottles. With CLM TRA it forms dynamite weight loss.</i>
LMFB LK	LYMPHOBLASTIC LEUKEMIA		MVB	<i>aka Myeloblastic Leukemia. The most common malignancy in children 5-7 which has a 95% initial remission. Relapse comes with strong bone marrow infection and invasion of lymph-based growths in the thyroid. Low thyroids and big bellies may develop.</i>
LMP SMP	LUMP STUMPER		MVF	<i>Remedy for condition in the frontal lobe of the brain that gives propensity of body to form lumps and bumps.</i>
LMPH IP	LYMPHOCYTIC INTERSTITIAL PNEUMONIA		B	<i>A form of inflammation of the layers of skin in between the organs and tissue of the body.</i>
LND	LINDANE	1-4	C	<i>Common farm pesticide in intestines.</i>
LNG ABC	LUNG ABCESS		MVB	<i>Well-identified bacteria involved plus miasmatic weaknesses that allowed the abcess</i>
LNG POL	LUNG POLLUTE		C	<i>Mild disturbances of lung from dust to fumes that lodge in the mucous tissue of the lungs.</i>
LNG TRD	LUNGTHYROID TOXICOSIS		MVB	<i>Condition of the lung that blocks transport of oxygen to thyroid for metabolism.</i>
LNG WEZ	LUNG WHEEZE	9-12	MB	<i>For emphysema add either CLM PNM, KLB PNM, or HIST. Often accompanied by miasms in liver.</i>
LNGOMA	LUNG ADENOMA		MVB	<i>Lump in the wall of lungs impairing breathing and heart, kidney coordination and assimilation of oxygen</i>
LOA LOA	LOA LOA	3-5	P	<i>Transient swelling in subcutaneous tissue. Often in intestines, as well as the normal heart location.</i>
LOC LUK	LYMPHOCYTIC LEUKEMIA		MVB	<i>Bone-Blood disease spreading to lymph nodes. Slowly decreases immune system. Usual swelling of spleen/liver.</i>
LOS MUS	LOOSE MUSCLE VIRUS		V	<i>Lymphotropic virus behind sagging muscles. Use with PSR MED for prolapsed uterus and other muscles.</i>
LOV BLK	LOVE BLOCK	4-9	F	<i>A fungus on the pons of the brain affects coordination and speech response PLUS deters the person's ability to accept love</i>
LOV LIV	LOVING LIVER		BF	<i>Led by fungus that stops liver from regenerating itself, the bacteria eat at liver in physical way that reduces the ability to love life and express love</i>
LP CL LK	LIPID CELL LEUKEMIA		MVB	<i>Causes lipids to be insoluble by enzymes and bond with calcium. The bond alters pancreatic calcium distribution function to attract sugars to envelope the lipid/calcium bond, causing weight, cellulitis, lymph channel blockages. Best w/ ERY LUK.</i>
LPD COL	LIPID COLLECT		MVF	<i>The kidneys do not pass lipids and instead, collect them. Simultaneously the adrenals do not convert lipids to hormones. Often taken with LLL.</i>
LRBC	L/R BRAIN	3-6	VB	<i>Perceptual and thinking blocks caused by drugs (legal or not) in Corpus Callosum and Temporal Lobe.</i>
LRN SPK	LEARNING SPARK		VF	<i>The most common complications to set into a vaccination-injured child. Often taken with VAC BRN and PIT CLK. Subjects usually have great apathy to school work and little interest in using their intellect, except in areas where they have emotional interest.</i>
LVS	LEAKY VEIN SYNDROME		MVB	<i>A function of the thyroid controls the porosity of the veins. When the thyroid is blocked in this way, lymph leaks into the system causing lymph weight, mostly in the abdomen.</i>
LW TRD	LOW THYROID	3-6	VB	<i>Used after Fluoride and/or Thyroid virus. Accompany with 1-3 dulse pills per morning.</i>
LW TRD #2	LOW THYROID #2		MVB	<i>Another, deep cause of thyroid hypofunction</i>
LYM BEP	LYMPHO BLASTO EPITHELIOMA		MVB	<i>A compound lump lead by lymph cells bound to new cells in the epithelial areas (skin inside and out).</i>
LYM CYT	LYMPHOCYTOMA		MVB	<i>A lump lead by lymph with cyto cells joined in. Very common in thyroid, liver, pancreas.</i>
LYM DYS	LYMPHODYSPLASTIC LEUKEMIA		MVB	<i>Similar to Myelodysplastic Leukemia, this corrects a lifelong tiredness resulting in low energy or willful pushing of self.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

LYM EPI	LYMPH EPITHELIOMA		MV	<i>Blockage in lymph tissue by too large a cells. Essentially a lymph condition caused by a condition of the bones.</i>
LYM ESQ	LYMPHO EPITHELI SQUAMOMA		MVB	<i>A lump lead by lymph in epithelial cells and squamous cells. Very common in thyroid, liver, pancreas. Epithelial cells are everywhere.</i>
LYM MAL	LYMPH CELL MALADY		MVB	<i>A malformation of lymph cells in the bones that may cause lymph malfunction and lymph-based lumps in the body.</i>
LYM MCT	LYMPHO MASTO CYTOMA		MVB	<i>A lump led by lymph cells combined with mast cells that has partially developed into a cyst. This is a prime candidate for breast lumps.</i>
LYM SRC	LYMPHOSARCOMA		MB	<i>An outgrowth of a bone condition causing a subsidiary condition to leukemia of a form of lymph blockage by too large a cells.</i>
LYM VIR	LYMPHOTROPIC VIRUS	1-3	V	<i>Very much like the European form of Chronic Fatigue Syndrome.</i>
LYMFAN	LYMPHANGIOMA		MVF	<i>A yellowish tan tumor usually on the skin composed of dilated lymph vessels. Located in lymph areas -underarm, breast, groin and sometimes on tongue and lips.</i>
MAAD	MASTER ADENOMYOSIS		MVB	<i>The miasmatic group in the brain that induce the body to invite tumors from the Adeno virus.</i>
MAC DGN	MACULAR DEGENERATION	10-11	MF	<i>Psora and Tuberculinum together may spell a more effective cancellation of this issue</i>
MAG BRN	MAGNESIUM DEFIC BRAIN		MVF	<i>A miasmatic brain proclivity to not absorb magnesium, bringing muscle contractions and malabsorption of calcium</i>
MAG GB	MAGNESIUM DEFIC GALL BLADDER		MVB	<i>A miasmatic gall bladder condition to not absorb magnesium, throwing off digestion and vitamin D absorption of calcium into bones.</i>
MAG PHS	MAG PHOS	1-3		<i>Cell salt spinal cord tissue and nerve rebuilder</i>
MAG PRD	MAGNESIUM DEFICIENCY PARATHYROID		MVB	<i>A miasmatic parathyroid condition to not absorb magnesium especially relevant to the collection of calcium for kidney stones and for muscle contractions.</i>
MAL M	MALARIA MIASM	10-12	M	<i>Liver problem often shown by chronic dark circles under the eyes. Subjects usually have liver difficulties history.</i>
MALSYF	MALARIALSYPHYLINUM	7-10	M	<i>A miasm splice of malaria and syphilis found as base of Graves Disease or those with thyroid/liver/eyes problems.</i>
MAMCLR	MAM CLEAR	2-6	P	<i>Protozoa parasite involved in all cases of breast lump cancer. RDC usually involved as the inherited breast propensity.</i>
MARFAN	MARFANS		MVB	<i>Inherited bone disease where limbs are disproportionately long, to trunk of body. Aortic valves regurgitation and mitrovalve problems, iris of the eye problems.</i>
MBN	MIASMIC BONE NECROSIS		MVB	<i>Starts with "pointed finger pressure" on the sacrum. The back weakens and slowly increases with pain. The gradual erosion invites a deep cancer that eventually spreads systemically.</i>
MC LUK	MAST CELL LEUKEMIA		MVB	<i>A form of leukemia with connective tissue mast cells compromised and profuse.</i>
MDC	MDC	2-5	M	<i>Mumps/ Diphtheria/ Coxsackie - Swellings of Parotid, Ovaries or Testicles. Check also TORO.</i>
MED CST	MEDULLARY CYST DISEASE		MVF	<i>Uremia and other wastes toxify blood which attracts other diseases. Hard to find in medical tests. Similar to Polycystic Kidney Disease</i>
MED TOX	MEDICINE TOXINS		C	<i>Most medicines have similar bases- prescribed or over-the-counter - and an excess can clog the liver, etc.</i>
MEFBSQ	MENINGO FIBRO SQUAMOMA		MVB	<i>A compound-content lump on the nerves usually high in the brain stem or cerebellum. May affect the function of organs as well as the central nervous system.</i>
MEFIBL	MENINGO FIBRO BLASTOMA		MVB	<i>A lump in the meninges of the nerves that is of connective tissue and bone nature. Could cause many kinds of nerve problems in the spinal column and/or elsewhere.</i>
MEG ANM	MEGALOBlastic MACROCYTIC ANEMIA		MVB	<i>A malformation of cell nucleus while there is full formation of most other cell parts mimicking dozens of adrenal diseases. The cells are insufficient to rebuild the body well. Often causes spleen infection and invites tuberculosis in multiple locations.</i>
MEL	MELIOIDOSIS	2-5	F	<i>From Southeast Asia, Australia, New Zealand. Can be dormant for decades. Flesh eating in intestines and/or lungs.</i>
MELOMA	MELANOMA		MV	<i>Skin issue starting as dark spot or mole that expands and deteriorates. Inherited</i>
MELT 1	MELT AWAY I		MVB	<i>Histiocytosis Weight dissolving of dead cells clogging tissues.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

MELT 2	MELT AWAY 2		MVB	<i>Phospholipid histiocytosis (like Neiman-Pick Disease) Symptoms of cholesterol storage, slow lung depletion and slow nerve deterioration.</i>
MELT 3	MELT AWAY 3		MVB	<i>Glucocerebroside histiocytosis (like Gaucher Disease) Symptoms of hepatosplenomegaly, yellowing of white covering of eye, skin pigmentation</i>
MELT 4	MELT AWAY 4		MVB	<i>Langerhan's Cell Histiocytosis Dead cell clogging of bone, lymph, spleen and sometimes around cartilage</i>
MELT 5	MELT AWAY 5		MVB	<i>Non-lipid histiocytosis Dead cell clogging around bone, lymph, spleen lumps</i>
MELT 6	MELT AWAY 6		MVB	<i>Sinus histiocytosis Dead cell clogging around sinus and/or neck swelling. Sometimes should be accompanied with Adeno carcinoma.</i>
MELT 7	MELT AWAY 7		MVB	<i>Histiocytoma Dead cell clogging of tissue developing into a lump and then dead mass within the lump</i>
MELT 8	MELT AWAY 8		MVB	<i>Histiocytic Medullary Reticulosis - Malignant histiocytosis - Includes the most common retrovirus</i>
MELT 9	MELT AWAY 9		MVB	<i>Regressing atypical histiocytosis - supposedly rare. Multiple ulcerating, cutaneous papillae and nodules.</i>
MELT 10	MELT AWAY 10		MVB	<i>Verrucous (Warts) histiocytosis. Warty eruptions</i>
MEM	MIDDLE EAR MASS		MVF	<i>Aimed at a cholesteatoma, which is a cystic mass of epithelial cells and cholesterol in the middle ear. Symptoms = ear headaches, moderate to large amounts of ear wax, tinnitus and hearing loss.</i>
MEM NRV	MEMORY NERVE VIRUS		V	<i>Scientifically unidentified virus that paralyzes nerve path of memories in Epithalamus. Also weakens pineal, which attracts to the brain aluminum and fluoride. Frequently used with NRV FUL.</i>
MEM SCR	MEMORY SCAR		MVB	<i>The combination of factors that make and increase scar tissue in the brain formed by physical or emotional traumas in a person's life. We all have them. According to the German Dr Hammer, these scars start the body towards disease.</i>
MEMDRB	MSLS/MEDORRHINUM/RUB	5-9	MR	<i>Inherited bone swellings usually have this trio of Measles/Medorrhinum/Rubella along with TUBMED.</i>
MEN I	MEN TYPE I		MVB	<i>Multiple Endocrine Neoplasia Type 1- Causes tiredness, heart palpitations, sweating, anxiety, tremors, nausea. Often w/AT MASS</i>
MEN II	MEN TYPE II		MVB	<i>Multiple Endocrine Neoplasia Type 2a -Causes tiredness, heart palpitations, sweating, anxiety, tremors, nausea. Often w/AT MASS</i>
MEN III	MEN TYPE III		MVB	<i>Multiple Endocrine Neoplasia Type 2b- Causes tiredness, heart palpitations, sweating, anxiety, tremors, nausea. Often w/AT MASS</i>
MEN IV	MEN TYPE IV		MVB	<i>Multiple Endocrine Neoplasia Type 4- Causes tiredness, heart palpitations, sweating, anxiety, tremors, nausea. Often w/AT MASS</i>
MEN V	MEN TYPE V		MVB	<i>Multiple Endocrine Neoplasia Type 5-Causes tiredness, heart palpitations, sweating, anxiety, tremors, nausea. Often w/AT MASS. First found as the base of Myasthenia Gravis</i>
MENOMA	MENINGIOMA		MVB	<i>Lump often in the deeper sinus area causing apnea or clogged sinus or elsewhere causing nerve problems</i>
MENRS	MENIERE'S DISEASE	3-7	RVF	<i>A ringing in the ears (tinnitus) that comes up slowly, often with short bouts of vertigo.</i>
MET MKR	METALLOTHIONEIN MAKER		MVB	<i>Liver remedy for making the protein that is the primary carrier of mineral/vitamin/fatty acid combinations that feed endocrine glands.</i>
MET PAR	METABOLIZATION PARALYSIS DISEASE		VB	<i>Mosquito-carried disease that paralyzes the nerves to the liver and endocrine glands. Not yet identified by science, this can be transferred by birth in active or dormant stage.</i>
MET SHR	METABOLISM SHARPEN		MVB	<i>Parathyroid block that affects adrenal hormones that activates liver.</i>
METOX	METAL DETOX		C	<i>Heavy metals can come from the water, air, vegetables, etc. and lodge in a variety of body parts</i>
METUNC	METABOLISM UNCHAINED		MVF	<i>Unlocks part of the brain that is involved in metabolism</i>
MF BONE	MYCOSIS FUNGOIDES - BONE		MVB	<i>A blood disease resembling Hodgkin's Lymphoma. Characterized by swelling of lymph nodes, skin lesions, white chalk-like extrusion from skin. Inflames serous membrane of thoracic coat cavity, periosteum, pericardium, and dura of brain. Take with MF HELP. Often with ADN CAR plus a retrovirus.</i>
MF HELP	MYCOSIS FUNGOIDES HELPER		VBF	<i>The most common add-on infections stemming from Mycosal Fungoides. Usually adeno carcinoma with a retrovirus accompanies.</i>
MF SPLN	MYCOSIS FUNGOIDES - SPLEEN		MVB	<i>A blood disease resembling Hodgkin's Lymphoma. Characterized by swelling of lymph nodes, skin lesions, white chalk-like extrusion from skin. Inflames serous membrane of thoracic coat cavity, periosteum, pericardium, and dura of brain. Take with MF HELP. Often with ADN CAR plus a retrovirus.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

MF THSP	MYCOSIS FUNGOIDES - THYMUS SPLEEN		MVB	<i>A blood disease resembling Hodgkin's Lymphoma. Characterized by swelling of lymph nodes, skin lesions, white chalk-like extrusion from skin. Inflames serous membrane of thoracic coat cavity, periosteum, pericardium, and dura of brain. Take with MF HELP. Often with ADN CAR plus a retrovirus.</i>
MF THYM	MYCOSIS FUNGOIDES - THYMUS		MVB	<i>A blood disease resembling Hodgkin's Lymphoma. Characterized by swelling of lymph nodes, skin lesions, white chalk-like extrusion from skin.</i>
MIC SPO	MICROSPORIDIA		P	<i>Parasite known to go into eyes and parathyroid</i>
MIL AID	MILLENNIUM AID		VBC	<i>Chemtrail bombings on the US. Causes great tiredness and highly decreased immune system. Does not go away by itself.</i>
MIL BUG	MILLENNIUM BUG		VBC	<i>This year's combination that looks like the flu, but isn't specifically a flu (actually no flu in it). Pneumonia, chemicals bacteria.</i>
MIL COF	MILLENNIUM COUGH		VF	<i>Combination of nerve virus and fungus that keeps you coughing and coughing and coughing. Same fungus that causes Valley Fever.</i>
MIL FAL	MILLENNIUM FALLOUT		VB	<i>Headaches, cough, nausea, intermittent fevers/chills that makes you want to stay in bed and forget the world. Flu "look-alike"</i>
MIL MAL	MILLENNIUM MALAISE		VB	<i>Flu like nausea that makes you feel generally sick, but not immobile.</i>
MIL TIR	MILLENNIUM TIRED		CVB	<i>First seen on July 4, 2000 when the US was bombed on Independence Day. Although tiredness is common to most bombings, people are described as almost falling asleep while standing. A mild cough, lymph blockage and fuzziness also present.</i>
MIL TUB	MILIARY TUBERCULOSIS		MB	<i>Different bacteria causing subtle, nagging under functioning of specific organs, graduating into failure. TB tests miss it.</i>
MILTB E	MILIARY TB ENDOCRINE		MB	<i>Different bacteria causing subtle, nagging under functioning of specific organs, graduating into failure. TB tests miss it. Esp adr/thy</i>
MILTB L	MILIARY TB LUNGS		MB	<i>Different bacteria causing subtle, nagging under functioning of specific organs, graduating into failure. TB tests miss it. Weaknesses</i>
MILTB M	MILIARY TB MENING		MB	<i>Different bacteria causing subtle, nagging under functioning of specific organs, graduating into failure. TB tests miss it. Also TB SPIN</i>
MILTB N	MILIARY TB NERVES		MB	<i>Different bacteria causing subtle, nagging under functioning of specific organs, graduating into failure. TB tests miss it. CNS</i>
MIN CS B	MINIATURE CYST - BEEF		P	<i>Cysticercosis of Taenia Saginata (Beef Tapeworm) loves the area under the jaw that we call the jowls or double chin as well as lower abdomen.</i>
MIN CS C	MINIATURE CYST - COENURUS		P	<i>Multiceps Multiceps larvae stage which cause the disease Coenurus, an "unstable gait" because of the cyst in the brain or spinal cord. It can cause other neurological symptoms.</i>
MIN CS P	MINIATURE CYST - PORK		P	<i>Cysticercosis stage of Taenia Solium (Pork Tapeworm). Most known to be in the central nervous system (60% found in brain), eyes, muscles and intestinal walls (causing intermittent diarrhea, especially in colder weather and higher altitudes).</i>
MIN TP B	MINIATURE TAPEWORM - BEEF		P	<i>Taenia Saginata, commonly called Beef Tapeworm. Loves the pituitary stalk where it causes great tiredness, sleepiness and under function of pineal produced hormones.</i>
MIN TP G	MINIATURE TAPEWORM - GRANULOSUS		P	<i>Loves livers and lungs, but can create blockages anywhere. Widespread source of animals from dogs, horses, camel lungs, sheep, moose, reindeer, wallaby, dingo, goats, swine, etc.</i>
MIN TP M	MINIATURE TAPEWORM - MULTILOCULARIS		P	<i>Echinococcus Multilocularis, a tapeworm most known for liver, although it goes to many parts of the body. Common in brains with forgetfulness of what the subject already told you.</i>
MIN TP P	MINIATURE TAPEWORM - PORK		P	<i>Taenia Solium, commonly called Pork Tapeworm, although it can come from other sources. Loves the pituitary stalk where it causes great tiredness, sleepiness and under function of pineal produced hormones. Science knows it more for intestinal difficulties</i>
MIN TP V	MINIATURE TAPEWORM - VOGEL		P	<i>Echinococcus Vogeli, a tapeworm known for causing hydatid cysts. Although most known for liver cysts it likes the spleen, especially with leukemia. Other organs are possible targets, especially lungs, stomach, diaphragm and muscles.</i>
MKUP HR	MAKE UP AND HAIR		C	<i>For the chemicals found in hair and beauty supplies. Especially possible in hair salon workers</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

MLDM HR	MULTIDIMENSIONAL HEARING		VB	<i>Unblocks the thalamus to allow inner hearing on many levels. You may need to relearn the distinction of what and who you hear so that you use what you hear correctly. This is not aimed at physical hearing.</i>
MMM	MUSCLE MERGER MIX-UP		MVB	<i>A bone condition that spawns muscle tissue that merges with organ tissue and fat. Primarily the diaphragm merges with the adrenals, colon and heart giving symptoms of belching, muscle tenderness and hormonal difficulties. The compromised tissue tends to mix up fat instead of burning it causing weight accumulation.</i>
MMR	MMR	1-2	MR	<i>Measles/ Mumps/ Rubella vaccine antidote.</i>
MND FRM	MIND FORM		MV	<i>Bone-based breakdown of epithelial cells forming the diencephalon of the brain and other tissues. Often paired with a RESTORE remedy.</i>
MNK HAR	MONK HAIR IMPROVED		MVF	<i>EXPERIMENTAL Hair regain formula w/added remedy for hair-eating bacteria. For crown of head hair loss</i>
MOL BGN	MOLE BE GONE		MV	<i>Another formula for moles</i>
MOL NO	MOLE NO	3-8	RVF	<i>Contains the constituents of a good number of moles.</i>
MOLY AB	MOLYBDENUM ABSORPTION		MV	<i>The malabsorption of Molybdenum causes intestinal underfunction and is seen in post-polio (shot) syndrome, plus God knows what else</i>
MON GAM	MONOCLONAL GAMMOPATHY		MRV	<i>Inherited, liver-based blood disease. Retinal hemorrhages, headaches, variety of skin and mucous bleeding, bleeds easily, heart circulation difficulties</i>
MOR HRT	MORE HEART		MVF	<i>Inherited cause of left ventricular atrophy which weakens the ability of the heart to pump blood. Heart Failure.</i>
MOR OXY	MORE OXYGEN		MVF	<i>A carotid body (arteries) hypofunction that doesn't allow sufficient oxygen The carotid body monitors blood oxygen content and sends messages to the medulla for regulation of respiration and the hypoxic ventilatory response (HVR).</i>
MPS CEF	MUMPS ENCEPHALITIS		R	<i>Childhood disease can inflame the nerves in the endocrine glands and spine</i>
MPS END	MUMPS ENDOCRINE		R	<i>Childhood disease can especially settle in thyroid and adrenals</i>
MRC ARS	MERCURIAL ARSENIC		C	<i>Compound found in drugs, legal or illegal. Stores in the adrenals and keeps them weak. . . until removed</i>
MRCBRN	MERCURY IN BRAIN	2-5	C	<i>Amalgam Mercury</i>
MRCBRT	MERCURY IN BRAIN STEM	2-5	C	<i>Amalgam Mercury</i>
MRCSPN	MERCURY IN SPINE	2-5	C	<i>Amalgam Mercury</i>
MS BASE	MS BASE		RVB	<i>The basis of Multiple Sclerosis. Measles Encephalitis, Pseudomonas Pyocyaneas and RV Nervy</i>
MS FB SQ	MASTO FIBRO SQUAMOMA		MVB	<i>A lump lead by mast cells with fibro and squamous cells joined in.</i>
MSLS SP	MEASLES SPINE		R	<i>Causes great itching of unexplained nature. Paramyxovirus is also associated with premature ejaculation and prostate problems.</i>
MST ART	MYSTERY ARTHRITIS		VB	<i>An unidentified form of arthritis that also affects thyroid and kidneys. Often used with ANK SPN.</i>
MSTOMA	MAST CELLOMA		MVB	<i>Mast cells are constituents of connective tissue containing large basophilic granules that contain heparin, serotonin, bradykinin and histamine. The lumping may cause inappropriate release of the parts.</i>
MUC NER	MUCOSA NEUROMA		MVF	<i>Skin tag or tumor, often seen inside the mouth. Also found in any mucous area and capable of being complication to other tumors.</i>
MUCOR	MUCORMYCOSIS		F	<i>Fungus-mild to severe mucous and necrotizing conditions of sinus, nasal and lung areas. Often associated with Diabetes and/or long term debilitation</i>
MUL MYE	MULTIPLE MYELOMA	10-12	MVB	<i>Inherited bone marrow degeneration with increased blood thickness, kidney slowness, tumor in bone causing peripheral neuropathy</i>
MUS DYS	MUSCULAR DYSTROPHY		MVB	<i>Turned out to involve a rare form of polio with inherited bone/muscle weaknesses. Commonly shows up in hearts of adults.</i>
MUS GRW	MUSCLE GROWTHS		MVB	<i>Inherited trait that makes different muscles sore without showing lumps. Dull pain radiates from spot on muscle. Not lypoma</i>
MUS NRV	MUSCLE NERVE DEGENERATION		VF	<i>Animal-based virus that locks on to the nerves of muscles and slowly withers them. Often accompanied by sore muscles after exertion.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

MYA GRV	MYASTHENIA GRAVIS		MVB	<i>A bone/blood adrenal condition with symptoms including fallen organs, muscle fatigue post exercise, limb weakness, double vision, voice alteration, difficulty swallowing, post nasal drip feeling, cardiorespiratory system. Connector series often needed. Take with CLS DIF and/or CLS PER.</i>
MYE MET	MYELOID METAPLASIA		MVB	<i>A form of myelofibrosis from the development of bone marrow in unusual places (eg spleen). Causes anemia, pale skin, water accumulation in lower extremities. It may invite tuberculosis bacteria & spina bifida. See also MYE SCL, MYE LUK.</i>
MYE SCL	MYELOID SCLEROSIS		MVB	<i>A form of myelofibrosis from the hardening of the bone marrow. Causes anemia, pale skin, water accumulation in lower extremities. It may invite tuberculosis bacteria & spina bifida. See also MYE MET, MYE LUK.</i>
MYELOG	MYELOGENOUS LEUKEMIA		MVB	<i>A leukemia classification that is more like a spine disease than a bone-based blood disease. It needs the "basic four" plus other leukemia remedies to accompany it. Usually seen with TB SPN, TB BON, TB MRW.</i>
MYL DYS	MYELOYDYSPLASTIC LEUKEMIA		MVB	<i>aka Myelodysplastic Syndrome. Anemia that defies all other treatment is the chief symptom, followed by possible weight loss, anorexia, abdominal fullness (swollen spleen). LYFB LK, MYL LUK often involved. Exposure to benzene and/or radiation can trigger.</i>
MYL LUK	MYELOCYTIC LEUKEMIA		MVB	<i>Bone/Blood disease that renders personality rarely satisfied with most aspects of life. Tiring, slowly destructive to other organs.</i>
MYO CAR	MYOCARCINOMA		MVB	<i>The highly irritated form of a muscle as a result of (usually) long term nutrient starvation. Most commonly found in prostates and voice boxes, although it could also be found on other muscles.</i>
MYS SCL	MYOSITO SCLEROSIS		MVB	<i>In science, closest name is Polymyositis with Dermatomyositis. Bone-based hardening of the amino acid food for the muscles. Symptoms are muscle weakness/pain, skin rash, polyarthritis, Raynaud's phenomena, pulmonary disease and intestinal problems.</i>
MYX PSW	MYXO PICORNA SCHWANNOMA		MVB	<i>Lump mixture of myxovirus, picorna virus and schwann cells.</i>
MYXNUM	MYXOVIRUSINUM		M	<i>Miasm of such viruses that lodge in mucous membranes (includes paramyxovirus)</i>
MYXOMA	MYXOMA		MVB	<i>A lump/bump of the connective tissue. Often in the genital, retroperitoneal or urinary area or heart (but not exclusively). In the heart it can act like a pendulum that swings into the heart valves causing intermittent restricted blood flow.</i>
MZL CEF	MEASLES ENCEPHALITIS		R	<i>Especially settles in the nerves of the brain and spinal cord. May be the base issue behind true Multiple Sclerosis</i>
MZL END	MEASLES ENDOCRINE		R	<i>Childhood disease settles into the adrenals especially as well as other endocrine glands</i>
NAK	NaK	4-7	R	<i>Sodium (Na)-Potassium (K) imbalances which cause strokes. Solution affects adrenals.</i>
NAS DRP	(POST) NASAL DRIP		B	<i>One of the pesky nasal/pharynx infections that clogs breathing, adds to snoring and makes colds "lousier"</i>
NASELY	NASOPHARYNX INFECTION		VBF	<i>Virus/bacteria/fungus combination causing clogging that promotes snoring (see SNOR) and "snort-up" in the morning</i>
NASID	NASID		C	<i>The common ingredient in non-steroidal, anti-inflammatory drugs like aspirin. The cumulative deposits smother and kill nerves over a period of usage.</i>
NBC	NERVE BRAIN CONNECTION		MVB	<i>Aimed at leukodystrophy, which is a condition that dismantles nerve food, leaving a lipid (fatty) clog in the white matter of the nerves. messages of the brain slowly cease, causing dementia, slowness/paralysis and general dysfunction of organs.</i>
NCD	NERVE CORE DISEASE		MVF	<i>Based on a miasm of the Bubonic Plague, this scientifically unidentified disease may be at the base of ALS and some forms of MS. it may prove to be the grandfather of many nerve diseases.</i>
NDI	NEPHROGENIC DIABETES INSIPIDUS		MVF	<i>An inability to concentrate urine due to lack of response of the renal tubules to ADH (with otherwise normal renal functions)</i>
NEPH EP	NEPHROPATHIA EPIDEMICA		MVB	<i>Kidney disease, often subtle blockages. Signs include red spots of trunk, near arm pits, conjunctive hemorrhaging. High blood pressure may be involved, subtle to obvious back-ups in the blood. May come on suddenly with intense similar signs</i>
NER ART	NEUROGENIC ARTHROPATHY		MVF	<i>Similar to osteoarthritis, but with joints easily going way out of place causing synovial fluid to leak and swell in the joint area. Joints break and deteriorate easily with lots of pieces collecting in joint area.</i>
NER CYT	NEUROCYTOMA		MVF	<i>A tumor of "undifferentiated" nerve cells usually found on nerves in ganglia form.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

NER DRM	NEURODERMATITIS		MBF	<i>Non-specific, itchy skin disorder that invites scratching to the point of skin breakout. Most concentrated in easily exposed areas. A form of eczema with a few extra twists.</i>
NER PFF	NEURO POLIO FIBRO FOLLICULAROMA		MVB	<i>Lump combination on the nerves first found on the nerves of the right lobe of a thyroid.</i>
NERFIB	NEUROFIBROMA		MB	<i>Nerve tumor liking sensory organs. Tinnitus, hearing loss, optic nerves, dizziness, staggering. Known as inherited and progressive.</i>
NES RIA	NEISSERIA	3-7	B	<i>This bacteria seems a major part of ALS (Lou Gehrig's Disease) plus a part of MS. See also Bechtrew's.</i>
NFSS	NOSEFUNG/STREP/	1-3	FB	<i>Rhinospordosis with bacteria binders. The trio often hold parasites in the nose/ sinus area. Involved in nasal polyps.</i>
NGN DKG	NOGIN DEKLOGIN	1-4	FVP	<i>Amoeba parasite with accompanying Cryptococcosis, Phytomycosis, etc. that often appear in strongly beseiged brains</i>
NIT OWL	NIGHT OWL		VF	<i>Somehow the person always finds something to do well past the hour they would like to get to bed, but just can't get to bed. Rota based formula</i>
NJD	NEUROPATHIC JOINT DISEASE		MVB	<i>A chronic progressive degeneration joint disease of one or more joints, usually characterized by swelling and distortion of joints. May be the cause of pain after knee joint replacement.</i>
NO PAUS	NO PAUSE		MVB	<i>Looking at menopause as a disease, this unblocks liver amino acids to "unsmother" adrenal hormones.</i>
NO SWET	NO SWEAT		VB	<i>For the bacteria and retrovirus that makes perspiration very rare when others are perspiring easily.</i>
NOD NOD	NOD NOD		VB	<i>Fungus, virus, bacteria combination that seems to shut down adrenals causing anywhere from narcolepsy to drowsiness.</i>
NOR NOC	NORDIC KNOCK 2002		VBC	<i>A wide/spread sickness hitting Norway in January 2002, resembling a deep flu with fever and prostrating malaise. Its contents include some radiation toxicity which suggests it is in the air because someone is making atomic weapons.</i>
NRFBSQ	NEURO FIBRO SQUAMOMA		MVB	<i>A compound-content lump on the nerves usually high in the brain stem or cerebellum. May affect the function of organs as well as the central nervous system.</i>
NRFIBL	NEURO FIBRO BLASTOMA		MVB	<i>A compound-content lump on the nerves usually high in the brain stem or cerebellum. May affect the function of organs as well as the central nervous system.</i>
NRM BLS	NORMOBLASTIC LEUKEMIA		MVB	<i>A malformed new norm cell in the bones. Normoblastic cells are the nucleated precursor cells of erythrocytes whose major function is to carry oxygen in the blood. See also ERY LUK.</i>
NRM CYT	NORMOCYTIC LEUKEMIA		MVB	<i>A malfunction in the bones of forming the ordinary red blood cell. See also ERY LUK.</i>
NRV BAC	NERVE BACTERIA	2-4	B	<i>An unnamed bacteria spread across the US about mid February contracting bronchi into deep, hollow persistent coughs.</i>
NRV BRG	NERVE BRIDGE		MVB	<i>Blockage of the superior and inferior cerebral peduncle messages from brain to motor movements. Sometimes affects speech or vision or movement.</i>
NRV CHM	NERVE CHOMPER	7-10	V	<i>A necrotic nerve virus that may be at the heart of all nerve diseases. We have been unable to find a parallel in medical books.</i>
NRV CLR	NERVE CLEAR		BF	<i>Some forms of ataxia, CNS dendrite connection, Sleep Apnea</i>
NRV CMP	NERVE COMPLETION		MVB	<i>When you were born the nerves were not finished developing in the womb. This remedy is designed to finish the development. All other nerve remedies will work better after this remedy is taken (if needed).</i>
NRV CNC	NERVE CONNECT		MVB	<i>A disease of the neuron medulla which interrupts nerve signal flow at a very deep level. Interruption affects muscles, hormones, organs and brain, especially short-term memory of what was said.</i>
NRV FNG	NERVE FUNGUS	2-9	F	<i>A bacteria-forming a fungus is infamous for getting on nerve endings in the brain and spinal column</i>
NRV FUL	NERVE FUEL		MVF	<i>Removes blockage in Diencephalon so that brain makes acetecholine (the most important ingredient for thought processing over nerves). Major ingredient in Alzheimers (with Memory Nerve Virus and Oligodendroglioma.</i>
NRV GLD	NERVE GOLD		MVF	<i>Allows adrenals to absorb gold chloride so that entire nervous system stays polarized in balanced way. Essential in ALS.</i>
NRV HRP	NERVE HERPES	7-9	MVB	<i>Concentrating on the nerve aspect of herpes may help to lessen the swelling in the brain stem that accompanies herpes.</i>
NRV JAM	NERVE JAM		MVB	<i>A potassium/magnesium salt toxifies the nerves in a way that denies sodium-carried nutrients to enter. This blockage, via rennin and vasopressin, causes a blood vessel/capillary constriction. Circulation to the nerves shuts down, starting in the brain ventricles.</i>
NRV LIF	NERVE LIFE		MVB	<i>Unbinds nerves to sensitivities past physical. Spiritual jumps, increased intuition. Take after healing basic issues, including nerves</i>
NRV NEW	NERVE NEW	2-5	VB	<i>Motor control problems of brain/Hypothalamus. Shaking issues.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

NRV NUM	NERVE NUMB		VF	<i>Numbness usually felt in the extremities (feet or arms/fingers), yet without the precipitating cold weather of Raynauds. Can eventually be deadly.</i>
NRV NUT	NERVE NUTRITION		MVB	<i>Inherited blood diseases that gradually starves nerves - the finer the nerve, the greater and earlier the starvation. Precipitated faster by other blood diseases. Promotes infection of the gray and white matter of the nerves.</i>
NRV PLQ	NERVE PLAQUE		MVB	<i>A product of blood and liver that stops the synthesis of acetylcholine in nerve activity which is highly associated with dementia and alzheimers</i>
NRV REL	NERVE RELEASE		MVB	<i>Designed for the bacteria that strangles arteries causing high blood pressure and/or rapid heart beat. May affect lungs, liver, eyes, heart.</i>
NRV SRC	NERVE SOURCE		MVB	<i>A thalamus-based remedy that helps complete the full formation of the mesencephalon, the pivot of thoughts to physical action. This is a completion of the birth process, not a repair. Symptoms are nerve difficulties and diseases.</i>
NRV STR	NERVE STRENGTH			<i>Phosphotidycholine and Acetylcholinesterase plus vitamins and a catalyst to make active neurotransmissions for memory and all nerve functions. Use with NRV FUL to restore body's natural ability to make these vital substances.</i>
NRV STU	NERVE STRUCTURE		MVB	<i>Restores the cerebellum ability to make a nerve sugar (yet to be identified by science) which structurally connects and propels nerve impulses. Often with SF CL LP.</i>
NRV THK	NERVE THICK		MVB	<i>A form of amyloidosis (thickening) in the bone with nerve cell formation. The nerves become thick and dense with decreasing ability to carry messages. This may link to muscle stiffness or strength, loss of organ function and dementia (especially).</i>
NRV TRD	NERVE TIRED		MVB	<i>Combination of Measles and Mumps residues continually inflaming & tiring nerves that opens person to nerve diseases.</i>
NRV TYT	NERVE TIGHT	2-5	RVB	<i>Nerve connection of bone and spinal column. Bone diseases, incontinence, neurogenic arthritis, bunions (w/ TB Res).</i>
NS FGS	NOSE FUNGUS	1-3	F	<i>Rhinosporidiosis. Often hold parasites in place.</i>
NUT ALG	NUT ALLERGIES		MVB	<i>A blood disease that makes people intolerant of many forms of nuts. Person may be able to eat nuts, but the intestines seem to protest the digestion in the form of trouble eliminations.(BC1)</i>
O PHOS O	ORGANOPHOSPHATES OXIDIZED		C	<i>Dangerous bug/pest sprays that block brain dendrites, liver functions and life functions in general.</i>
OCC NRV	OCULAR NERVE DEGENERATION		MV	<i>A growth on the ocular nerve with a nerve retrovirus that slowly deteriorates the nerve and vision. Not for diabetic nerve degeneration and separate from MAC DGN.</i>
OLIGO	OLIGO DENDRO GLIOMA		MVB	<i>A tumor on the dendrites that stops production of myelin, the sheath of the nerves. Seen in nerve deterioration (like ALS).</i>
OPN HRT	OPEN HEART		VBF	<i>Combination used to open arteries and capillaries from cholesterol deposits. Used successfully in Europe since 1996.</i>
ORG NRV	ORGAN NERVES		FB	<i>A rare form of staph combined with a blue mold seem to attack the nerves of organs in a way that hardens them making them less functional</i>
ORG THK	ORGAN THICK		MVB	<i>Inherited protein malabsorption (Amyloidosis). Organ swelling/hardening. Arrhythmia, peripheral neuropathy, goiter-like thyroid hardness/ problems</i>
OST ART	OSTEOARTHRITIS	10-16	MVB	<i>BON INF with Bone Papilloma (used with Retro virus remedies.) Follow with MEMDRB & TUBMED.</i>
OST CAR	OSTEOCARCINOMA		MVB	<i>A form of cancer prompting a deteriorating condition of the bones.</i>
OST SRC	OSTEOSARCOMA		MVB	<i>Bone deterioration condition that invites cancers (especially lymphomas) and triggers dormant blood diseases.</i>
OSTMAC	OSTEOMALACIA		MVB	<i>Officially the term means lack of vitamin D absorption. It is a form of gall bladder sarcoidosis that destroys the synthesis of vitamin D. Lack of vitamin D cause a malabsorption of calcium in the bones and vertebrae discs. Take with ATR CC.</i>
OSTOMA	OSTEOBLASTOMA		MVB	<i>Sometimes called Ostoid Osteoma. Found usually as a well-localized pain in the lower limb long bones, primarily in adolescents. First discovered as a pain when lying on the leg and progressing to a pain when standing. Similar to BON SKN</i>
OV TES	OVTES VIRUS	2-5	VF	<i>Ovarian/Testicle virus involving chlamydia, etc.</i>
OWW	OWW	1		<i>Relieves many pains in 3 minutes</i>
OXY ASM	OXYGEN ASSIMILATION		MVB	<i>Science currently identifies a cell substance called Gs in the process of transcription. We have found it to be the key to oxygen assimilation into the other cells and use this remedy to unlock its ability to act on oxygen.</i>
OXY BOO	OXYGEN BOOST		B	<i>There seems to be a bacteria that blocks the pituitary's ability to permit oxygen absorption.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

OXY LIF	OXYGEN LIFE		MVB	<i>Reestablishes oxygen absorption in the blood and conversion to energy in the mitochondria. Stops hormonalase, a hormone-killing enzyme made in the blood by the bones as a result of too much carbon dioxide and too little oxygen.</i>
P GANGL	PARAGANGLIOMA		MVB	<i>Pressures Cerebral Peduncle, which pressures hypothalamus into sleepiness and wakefulness.</i>
PAC	PULMONARY ARTERY CONstriction		MVB	<i>An inherited form of constriction on the artery from heart to lung, much like Exercise Wind The lowered blood circulation makes lower oxygen in the blood, which cause low thyroid, low energy, etc..</i>
PAD	PINEAL AGING DISEASE		M	<i>The pineal is often called our aging clock which would cause different functions to shut down from menopause to sexuality to mentality. If we take away the blocks, would we continue healthy, long life? Yes.</i>
PAGETS	PAGETS	12-16	MVB	<i>Inherited bone disease usually starting with hip joint pains. Also leads to ulcerations of breast, and/or hearing and/or vision loss.</i>
PAGLPN	PARTD/GB/PANCREAS		BF	<i>A bacteria/fungus condition affecting simultaneously the Parathyroid, Gall Bladder and Pancreas along with the calcium absorption in the body.</i>
PAN CF	PANCREAS CYSTIC FIBROSIS		MVB	<i>If such a term existed, this would be called adult onset Cystic Fibrosis. It is marked by ever re-occurring coughing, a decreased immune system allowing many different infections, hormonal ferris wheel, non-working lymph system and great anxiety. There a</i>
PAN HRP	PANCREAS HERPES	3-7	RVB	<i>Pancreatic cancer along with other pancreas problems involve stones and their binders. Often with Hodgkins or other bone cancers.</i>
PAN OCC	PANCREAS ARTERY OCCLUSION		MVB	<i>Insufficient circulation to the pancreas because of artery partial constriction. The resulting underfunction of the pancreas may cause anything from an intolerance of fruit and sugar to diabetes.</i>
PAN PAM	PANCREAS PAMPER		MVB	<i>Affects the way you don't digest certain sugars for the brain, digestion and cell development</i>
PAN PAN	PANCREAS PANACHE		MVB	<i>An inherited form of pancreas swelling that seems to block pancreas function, causing the body to become big.</i>
PAN STN	PANCREAS STONE	3-7		<i>These calculus stones usually form after long-tern pancreas problems.</i>
PANOMA	PANCREAS ADENOMA		M	<i>Lump in the pancreas that may upset the sugar balance and desires plus especially upset a stage of the digestion of certain carbohydrates.</i>
PAPL	PAPILLOMA	1-6	V	<i>Wide spread virus, usually of the genitals. Leading cause of cervical cancer. Formula includes cervical polyps.</i>
PAPOOS	PAPOOSE		MVB	<i>Liver-based remedy for mal-assimilation in small intestines. Causes bloating in mid to lower abdomen as if carrying a papoose</i>
PAR MYX	PARAMYXOVIRUS	2-5	V	<i>A missing link in some if not most of prostate cancer. Still also need X-40 Kit, Bon Inf +</i>
PAR PAR	PARATHYROID	1-4	P	<i>Protozoa form of parasite that loves to lodge in this tiny organ</i>
PAR POL	PARAPOLIO		MVB	<i>Paralysis like numbing of the nerves to the thyroid, heart, liver and epithalamus. All organs afflicted have weakened function.</i>
PAR STP	PARASTOP		MVB	<i>Under our stress, the adrenals makes an enzyme we will call "parastop" that paralyzes and stops the sodium in our bodies from carrying metabolites. Once initiated, this enzyme continues to flow causing weight gains, nerve problems, disposition to strokes, etc.. This formula reverses its release so that existing parastops will wear out and little to no parastops will be manufactured thereafter.</i>
PARK	PARK	3-7	MVF	<i>It appears that 1 to 3 funguses in the brain are the cause of Parkinson's</i>
PB STRV	PANCREAS BRAIN STARVE		MVB	<i>Inherited condition that doesn't process sugar correctly to the brain. Subjects hear voices and risk seizures.</i>
PC LIV	POLYCYSTIC LIVER		MVF	<i>Often makes waist line expand as a family trait, shows in poor digestion and liver complications. Often attracts TBLIV</i>
PC MAL	PLASMA CELL MALADY		MVB	<i>Bone-based remedy for making plasma cells correctly in the bones. See also AEA PC, PC EZ UT.</i>
PC UTL	PLASMA CELL UTILIZATION		MVB	<i>Liver-based remedy that breaks down protein out of food that can be utilized by an adrenal enzyme to make food for red blood cells and mitochondria. See also PC MAL, AEA PC.</i>
PEA 35A	PANCREAS ENZYME ACTIVATION 35A		MVB	<i>Activates enzymes that dissolve calcium-bound glycogen, cellulose and polysaccharide combinations.</i>
PEA 35B	PANCREAS ENZYME ACTIVATION 35B		MVB	<i>Activates enzymes that dissolve calcium-bound glycogens, celluloses, gums and polysaccharide combinations.</i>
PEA 82A	PITUITARY ENZYME ALTERATION 82A		MVB	<i>Releases enzymes that clears genitals of hormone receptor blocks.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

PEA 82B	PITUITARY ENZYME ALTERATION 82B		MVB	Releases enzymes that clears adrenals of hormone receptor blocks.
PEA 82C	PITUITARY ENZYME ALTERATION 82C		MVB	Releases enzymes that clears thyroid of hormone receptor blocks.
PEA 82D	PITUITARY ENZYME ALTERATION 82D		MVB	Releases enzymes that clears parathyroid of hormone receptor blocks.
PEA 83A	PITUITARY ENZYME ALTERATION 83A		MVB	Releases Human Growth Hormone (HGH) naturally by restoring the enzyme that creates a hemoglobin carrier. The side benefit decreases carbon dioxide and monoxide in a way that increases oxygen in the blood. Take with PIT COR.
PEA 83B	PITUITARY ENZYME ALTERATION 83B		MVB	Releases dopamine B to the amygdala, increasing amorous expression.
PEA 84A	PITUITARY ENZYME ALTERATION 84A		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84B	PITUITARY ENZYME ALTERATION 84B		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84C	PITUITARY ENZYME ALTERATION 84C		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84D	PITUITARY ENZYME ALTERATION 84D		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84E	PITUITARY ENZYME ALTERATION 84E		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84F	PITUITARY ENZYME ALTERATION 84F		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PEA 84G	PITUITARY ENZYME ALTERATION 84G		MVB	A "cancellation of activity" message sent back to the hypothalamus by the pituitary. Essentially this enzyme smothers or negates activating hypothalamus hormones or enzymes for functions that the pituitary is no longer able to perform.
PELGRA	PELLAGRA		D	A Vitamin B3 (niacin) deficiency causing skin lesions including cracks at corners, mental disorientaion and peripheral blood constriction of mouth
PEN ADR	PENICILLIN ADRENALS		F	Penicillin locked in adrenal glands attracting other issues, including allergies, and weakening the energy.
PEN BTR	PENICILLIN BETRAYAL		F	Frequent feeling of betrayal, even to the point of attracting betrayal. There are also some digestion difficulties.
PEN CHL	PENICILLIN CHOLINE		F	Penicillin binding choline and inositol which are two of the major ingredients in nerve sheath formation and in weight loss.
PEN GB	PENICILLIN GB		F	Penicillin, a mold, can linger and clog any specific organ and will not be touched by a general remedy. Medium depth before residues and miasms
PEN KID	PENICILLIN KIDNEYS		F	Three penicillins from house molds plus the kind you get medically. See also KID REL for a variation.
PEN LIV	PENICILLIN LIVER		F	Penicillin, a mold, can linger and clog any specific organ and will not be touched by a general remedy. Medium depth before residues and miasms
PEN LMF	PENICILLIN LYMPH		F	Penicillin, a mold, can linger and clog any specific organ and will not be touched by a general remedy. Medium depth before residues and miasms
PEN LNG	PENICILLIN LUNG		F	Penicillin, a mold, can linger and clog any specific organ and will not be touched by a general remedy. Medium depth before residues and miasms
PEN MCK	PENICILLIN MUCK		FB	A combination of pathogens with penicillin in the liver which blocks neurons to the brain, impairs memory, adds to ascites, erection difficulties, paranoia of conspiracy, increased mucous, etc. It shuts down signals of function to the pituitary, adrenals and thyroid.
PEN PAN	PENICILLIN PANCREAS		F	Penicillin in its strange way of infecting an organ in a way that is specific to that organ.
PET M	PETROCHEMICAL	10-12	M	Not much known. Usually a grandparent history in oil or gasoline industry.
PFL FEV	PHLEBOTOMUS FEVER	3-7	BT	Sand Fly Fever that causes lymph and vascular system to swell almost shut, especially in legs.
PG PARV	PIG PARVO		V	Pig-born parvo virus attacking brains of humans, usually through fish infected by Pfiesteria Piscicida

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

PHN PPL	PHENYLPROP-ANOLAMINE		C	<i>In 2001 the FDA declared this chemical as unsafe because (even in one dosage) it causes strokes (particularly in women). It was in many over-the-counter drugs including nasal sprays and many synthetic hormone replacement therapies.</i>
PHOTON	PHOTON ENERGY INTEGRATION		?	<i>Helps integrate with current photon energy affecting earth and the changes humans are going through</i>
PHS ADR	PHOSPHORUS DEFIC ADRENALS		MBF	<i>Phosphorus is essential for the development of the brain, bone and especially the nerves. Weakness and ear "dandruff" are signs.</i>
PHS BAL	PHOSPHORUS BALANCE		MVB	<i>Phosphorus imbalances are known to magnify renal failure, hypoparathyroidism, diabetic acidosis, hyperthyroidism vitamin D intoxication, leukemia, cell destruction, hyper bilirubinemia, hyperlipidemia, dysproteinemia, cirrhosis, osteomalacia, rickets, gout, respiratory alkalosis, Leydig Cell health, muscle weakness, peripheral neuropathy, galactose conversion to glucose (carbohydrates), decreased release of O2 from the cells.</i>
PHS BRN	PHOSPHORUS DEFIC BRAIN		MVB	<i>Phosphorus is essential for the development of the brain, bone and especially the nerves. Weakness and ear "dandruff" are signs.</i>
PHS SPL	PHOSPHORUS DEFIC SPLEEN		MB	<i>Phosphorus is essential for the development of the brain, bone and especially the nerves. Weakness and ear "dandruff" are signs.</i>
PHY INT	PHYTATE INTOLERANCE		MVB	<i>The liver's inability to digest phytate (a phosphorus-containing compound sometimes referred to as phytic acid) most abundant in the outer hull of cereal grains. The intolerance reduces absorption of zinc, copper, iron and other minerals as well as vitamins.</i>
PIN BLS	PINEALBLASTOMA		MVB	<i>A compound-content lump on the pineal gland that may effect reproductive glands, light reaction and impair the working of the epithalamus.</i>
PIN CYT	PINEALOCYTOMA		MV	<i>Lumps/bumps on pinealocytos that interrupts messages from pineal to pituitary. Speeds aging, weakens pituitary causing problems in thyroid adrenals, reproductive glands, breasts and skin.</i>
PIN LIT	PINEAL LIGHT MASS		MF	<i>Growth on the pineal gland depleting the ability to convert light into energy for the rest of the endocrine system, ie thyroid, adrenals, etc.</i>
PIN M	PINEAL MIASM		M	<i>Autism, implants, psychosis. W/PSRTUB speeds dissolving of all miasms, multiple personality disorders</i>
PIN PIV	PINEAL PIVOT		MVB	<i>Allows melatonin, serotonin and other pivotal hormones to function in their roles with the epithalamus, pituitary, thyroid, liver and reproductive glands. Often seen with people sensitive to light.</i>
PIN PRM	PINEAL PRIME		MVF	<i>Seven miasms + that take pressure off the most spiritual of endocrine glands. Especially valuable with END UP & BER.</i>
PIT ADN	PITUITARY ADENOMA		MVB	<i>A mass on the pituitary heading towards a tumor that will impair any number of functions, including weight</i>
PIT ANB	PITUITARY ANABOLITES		MVB	<i>Helps to rebuild everything related to bones, including bones, cartilage, ligaments, tendons, teeth, collagen, arachnoid supports.</i>
PIT BGR	PITUITARY BONE GROWTH		MVB	<i>A growth on the pituitary that destroys GH3, the growth hormone. Stops slow crumbling of all bones. Follow with Pituitary Bone Food.</i>
PIT BON	PITUITARY BONE FOOD		MVF	<i>Pituitary-based remedy (take gradually). Unblocks the process of bone feeding pituitary and pituitary feeding bone. Basic to whole endocrine system and blood health.</i>
PIT CHR	PITUITARY CHARGE		MV	<i>Charges adrenal to change hormones for mental acuity, expanded digestion, expanded perception, testosterone and estrogen making.</i>
PIT CLK	PITUITARY CLOAK	2-5	MVF	<i>Based on TB Miasm in Pituitary, this fungus combination slows mental and motor response</i>
PIT CMP	PITUITARY COMPLETION		MVB	<i>At birth the growth of the pituitary was not complete, which leaves it weak until finished. This formula helps to finish the unfinished process. All pituitary remedies will work better after this is completed.</i>
PIT COR	PITUITARY CORE BUILD		MVB	<i>An inherited weakness in the pituitary medulla that interferes with pituitary hormones and enzymes.</i>
PIT DBT	PITUITARY DIABETES		MVB	<i>A special condition of the pituitary that does not produce the hormone that releases insulin in the pancreas. It looks like regular diabetes in the symptoms and tends to put weight on in a pear shape.</i>
PIT FIR	PITUITARY METABOLISM FIRE		MV	<i>Unblocks the endocrine glands involved in metabolism (weight holding).</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

PIT FLM	PITUITARY FILM		MVF	<i>The film muffles nerve activity, hormone emission (frigidity/impotence), brain coordination, forgetfulness. Take w/ L Iseleucine</i>
PIT MET	PITUITARY METABOLISM DISEASE		MVB	<i>Similar to PIT FIR, this more specific remedy is designed to release insulin growth factor #2 and affects the thyroid, liver and pancreas. The result is designed for weight loss, increased energy and increased function of the three organs involved.</i>
PIT NPH	PITUITARY NEPHRITIS		MVB	<i>A pituitary condition withholding kidney/adrenal hormones. The remedy is designed to release the hormones which may help with conditions like high blood pressure, water retention, weight and urine filtration. Usually other remedies for the kidneys are needed.</i>
PIT PIM	PITUITARY PIMPLE	3-6	RVB	<i>Bacterial small growths on pituitary that cause under functioning of pituitary and its hormones.</i>
PIT REP	PITUITARY REPLENISH		MVF	<i>For brains that seem to run on fumes, after exhaustion of giving birth, emotional stress severe losses, etc.</i>
PIT RJV	PITUITARY REJUVENATION		MVB	<i>Rejuvenation of the master hormone generator. The condition decreases all other hormones in what looks like aging.</i>
PIT ROS	PITYRIASIS ROSEA		MRB	<i>Slightly scaling pink macular rash starts in one area and progresses as a diffuse rash along line of the folds of the skin. Often on face, but commonly on unexposed areas of skin.</i>
PIT SAD	PITUITARY SADDLE RESTORE		MVB	<i>For a congenital "bend" in the cartilage "saddle" that the pituitary saddle sits in. The slight upset of the stalk of this peas sized, dynamo pituitary can cause considerable hormonal upset.</i>
PIT SPR	PITUITARY SPRUE		MVB	<i>Reflects the pituitary drain caused by the intestinal disease, celiac sprue. Celiac sprue is found in almost all mothers of Down's Syndrome children. This could be a good adjunct to taking DOWN'S 1 & 2. It may also help in the repair of other brain-injured children.</i>
PIT WHT	PITUITARY CAUSED WEIGHT		MVB	<i>People often form a rather pear shaped body when the pancreas is compromised this way.</i>
PKD	POLYCYSTIC KIDNEY DISEASE		MVF	<i>Inherited kidney disease that will cause multiple other problems from backed up urine</i>
PKU	PHENYLKETONURIA		MVB	<i>An inherited condition of an excess of the amino acid, phenylalanine. The subclinical form is marked by selective hyperactivity, usually slenderness, sporadic neurological insufficiencies making various injuries. Although the subjects are savvy about life in many ways, their minds don't put things together in a way that spells success in monetary endeavors or social patterns. They always struggle about their life path.</i>
PL CL SF	POLIO/CHLMYD/SYPHIL	10-12	M	<i>Spliced miasms of Polioinum/Chlamydinum/Syphillinum most affecting eyes and giving vision problems</i>
PL TB SF	POLIO/TUBERC/SYPHIL	10-12	M	<i>Spliced miasms of Polioinum/Tuberculinum/Syphillinum most affecting eyes and giving vision problems.</i>
PLA LUK	PLASMA CELL LEUKEMIA		MVB	<i>Uncommon form of leukemia mostly seen with Plasmocytomas (See PLSCYT)</i>
PLA MLD	PLACENTA MOLD		F	<i>Causes clogging in the brain (as in Autism-like behavior) and other organs. Can remain a factor of mental or non-mental consequence well into adulthood.</i>
PLAT	PLATINUM	3-6	C	<i>Some forms of excessive chemotherapy can leave a platinum toxicity in the liver that is more lethal than the disease that precipitated chemo.</i>
PLG CRR	PLAGUE CARRIERS	2-6	PB	<i>Includes the bacteria associated with the black plague and is applicable to the actual issue.</i>
PLQ PAC	PLAQUE PACKER		MVB	<i>Mal conversion of calcium builds plaque, especially in kidneys and brain. The same condition blocks insulin and leaves potential for seizures (usually someone in the family has a history of one or more seizures).</i>
PLR	POLORES	3-7	R	<i>Polio Residue (of TB Miasm) Chronic cases of hiatal hernia. Most long-term eye problems.</i>
PLS CYT	PLASMACYTOMA		MVB	<i>Lumps that often appear on the bone (inside of cranium) or upper air passages. Very much associated with Plasma Cell Leukemia and Multiple Myeloma (both remedies are probably needed concurrently) plus a retrovirus if lumps have progressed to tumor.</i>
PLT SRG	PLATELETS STRONG		MRV	<i>Designed for ITP (Idiopathic Thrombocytopenic Purpura) A bone/liver disease causing platelets to break down and bleed through the skin looking like bruises (purpura).</i>
PLT SUL	PLATINUM SULFIDE		C	<i>Some forms of chemo therapy use platinum bound with sulfide that frequently poisons the liver. See also PLAT (a non-bound platinum)</i>
PMDOMA	PITUITARY MEDULLA CYTOMA		MVB	<i>A debilitating growth in the center of the pituitary decreasing function of the pituitary. Depending on the exact location this can decrease other endocrine glands yielding excess weight, decreased sexual growth or function, etc.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

PNM CAR	PNEUMOCYSTIS CARINII	3-7	PF	Infamous in AIDS, this cross of fungus and parasite also causes nose polyps. Start at 1/3 dosage and slowly work up to avoid reactions.
PNM RES	PNEUMONIA RESIDUE	2-7	RB	Long-term lung/bronchial weakness carried for years explained by this residue. Involved in current lung issues also
PNMINM	PNEUMONINUM		M	<i>Miasm of common lung phenomena that affects more than lungs</i>
POL ADN	POLIOADENOMA		MVB	<i>A lump involving a virus on the grey matter of the nerves that has a polio miasm.</i>
POL CAR	POLIO CARCINOMA		V	<i>Different form of carcinoma, yet to be medically identified, that suppresses organ function, especially thyroid.</i>
POL CCR	POLIO CYSTIC CARCINOMA		MVB	<i>Loves enclosed, high enzymatic activity areas like adrenals, thyroid and prostate.</i>
POL CEF	POLIO ENCEPHALITIS		RV	<i>A nerve virus that inflames the Central Nervous System, leaving a tired and duly sore spine. Mimics MS.</i>
POL CLM	POLIOINUM/ CHLAMYDINUM	10-12	M	Spliced miasms most affecting eyes and giving vision problems
POL CYT	POLIOCYTOMA		MVB	<i>A lump combination led by the virus polio</i>
POL GCR	POLIO GANGLIO CARCINOMA		MVB	<i>A lump on the grey matter of the nerves that will be eating the attached ganglia.</i>
POL GMN	POLIO GANGLIO MENINGIOMA		MVB	<i>Lump based on the polio virus in the ganglia and meninges of nerves.</i>
POL MEN	POLIOMENINGITIS		MVB	<i>A swelling of the grey matter of nerves that pressures neighboring nerves.</i>
POL NOS	POLYPS-NOSE		VF	<i>The kind of polyps that block breathing and give nasally sound to voice. They seem to always grow back after removal operations.</i>
POL OLC	POLIO OSTEO LYMPHO CARCINOMA		MVB	<i>A lump slowly eating at nerves, bones and lymph structure. Seen in conditions spreading from tissue to bones.</i>
POL OSR	POLIO OSTEO SARCOISIS		MVB	<i>Gradual nerve/bone deterioration</i>
POL PNM	POLIO PNEUMONIA		VB	<i>Another of the virus combinations that may be associated with Multiple Sclerosis and other Central Nervous System conditions</i>
POL SYF	POLIOINUM/ SYPHILINUM	10-12	M	Spliced miasms most affecting eyes and giving vision problems
POLIO M	POLIO MIASM	14-18	M	Miasm found highly involved in eyes and all the problems that involve eye glasses
POLORES	POLIO RESIDUE	3-6	R	Halfway between Poilo Miasms and an active poilo virus this condition likes to settle in the nerves to muscles. Most commonly found in the diaphragm and around eye muscles, this could appear anywhere there are nerves.
POLY CY	POLYCYTHEMIA		MVB	<i>An inherited condition of the bones producing too many red blood cells slowing circulation, clogging organs. Common, but unapproached disease.</i>
POLYOM	POLYOMA VIRUS		V	<i>A precursor to the papilloma virus, this virus creates a "halfway" status to cancer. Commonly found with hypothalamus remedies and sporadically seen in other compromised conditions.</i>
PON PRS	PONS PRESENT		MVB	<i>An impediment to the function of the pons that impedes the ability to genuinely love. Release often produces more natural expression of love and compassion.</i>
POO PAN	POOED-OUT PANCREAS		MR	<i>Based on Cholera Miasm, possibly behind Diabetes Insipidis (not the common Diabetes Mellitus) caused by too much stress in the life or to the body.</i>
POR AI	PORPHYRIA ACUTE INTERMITTENT		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Most common of Porphyria. Affects nervous system</i>
POR ALA	PORPHYRIA-ALA DEHYDRATASE DEFICIENT		MVF	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. The condition breaks blood cells down causing anemia, possible intestinal blockages and motor nerve difficulties.</i>
POR COP	PORPHYRIA COPRO		MVB	<i>Blood Leukemia. Decreases blood enzymes, oxygen carrying heme and mineral absorption. Increasing difficulty getting oxygen, headaches, hypoxia, tired after exercise.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

POR CT	PORPHYRIA CUTANEA TARDA		MVB	<i>Blood Leukemia, decreases mineral absorption & blood enzymes. Breakouts on skin with chronic liver problems</i>
POR DUL	PORPHYRIA DUAL		MVB	<i>Blood Leukemia. Decreases blood enzymes, oxygen carrying heme and mineral absorption. Increasing difficulty getting oxygen, headaches, hypoxia, tired after exercise.</i>
POR EC	PORPHYRIA ERYTHROPOIETIC CONGENITAL		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Severe skin blistering, reddish brown teeth, photosensitivity.</i>
POR EZC	PORPHYRIA ERYTHROPOIETIC ZINC COMPROMISED		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Affects eyes and prostate zinc needs</i>
POR EZF	PORPHYRIA ERYTHROPOIETIC ZINC FREE		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Affects eyes and prostate zinc needs</i>
POR HAR	PORPHYRIA HARDERO		MVB	<i>Blood Leukemia. Decreases blood enzymes, oxygen carrying heme and mineral absorption. Increasing difficulty getting oxygen, headaches, hypoxia, tired after exercise.</i>
POR HEP	PORPHYRIA HEPATO-ERYTHROPOIETIC		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Liver sensitivities, collect carbon dioxide easily, some anemia.</i>
POR HRD	PORPHYRIA HEREDITARY		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Neurological & abdominal problems.</i>
POR PYR	PORPHYRIA PYRROLO		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Affects eyes & prostate needs for zinc.</i>
POR VAR	PORPHYRIA VARIEGATE		MVB	<i>Blood Leukemia, decreases mineral absorption and blood enzymes. Photosensitivity, neurological & abdominal problems Prefer cold weather over hot</i>
POSO ML	POSOCYTE MALADY		MVB	<i>Posocytes (an invented name) are made in the bones and divide into the potassium and sodium needed for all cell function in the body. They have a different subvalence than standard nature elements so that supplements are not viable substitutes. This remedy is designed to restore the production of the base elements needed for body cell life. Always shows with porphyrias, plus shows in many people with other blood issues.</i>
POT ADR	POTASSIUM DEFIC ADRENALS		MV	<i>Potassium provides alkalinity, so that all acid and deteriorating conditions become possible symptoms.</i>
POT BRN	POTASSIUM DEFIC BRAIN		MVB	<i>Potassium provides alkalinity, so that all acid and deteriorating conditions become possible symptoms.</i>
POT SRG	POTASSIUM STRENGTH		MVB	<i>Among other issues, potassium is needed to hold cells closed for absorbing nutrition when sodium carries nutrition into the cell. Need to hold blood in the corpus cavernosum for erections.</i>
POUCH	POUCH		MVF	<i>Small Intestine condition that causes lower abdomen and neck to pouch</i>
PR SLDG	PRESERVATIVE SLUDGE		C	<i>Preservatives leave a sludge that combines hydrogen with phosphates and floats up to the brain, arteries of the brain and neurons of the brain.</i>
PRDEMA	PARATHYROIDEMIA		MBF	<i>Based on bone marrow source of vital nutrient, helps gall bladder, synthesize hormones, add to metabolism,</i>
PRK UP	PERK UP		CB	<i>Chlorine and Fluoride bind together to impair thyroid function.</i>
PRLVCN	PARATHYROID LIVER CONNECTION		MVF	<i>Helps liver make cholesterol that thyroid can metabolize, thus helping metabolism and thyroid</i>
PRM AMY	PRIMARY AMYLOIDOSIS		MVB	<i>Separate from specific, secondary amyloidosis (see THK series) this gathering of fibrous, waxy protein clogs many of the organs simultaneously. It is based on the liver/bone synergy. It may be the tying factor among simultaneous problems with the liver, heart, lungs and ascites, or other groups of organs. Causes increasing tiredness, stiffness and organs just functioning less. It is very necessary to take with THK AD and PRTNOS. Rushing the first 4 bottles may cause clogging (heavy blood).</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

PRM AZN	PRIMARY AZOTINOIDES		MVB	<i>An insufficient processing of nitrogen that blocks hormones (like insulin), follicles, etc.. Take with GOO CLN.</i>
PRM CCH	PRIMARY CARBOHYDRATE CALCILIPO HISTIOCYTOSIS		MVB	<i>Takes the inflammation caused by histocytes out of the body's metabolization of carbohydrates, calcium and lipids. Without the enzymes reinstalled by this formula, the body treats energy material like body tissue and seals it with other tissue like plaster.</i>
PRM CLC	PRIMARY CALCIDOSIS		MVB	<i>This disease involves almost all calcium salt deposits. It blends with and blocks lymph causing lymph swelling. Take with GOO CLN.</i>
PRM CPL	PRIMARY CALCIUM PHOSPHOLIPIDOSIS		MVB	<i>May help Rett's Syndrome. An inherited mal-processing of calcium and phospholipids which robs the brain of calcium needed for coordination of mind and muscle. There are jerky muscle movements, atelectasis (dried lungs causing shallow breathing, sometimes coughing), little ability to coordinate the digestive tract from tongue to rectum making difficult speech, digestion and bowel control. Take with GOO CLN.</i>
PRM CRB	PRIMARY CARBOHYDROSIS		MVB	<i>A liver/pancreas problem of tying carbohydrates into masses that do not process out of the body. In addition to other separate liver and pancreas issues revolving around carbohydrate digestion, this could help many weight issues, alcohol intolerances and sugar issues. Take with GOO CLN.</i>
PRM CTG	PRIMARY CALCITONIN TRIGLYCERIDOSIS		MVB	<i>Designed for Basedow's Goiter Disease. A malfunction of the enzymes and hormones causing an over-active thyroid in blood calcium consumption and an underactive thyroid for fat digestion. Subjects have an overactive thyroid when the thymus has a tumor and a net underactive thyroid without a thymus affliction. Although not always, they commonly have dry skin and like creamy food.</i>
PRM FOL	PRIMARY FOLLICOIDES		MVB	<i>A disease of follicles that may be the primary coagulating factor of tumors. It clogs carbohydrates, may be part of the cause of grey hair and may affect menopause. Take with GOO CLN.</i>
PRM LIP	PRIMARY LIPIDOSIS		MVB	<i>A scientifically unclassified form of lipid (fat) massing that adds to some weight issues. As it aims at the functions of the liver and pancreas, this may relate to several known diseases involving lipids. Take with GOO CLN.</i>
PRM MPL	PRIMARY MAGNESIUM PHOSPHOLIPIDOSIS		MVB	<i>An inherited mal processing of magnesium and phospholipids which strongly distorts control of muscles. Often there are intestinal control difficulties from tongue to rectum plus dystonia (contraction of muscles). Speech is often affected. For afflicted children, take with DRG RES and GOO CLN.</i>
PRM PLP	PRIMARY PHOSPHOLIPIDOSIS		MVB	<i>An intestinal/pancreas malfunction. This scientifically unclassified disease may lead to the solution for many known diseases. For instance, this may be the answer to Atelectasis, a disease that provides insufficient phospholipids to coat the alveolar of the lungs. The result is a parched condition of the lungs and bronchi that makes a person unable to get their breath. The bronchi obstructs and the breathing becomes very shallow. Take with GOO CLN.</i>
PRMS	PARA MS	2-5	VP	<i>Combination of Giardia and Nerve Viruses commonly see as dark spots by MRIs and mistaken for Multiple Sclerosis.</i>
PRO DIG	PROTEIN DIGEST		MRV	<i>Undigested proteins can block kidneys and multiple other organs causing weight and bloating.</i>
PRO PIZ	PROSTATE PIZZAZZ		MVB	<i>Thyroid-based problem controlling liver in a way that starves the prostate.</i>
PRONIS	PEYRONIE'S DISEASE		MVB	<i>Painful erection because of contracture of fibrous induration of the corpora cavernosa (like Dupuytren's contracture of the palm).</i>
PROT M	PROTEIN MIASM	10-12	M	<i>Protein digestion and absorption that decreases with age.</i>
PRS CAP	PROSTATE CAPSULE SWELLING		VF	<i>Common viral/fungal combination that causes the prostate capsule (covering sheath) to swell and mimic the swelling of the whole prostate.</i>
PRS ITS	PROSTATITIS		MVB	<i>Swelling of the prostate is like asthma of the lung. The conditions for both potentials are in the liver. This is a liver remedy and there may be feelings of contractions in the liver as it works. Works well w/PHS BAL.</i>
PRS REG	PROSTATE REGENERATION		MVB	<i>A condition of the thalamus blocking the posterior pituitary from sending tissue-building hormones to the prostate. Often a prostate disease starts because of this starvation. Remedy is not designed to affect erection or sperm production.</i>
PRT BLD	PROTEIN BLOOD		M	<i>IgA Immunoglobulin Deficiency related to respiratory (i.e. asthma), rheumatoid (i.e. lupus) and mal-processing of a number of proteins.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

PRTD AD	PARATHYROID ADENOMA		MVF	<i>Growth on the parathyroid that may adversely affect energy, (see HASHIM), calcium conversion for teeth (see TRD CAL) and health of thyroid (see CAR TRD)</i>
PRTD TM	PARATHYROID TAMING		MV	<i>When the potassium balance is off, the kidneys don't convert calcium in a way that blocks up the pancreas and causes weight.</i>
PRTNOS	PROTEINOSIS		ENZ	<i>An enzyme group that dissolves unusable protein out of the blood stream. Commonly used with PRM AMY, THK AD, and all of the THK series. Excess and usually unusable (adulterated) protein makes a person lethargic and requires great effort to get started in the morning. Especially after eating, you may feel like a deflated balloon with unusable protein.</i>
PSM	PSORA/SYPH/MED	10-12	M	<i>Psora mixed with the most classical of other miasms</i>
PSORA	PSORA	10-12	M	<i>Psora is the classic homeopathic inherited condition of lacking</i>
PSORIS	PSORIASIS		MVB	<i>Syphilinum-based remedy for the well-known crusty skin disease.</i>
PSR ART	PSORIC ARTHRITIS		MVB	<i>Another name for Reiters, or transitory arthritis that often involves very scaly/flaky skin eruptions</i>
PSR COL	PSORA CHOLERA		M	<i>Doubled miasm usually depleting adrenals. Look for a mineral malassimilation, depression of Hydrochloric acid and chronic tiredness</i>
PSR HRP	PSORIC HERPES	10-12	MV	<i>A combination of Psora (the deep base of Psoriasis with Syphilinum) and Shingles cause great, wetly raw itching</i>
PSR MED	PSORAMEDORRHINUM	10-12	M	<i>Combination miasm that may work best with all Gonorrhea miasmatic needs.</i>
PSR SYF	PSORASYPHILINUM	10-12	M	<i>Combination miasm that may work best with all Syphilis miasmatic needs.</i>
PSR TUB	PSORATUBERCULINUM	10-12	M	<i>Combination miasm that may work best with all Tubercular miasmatic needs.</i>
PT PAP A	PITUITARY PAPILLOMA ASTER		V	<i>Growth inside the tiny pituitary that thwarts pituitary function and highly contributes to excess weight and other pituitary malfunctions</i>
PT SK CS	PITUITARY SACK CYST		MVB	<i>Cyst growth on the enveloping sack of the pituitary that crowds the function of the pituitary. Hormonal difficulties (extending to thyroid and adrenals) are the result and for each person they differ, depending on what area is pressured.</i>
PTRD VR	PARATHYROID VIRUS	1-4	V	<i>Parathyroids control calcium distribution (Kidney Stones) and can drain Thyroid (hormones, energy)</i>
PUF ORG	PUFFED ORGANS		MV	<i>Chronic Myelofibrosis makes abdominal organs expand. In corpus collosum, makes dizziness, imbalance</i>
PUFOMA	PUFFOMA		MVF	<i>Brain blockage that traps waste in cells and makes them "puff" and coagulate with each other in weight.</i>
PULAP	PULMONARY AIVEOLAR PROTEINOSIS		MVB	<i>Inherited combination of lung and liver issues. Subject usually has gas-producing digestion and gradually decreasing lung capacity</i>
PURGE	PURGE			<i>Thyroids need to be cleared and fed for some forms of healing.</i>
PYELIT	PYELITIS		D	<i>Congenital chronic infection of kidneys causing destruction/atrophy. Often accompanied with urinary tract infection and bladder difficulties. Adds to high blood pressure and altitude sensitivity.</i>
R A G	RAGE		E	<i>Most do not identify with the intensity of the word, but carry the consuming negativity in a way that shapes the whole life.</i>
R COR VR	RAT CORONA VIRUS		V	<i>Acquired airborne virus from the stirring of rat droppings suppresses the pancreas via the parathyroid. Lipid (cellulite) weight is the result</i>
RAB CAR	RHABDO CARCINOMA		MVB	<i>Like Rhabdo Sarcoma, this is a highly malignant, diffuse, rabies-related tumor spreading through striated muscle cells causing tissue and organ destruction. This seems to be spread to a wider variety of areas than RAB SRC.</i>
RAB MYS	RHABDO MYO SARCOMA		MVB	<i>Compound lump led by the rhabdovirus. Most often found in muscles, connective tissue, genitals and intestines.</i>
RAB SRC	RHABDO SARCOMA		MVB	<i>Highly malignant, diffuse rabies-related tumor spreading through striated muscle cells causing tissue and organ destruction. Occurs more frequently in head and neck plus commonly found in genitourinary tract, extremities, body wall and retroperitoneum.</i>
RABOMA	RHABDOMYOMA		MVB	<i>Tumor usually of the striated muscle, commonly found in uterus, vagina, pharynx, tongue and heart. Usually related to dog or other animal bite often very long ago.</i>
RAD BRN	RADIATION BRAIN	2-6	C	<i>Radiation collecting in head causes sleeplessness, fuzzy thinking and headaches. Usually seen with RAD MIA, perhaps mobile phones</i>
RAD CAR	RADIATION CARCINOMA		C	<i>Destruction of cells caused by radiation. Often used with RAD BON and other radiation remedies.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

RAD COG	RADIATION CONGESTION	3-9	MVC	May well be a brain tumor or tumor in the making. Usually seen with RAD MIA, probably mobile phones
RAD ENT	RADIATION ENTERIDITIS	2-5	CB	A form of cancer in organs from nuclear radiation, abundant x-rays and even computer screens for those who smoke.
RAD HRT	RADIATION HEART		C	<i>Common in frequent flyers, so included in Flyers Heart. Could now come from many more sources than airplanes</i>
RAD MIA	RADIATION MIASM	9-11	M	Inherited bone weakness caused by sun radiation, nuclear or x-ray damage of the bone and marrow
RAD MIT	RADIATION MITOPLASMOMA		MVB	<i>A swelling of mitoplasmas (thread-like blood plasma) that thickens blood in the radiation spectrum of light. It increases with radiation "therapy", causes the liver and spleen to swell like a papoose. When RV ISY is involved the condition is cancerous.</i>
RAD PIT	RADIATION PITUITARY		C	<i>From proximity to nuclear power or waste. Causes darkening of teeth and decay of teeth nerves</i>
RAD RES	RADIATION RESIDUE	2-7	R	Often the saw dust around bones representing effect of radiation deterioration of bones.
RAD SKN	RADIATION SKIN		C	<i>Leaving no marks this condition makes dry skin and sensitivity to tv, computer and electrical radiation.</i>
RAYON	RAYON		C	<i>Allergies to rayon material</i>
RBF M	RAT BITE FEVER MIASM		M	<i>Miasm attracts lymph blockage, other rat-borne diseases and generally is behind some issues of weight.</i>
RC CP	RUBCOXCHICK	3-7	RVB	Rubella, Coxsackie, Chicken pox - Usually found on weak adrenals and Addison's.
RDC	RDC	3-7	RBV	Rubella/ Diphtheria/ Coxsackie - The inherited predisposition to Breast Cancer
REC HAR	RECEDING HAIR LINE upgr		MVB	<i>Hair regain formula w/added remedy for hair-eating bacteria. For loss including the U shape that forms on some heads.</i>
RED SPT	RED SPOTS		MVC	<i>Chronic Myelomonocytic Leukemia (CMML) makes small red spots mostly on abdomen which shows spleen bleeding in leukemia</i>
REJOIN	REJOIN		E	<i>For those who carry deep thoughts, usually buried, of ABANDONMENT and/or DESERTION</i>
REN OST	RENAL OSTEODYSTROPHY		MVB	<i>A metabolic bone disease causing decreased Vit D3 conversion (vit D3 is a major prostate food) which causes or contributes to mineral malabsorption, low plasma calcium, electrolyte loss; bone hardening in sacral area, vertebrae and base of skull.</i>
REO	REO	1-4	V	A mysterious virus that seems to couple with Coccidioidomycosis (SAD) in the pineal.
RES ADR	RESTORE ADRENALS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES BRC	RESTORE BRONCHI		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES BRS	RESTORE BREAST		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES CER	RESTORE CEREBELLUM		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES CLB	RESTORE CENTRAL LOBE		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer.</i>
RES CRS	RESTORE CEREBRAL SHEATH		MR	<i>Correction of a slowly deteriorating condition of the sheath, which forms the growing field for cancer. Can block thoughts from getting to motor nerves.</i>
RES CSF	RESTORE CEREBRAL SPINAL FLUID		MR	<i>Correction of a slowly deteriorating condition of the fluid, which forms the growing field for cancer.</i>
RES ELS	RESTORE ELASTIN		MR	<i>Correction of a slowly deteriorating condition of the skin/muscle substance, which forms the growing field for cancer.</i>
RES EPI	RESTORE EPITHALAMUS		MR	<i>Correction of slowly deteriorating condition of the organ so vital to hormone production.</i>
RES EYE	RESTORE EYE		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer. Use with other eye remedies.</i>
RES FLB	RESTORE FRONTAL LOBE		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer. Usually seen with obesity.</i>
RES GNG	RESTORE GANGLION		MR	<i>Correction of a slowly deteriorating condition of the nerve intersection, which forms the growing field for cancer. Used with Shy-Drager Syndrome</i>
RES HRT	RESTORE HEART		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

RES HYP	RESTORE HYPOTHALAMUS		MR	<i>Correction of slowly deteriorating condition of the organ so vital to hormone production.</i>
RES INT	RESTORE INTESTINES		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES KID	RESTORE KIDNEYS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES LGB	RESTORE LIVER AND GALL BLADDER		MR	<i>Correction of a slowly deteriorating condition of the organs, which forms the growing field for cancer.</i>
RES LIV	RESTORE LIVER		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer. See also RES LGB</i>
RES LND	RESTORE LYMPH NODES		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES LNG	RESTORE LUNGS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES MEM	RESTORE SHORT-TERM MEMORY		MR	<i>Correction of a slowly deteriorating condition of the medulla oblongata, which forms the growing field for cancer.</i>
RES N&S	RESTORE NOSE & SINUS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES NC	RESTORE NERVE CHANNELS		MR	<i>Correction of a slowly deteriorating condition of the pathways of nerves, which forms the growing field for cancer.</i>
RES NOS	RESTORE NOSE		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer. See also RES N&S.</i>
RES NRV	RESTORE NERVES		MR	<i>Correction of a slowly deteriorating condition of the nerves, which forms the growing field for cancer.</i>
RES NSN	RESTORE NERVE SYNAPSE		MR	<i>Correction of a slowly deteriorating condition of the connection, which forms the growing field for cancer.</i>
RES OLB	RESTORE OCCIPITAL LOBE		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer.</i>
RES OVR	RESTORE OVARIES		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES PAN	RESTORE PANCREAS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES PIT	RESTORE PITUITARY		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer. Often seen with pear-shaped bodies.</i>
RES PLB	RESTORE PARIETAL LOBE		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer.</i>
RES PON	RESTORE PONS		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer. The pons has much to do with the ability to demonstrate love.</i>
RES PRS	RESTORE PROSTATE		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES SIN	RESTORE SINUS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer. See also RES N&S</i>
RES STM	RESTORE STOMACH		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES TES	RESTORE TESTICLES		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES THL	RESTORE THALAMUS		MR	<i>Correction of slowly deteriorating condition of the organ so vital to hormone production.</i>
RES TLB	RESTORE TEMPORAL LOBE		MR	<i>Correction of a slowly deteriorating condition of the area, which forms the growing field for cancer.</i>
RES TRD	RESTORE THYROID		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RES UTR	RESTORE UTERUS		MR	<i>Correction of a slowly deteriorating condition of the organ, which forms the growing field for cancer.</i>
RESLES	RESTLESS			<i>A combination of the vibrations of licorice root (for adrenals) and wild cherry bark (for pituitary). Intended for the times when you burn the candle at both ends and are exhausted (because the activity drained the adrenals and pituitary). A large help for hot flashes.</i>
RESTOR	RESTORE		E	<i>VIOLATION antidote to restore the dignity that is felt damaged (often sexually) or by authority figure.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

RET CAR	RETICULOCYTE CARCINOMA		MVB	<i>A carcinoma of reticulocytes that may show up in numerous glands.</i>
RET COF	RETICULAR CYLINDRO OSTEO FOLLICULAROMA		MVB	<i>A lump of reticular cells, bone cells and follicular cells bundled with cylinder cells usually only seen in the jaw area. Feels like a contraction in the jaw, teeth and parts of the throat.</i>
RET MAL	RETICULOCYTE MALADY		MVB	<i>A malformation of the reticulocyte cells in the bones.</i>
RET NOT	RETINAL KNOT		MVF	<i>Retinal Hemangiomas- Stoppage in the blood flow to the retina that balls up like a tumor of blood with little tissue</i>
RET PEN	RETICULOPENIA		MVB	<i>A miasmatic condition of producing insufficient reticulocytes (one of the forms of red blood cells). Reticulocytes are needed especially for combating infection, for full nutrition and oxygen carriage (high altitudes). See also RET MAL, RET CAR, RET SRC, RETOMA, ERY LUK, ESN LUK.,</i>
RET PIG	RETINOSA PIGMENTOSA i		MV	<i>Improved version of eye condition involving Cytomegalovirus in the eye. The same condition in the adrenals causes mononucleosis.</i>
RET RAD	RETROVIRUS	1-3	CV	<i>A double bind of Retrovirus and radiation makes everyone tired and foster other diseases. Wide-spread</i>
RET SRC	RETICULOCYTE SARCOMA		MVB	<i>Sarcoma of reticulocytes, often with RET PEN, RET MAL, RETOMA.</i>
RETOMA	RETICULOCYTOMA		MVB	<i>A lump of reticulocytes that may show up in many organs.</i>
RETROM	RETROVIRUS MIASM		M	<i>Attracts retroviruses that bind issues into tumors and lumps</i>
REV	REVIVE	1-4	VB	<i>Very serious liver and liver-related diseases need to revive. Very powerful.</i>
REVENG	REVENGE	4-12	E	<i>Usually a deeply buried, previous existence motivation for anger and actions that possessor does not trace to revenge.</i>
REYES	REYES	4-9	RVB	<i>Familiar weakness in the heart from early pneumonia and aspirin combination, often undiagnosed</i>
RICKO	RICKO VIRUS	3-5	V	<i>A virus lodges in the gall bladder thwarting its ability to assimilate vitamin D and feed the bones (and prostate)</i>
RMDC	RUBMEADIPC		RV	<i>Rubella/Measles/Diphtheria/Coxsackie</i>
RMTC	RHEUMATIC FEVER	3-12	R	<i>Sickness or residue that causes later heart/lung weaknesses.</i>
ROOTIN	ROOTIN TOOTIN		MVF	<i>Adrenal-based remedy for Aldosterone Synthesis unblocking. (aldosterone is the substance from which all endocrine hormones are made from. Designed for people to be rooting for root chakra activities and tooting their horn about their new-found energy.</i>
ROSAC	ROSACEA	3-7	RB	<i>Red rash in cheeks, chin and other parts of face, usually around mid life. "Adult acne".</i>
ROTA	ROTA VIRUS	1-4	V	<i>Frequent cold/flu like debilitator world wide that prefers to attack in late summer/early fall.</i>
RP PLUG	RENAL/PITUITARY PLUG		M	<i>Brain part of cause for clogging of kidneys and weight/water retention.</i>
RSV	RESPSYN VIRGO	3-7	V	<i>Respiratory Syncytial Virus commonly caught by babies in pediatrics wards, carrying into adult respiratory problems.</i>
RTC ABC	ROOT CANAL ABCESS		MFC	<i>The major elements of root canal rot, including some of the antidotes for drugs involved in the process</i>
RUB CER	RUBELLA CEREBELLUM		RB	<i>A variation on a well-known brain disrupter. Look for this in dementia and Alzheimers (with other brain remedies)</i>
RUM ART	RHEUMATOID	10-12	MVB	<i>BON INF with Klebsiella Pasturella (used with Retro virus remedies.) Follow with MEMDRB & TUBMED.</i>
RUM BON	RHEUMATIC BONE	4-11	RV	<i>Inherited issues in bone joints. See also Rheumatic Arthritis</i>
RUM HRT	RHEUMATIC HEART		MB	<i>Inherited weakness in heart muscle and valves</i>
RUM NUM	RHEUMATIC FEVERINUM		M	<i>Miasm that may be involved in bone, heart, brain, liver, kidneys and endocrine organs</i>
RUN NOS	RUNNY NOSE		VBF	<i>Includes NS FNG and several viruses that effect the nasal area.</i>
RV ANDY	RETROVIRUS ANDROGENS		V	<i>A retrovirus often seen with lumps on endocrine glands.</i>
RV BACT	RETROVIRUS BACTY		V	<i>Rare retrovirus that combines with bacteria, instead of viruses, to turn your good cells into bad.</i>
RV BLDY	RETROVIRUS BLOODY		V	<i>Initially seen with reticulocyte sarcoma and reticulocyte carcinoma.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

RV BONY	RETROVIRUS BONY		MVB	<i>A retrovirus that seems to favor OST CAR, OST SRC, OSTOMA.</i>
RV BUMP	RETROVIRUS BUMPY		V	<i>Retrovirus most known to get in nodules on bone joints causing pain to the touch.</i>
RV CLOG	RETROVIRUS CLOGGY		V	<i>Undiscovered retrovirus in medicine connected to snoring, sleep apnea, metabolizing and low blood pressure (w/MAAD, MEN __)</i>
RV CRNK	RETROVIRUS CRANKY		V	<i>Often involved in massing/tumor issues of brain and heart - but not exclusively to these organs</i>
RV DENY	RETROVIRUS DIENCEPHALON		V	<i>Rare retrovirus found only in diencephalon (hypothalamus. thalamus. epithalamus)</i>
RV ENZY	RETROVIRUS ENZYMES		V	<i>An unusual retrovirus that acts like any other retrovirus and may especially be drawn to situations that highly involve enzyme production.</i>
RV FOAM	RETROVIRUS FOAMY		V	<i>Spumavirinae Retro -Often involved in massing/tumor issues with little specifics known</i>
RV GLIA	RETROVIRUS GLIA		V	<i>A specialized retrovirus applying to lumps on nerves. The virus causes burning in the nerves like nickel causes a burning feeling in the blood stream.</i>
RV HOMY	RETROVIRUS HOMY		V	<i>A retrovirus usually seen in the head, in the home of the nerve and hormonal area.</i>
RV ISY	RETROVIRUS ISOTOPE		V	<i>A retrovirus usually seen with radiation diseases or conditions, such as Radiation Mitoplasmoma.</i>
RV LENT	RETROVIRUS LENTI		V	<i>Well known, slow acting retrovirus suspected in lymphatic issues with inconclusive scientific proof</i>
RV LMF	RETROVIRUS LYMPHY		V	<i>Supposed uncommon retrovirus of a supposed bird origin and known to be in bird lymph systems.</i>
RV LUMP	RETROVIRUS LUMPY		V	<i>Retrovirus known to complicate inner tumors of the adrenals and thyroid. Included in the MEN remedies</i>
RV NERV	RETROVIRUS NERVY		V	<i>May have strong implications with some nerve diseases</i>
RV NEW	RETROVIRUS NOUVEAUX		V	<i>Unclassified retrovirus that is associated with antibiotic shots</i>
RV POLO	RETROVIRUS POLIO		V	<i>Since polio means "gray matter of nerves", this is a very specific nerve retrovirus</i>
RV PUSH	RETROVIRUS PUSHY		V	<i>Often involved in massing/tumor issues of brain and thyroid - but not exclusively to these organs</i>
RV ROUS	RETROVIRUS ROUSY		V	<i>The first retrovirus demonstrated to cause a malignant tumor</i>
RV SCRN	RETROVIRUS SCRUNCHY		V	<i>An unclassified retrovirus first found holding papilloma in reproductive organs</i>
RV SHIF	RETROVIRUS SHIFTY		V	<i>Retrovirus that seems to move around taking its problems from one organ to another</i>
RV SQEL	RETROVIRUS SQUELCHY		V	<i>Undiscovered retrovirus that seems to squelch otherwise good hormones. First used with HW Suppressor relevant to adrenals</i>
RV STEM	RETROVIRUS STEAMY		V	<i>Retrovirus involved in weight holding. Steams up the people who want to lose weight</i>
RVEB	RETROVIRUS EPSTEIN BARR		V	<i>Common combination seen with bones, AIDS and some forms of cancer</i>
S EYES	STRONG EYES i		MVF	<i>Improved version of condition of eye deficiency related to age.</i>
SAD	S.A.D.	1-5	F	<i>Seasonal Affected Disorder. Fungus that causes depression. People call themselves "solar powered".</i>
SAFE	SAFE		E	<i>For those who deeply do not feel safe in the earth plane or safe to be alive in human form. Sometimes may accompany with SCHIZ</i>
SARCOI	SARCOIDOSIS		MVF	<i>A medically ill-defined irritation of multiple possible organs that never quite lets that organ heal, especially liver, lungs, intestines.</i>
SBMOMA	SPONGIOBLASTO MELANOMA		MVF	<i>On the visible skin it appears as a mole-like swelling, although often larger in circumference and raised area more than "regular" moles. Can also be found internally.</i>
SCHWAN	SCHWANNOMA		MVB	<i>Encapsulated lump in the neurilemma (Schwann's sheath) of peripheral, cranial and autonomic nerves. One of most common lumps in nerve problems. Can look like a beeb under the skin when on nerve close to skin.</i>
SCL DWN	SCALE DOWN		MVF	<i>Quasi cancer of the adrenal medulla affecting skin/tissue weight.</i>
SCOLI	SCOLIOSIS		MV	<i>Tuberculinum-based improvement of previous success</i>
SCR FEV	SCARLET FEVER	7-9	R	<i>A residue (or actual case) Missing link in lupus and some cases of herpes. Check also CPCD,SWT VIR, CAN PAN, PAN BLD, TOXO, PAN FLK.</i>
SCR HRP	SCARLET FEVER	3-7	RB	<i>When all the teeth/gums seem to go bad. Also often involved in hearing loss with age.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

SE	SALMONELLA ENTERITIDIS	1-3	B	Reputedly widespread throughout, but rarely shows up alone - usually in combination with something else
SE FULL	SE FULL	1-3	BV	Salmonella Enteritidis/Hepatitis A/Hepatitis B/Coxsackie - Needs either ChemX and/or Liv Dtx (liver flukes?) to accompany.
SE HALF	SE HALF	1-3	BV	Salmonella Enteritidis/Hepatitis A/Coxsackie - Needs either ChemX and/or Liv Dtx (liver flukes?) to accompany.
SE REAL	SE REAL	1-3	BV	Salmonella Enteritidis/Hepatitis B/Coxsackie - Needs Either Chem X and/or Liv Dtx (liver flukes?) to accompany
SEA SC	SPLEEN ENZYME ALTERATION - SERUM CLEANSE		MVB	<i>Releases an enzyme the cleans the immunity/vaccination medium of the serum. The result increases the immune response to colds, flus and more serious issues. Regulates high and low blood pressure.</i>
SEE ASG	SEE ASTIGMATISM		MVB	<i>For the cause of astigmatism</i>
SEE CLS	SEE CLOSE		MVB	<i>For those who are far sighted and want to see up close (without glasses).</i>
SEE FAR	SEE FAR		MVB	<i>For those who are near-sighted and want to see far into the distance (without glasses).</i>
SEN ADR	SENSITIVE ADRENALS	7-12	MVB	Miasmatic condition making people emotionally overly sensitive to comments, possible slights,etc. - like an emotional hypochondriac
SEN LIV	SENSITIVE LIVER		MVB	<i>Liver irritation that makes person very sensitive to abrupt sounds, yelling kids, spicy foods and messy environments.</i>
SEN OVR	SENSORY OVERLOAD		MVB	<i>An inherited nerve condition where neurons move slower than the input. Too many things to do, too many demands, too many activities can make you occasionally forgetful, panicky and even numb.</i>
SEN SEN	SENSIBLE SENSUALITY		MVB	<i>Adrenal Medulla, bilateral, hormone (yet to be discovered by science) for feeling the enjoyment of being your gender.</i>
SEP	SEIZURE ENZYME PANCREAS		MVB	<i>The remedy for the blocked ability of the an enzyme synthesized in the pancreas that feeds the brain (mostly the pituitary). The lack of the enzyme creates a genetic disposition to seizures often starting in childhood and resuming with pancreas affliction</i>
SER REP	SERUM REPLENISH		MT	<i>Helps conversion and assimilation of Oxygen and Nitrogen into all cell tissue</i>
SF CL AL	SYPHILINUM/ALCOHOLINUM		M	<i>Miasmatic Liver condition that will seriously affect liver function and intestinal digestion</i>
SF CL CO	SYPHILINUM/CHLAMYDINUM/ CHOLERINUM		M	<i>Miasmatic condition affecting liver and its ability to process specific amino acids</i>
SF CL EC	SYPHILINUM/CHLAMYDINUM/ ESCHERICHINUM		MVB	<i>Liver miasms that are used in combination with other remedies to restore the ability to break protein into usable amino acids.</i>
SF CL ER	SYPHILINUM/CHLAMYDINUM/ERGOTULINUM		M	<i>One of possible miasmatic liver conditions at the base of Crohn's and/or Sprue. Attracts ergot and may make unhappy personality prone to anger</i>
SF CL LP	SYPHILINUM/CHLAMYDINUM/ LEPROSINUM		MVB	<i>Liver miasms that are used in combination with other remedies to restore the ability to break protein into usable amino acids.</i>
SF CL MD	SYPHILINUM/CHLAMYDINUM/ MEDORRHINUM	10-12	M	<i>Spliced miasms of Syphilinum/Chlamydinum/Medorrhinum affecting eyes and giving vision problems and probably Cystic Fibrosis in its many locations</i>
SF CL MX	SYPHILINUM/CHLAMYDINUM/MYXINUM		M	<i>Mal-digestion based in liver. Could combine with any of digestive disorders and liver conditions.</i>
SF CL PN	SYPHILINUM/CHLAMYDINUM/ PENICILLINUM		MVB	<i>Liver miasms that are used in combination with other remedies to restore the ability to break protein into usable amino acids.</i>
SF CL TB	SYPHILINUM/CHLAMYDINUM/ TUBERCULINUM	10-12	M	<i>Spliced miasms of Syphilinum/Chlamydinum/Tuberculinum affecting eyes and giving vision problems and probably Cystic Fibrosis in its many locations</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

SF D C	SCARLET FEVER/ DIPHTHERIA/COXSACKI	3-9	RBV	Infection often in head from Strep that bound to hearing, visual or taste apparatus.
SHD LOT	SHED LOTS		MVB	<i>For weight that looks like cellulite upon cellulite and enough to pose a health hazard to the heart and make walking very difficult.</i>
SHEATH	SHEATH BUILD	9-12	MVB	Inherited decrease in lecithin assimilation so that the myelin sheath of nerves dissolves leaving person open to MS, ALS and other nerve diseases. Person is frequently sensitive to loud sounds
SHIG	SHIGELLA	1-3	B	Bacteria most known for intestines. Binds Staph and/or Strep anywhere. Binds kidney stone and metals in kidneys.
SHK FRE	SHAKE FREE	4-9	MB	Involvement in some Palsy, Senility, Epilepsy, Sugar Imbalance, Convulsions, Protein craving and Adrenal/Pancreas connection
SHP	SPIROCHETE/HANTA/P ARVO	1-4	PV	Parasite-born virus that love to be in kidneys, (especially of young women).
SIC CEL	SICKLE CELL		MR	<i>A form of Thalassemia most known from Africa. Also shows up in other races. Deadly when a person also has leukemia.</i>
SILC	SILICONE X	3-9	C	Silicone breast implants and general silicone picked up in the air of factories, etc.
SIN ATR	SINOATRIAL DISEASE		MVB	<i>Also called the sinus nodes, this bundle of nerves in the heart forms an intrinsic pacemaker. Disturbances here cause irregular heart beat with varying degrees of low blood pressure (even when High Blood Pressure is the norm). See also AVN NOD, NIT.</i>
SIN FNG	SINUS FUNGUS		F	<i>Blocks sinus and spreads to whole head, feeling your head is your sinus and suffers accordingly</i>
SINO #1	SINUS INFECTION		VB	<i>One of several common infections of the sinus. This one involves Respiratory Syncytial Virus along with Serratia +</i>
SKN BLD	SKIN BLOOD		MV	<i>IgE Immunoglobulin Deficiency. No resistance to staph infections, particularly of the skin</i>
SKN BMP	SKIN BUMPS		MRV	<i>An unidentified disease of the epithelium - one of the layers of the skin. The disease forms the basis of most warts, corns, moles and lymphomas.</i>
SKN CTC	SKIN CONTRACT	8-11	BV	Along with, Bone Hard, this forms the basis of strategy for Scleroderma . . . and other skin conditions.
SKN NRV	SKIN NERVE VIRUS		V	<i>Contributes to some skin conditions that are not solely bacterial or fungal.</i>
SKN PCH	SKIN PATCH	9-10	MBF	Dry patches of skin that can turn into carcinomas have long alluded easy cure
SKN RNW	SKIN RENEW		MVB	<i>For keratinocyte recycling. Keratinocytes are epidermal cells that synthesize keratin, other proteins and sterols. They constitute 95% of the epidermis and are made in the bone. When these cells diminish in ability, skin ages; moles, warts etc grow and pigment changes. This formula is to restore the recycling. Take with other skin remedies, eye remedies.</i>
SKN TAGi	SKIN TAGS IMPROVED 5/02		VF	<i>Straggly, small fleshy growths from the skin, often but not always without color. Commonly they appear in clusters on the neck, but can easily appear anywhere on the body.</i>
SLF	SHEEP LIVER FLUKES	3-7	PV	Often in allergy cases that hang on and in liver weaknesses.
SLF DES	SELF DESTRUCTION		E	<i>A judgment on our selves that impels us to sabotage our own successes and even try to kill us physically and/or emotionally</i>
SLIMR	SLIMMER		RB	<i>Quasi cancer of adrenals affecting weight and energy. Generally good for approximately 20 lb if it tests for you.</i>
SLMST	SLIMMEST		MVB	<i>Activates the digesting mechanism, releases a pituitary papilloma (which has previously suppressed the adrenals). Essentially releases elements in the bones, blood, pituitary and adrenals.</i>
SLP APNi	SLEEP APNEA i		MVB	<i>Stronger, deeper version of current remedy. Includes the elements of improved SNOR</i>
SLP SPR	SLEEP SPURTS		VB	<i>Catches sleep in bits and pieces. Rota based formula</i>
SLP WEL	SLEEP WELL		MFB	<i>Shrinks a swollen epiglottis and helps sleep without snoring. May stop sleep apnea</i>
SMARTS	SMARTS		MVF	<i>Unblocks the hippocampus role of producing new brain cells. Use in dementia and alzheimers</i>
SMK DES	SMOKING DESIRE		VF	<i>Aimed at the binder of the smoke fungus that binds endorphines, which is the cause of the desire to smoke.</i>
SMK FNG	SMOKING FUNGUS		F	<i>Fungus formed by cigarettes that blocks endorphines in the brain until the fungus is fed by more cigarette smoke. Do you hear addiction?</i>
SML CEL	SMALL CELL LEUKEMIA		MVF	<i>Causes small cell carcinomas that spread to many organs swiftly</i>
SML POX	SMALL POX RES	6-9	R	Small Pox is involved in many chronic conditions including herpes (built into HG formula) and diverticulitis (with CRPSPO & HEL ATR)
SMNOMA	SEMINOMA		MVB	<i>A lump in the seminole gland of males. Tel-tale symptom is a change in color of semen from clear/white to darker color.</i>
SNORi	SNORE VIRUSi		RV	<i>The former elements plus new discoveries that make the remedy more effective.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

SNW VIR	SNOW VIRUS		V	<i>Calcvirus (like Norwalk) causing gastrointestinal problems, shallow breathing when in the nerves of the diaphragm, kidney weakness, mimics arthritis in hips and ankles. Active in cold weather, carried by moisture, although not dependent on snow.</i>
SOD CRB	SODIUM CARBONATE		MVF	<i>Miasmatic brain formula that helps body retain sodium for energy, gall bladder salt exchange, heart, lungs, energy. See SOD REP.</i>
SOD FCF	SODIUM FLUORIDE CHLORIDE FORMALDEHYDE		C	<i>Lethal municipally treated water and food combination that can impair brains.</i>
SOD REP	SODIUM REPLENISH		MBF	<i>Miasmatic brain formula that helps body retain sodium for energy, gall bladder salt exchange, heart, lungs, energy. See SOD CRB</i>
SOD SAV	SODIUM SAVE u		MVF	<i>Sodium depletion causes vascular constriction, reduces Vit D absorption, nullifies sexual hormones and imbalances electrolytes. Adrenals/Kidneys</i>
SOUP RT	SOUP'S RIGHT		MVB	<i>When all the ingredients are in the right proportions, the "soup's right". This formula is aimed at removing the standard blocks to getting the right mixture of elements, including acetylcholine, for nerve function.</i>
SP C P	SMALLPOX/COXSACKI E/ PHOSPHITE		R	<i>Combination found in the pancreas that prevents the pancreas from distributing calcium in the correct form for metabolization</i>
SPARKY	SPARKY		MBF	<i>Aimed at Pick's Disease, which could be called a base issue of dementia from which additions could equal Alzheimers</i>
SPGOMA	SPONGIOBLASTOMA		MVB	<i>Similar to a glioblastoma, a lump composed of spongioblasts, embryonic epithelial cells that develop around the neural tube and transform into cells supporting connective tissue of the nerve cells.</i>
SPIR MN	SPIRILLUM MINUS		P	<i>Spirochete variation more often seen in Asia, except it doesn't let geography limit it.</i>
SPL LMF	SPLEEN LYMPH		MVF	<i>Disease of the spleen that disallows lymph movement, often marked by very reduced sweating</i>
SPN BFI	SPINA BIFIDA INTERNAL		MVB	<i>A bulge in the spinal column that does not quite break out like full fledged spina bifida. Causes back strain and pain at slightest provocation</i>
SPN CLN	SPINE CLEAN	2-6	VB	<i>Spine Clean - Homeopathic of successful herbal combination to clear MS, MD, Huntington's, Parkinson's, Epilepsy.</i>
SPN FEV	SPINAL CORD FEVER	2-7	RV	<i>Blockages to full flow in the spine (which attract serious spinal diseases).</i>
SPN FGS	SPINE FUNGUS	2-5	F	<i>Phycomycosis - A subcutaneous fungus often around spine but also seen in nose, face or lung areas as lumps. Especially in memory loss.</i>
SPR CEF	SPIROCHETE ENCEPHALITIS		BT	<i>A nerve/toxin from ticks makes a person achy, irritable, tired and somewhat paralyzes all functions from the central nervous system</i>
SPR DEL	2001 SPRING DELIGHT		VB	<i>"Flu" (not) courtesy of contrails. Starts as intestinal flu that travels to brain and settles in liver for sleeplessness. Mild sweats/chills. Mild to searing bronchial cough. Composed of Rota, G. Meningitis, Clostridium, Swine Pneumomegalovirus. Often wit</i>
SPR HAR	SPARSE HAIR upgraded		MVF	<i>EXPERIMENTAL Hair regain formula w/added remedy for hair-eating bacteria. For thinning hair, male & female (like all remedies for hair)</i>
SPRUE	SPRUE	7-9	MVB	<i>A liver condition causing wheat intolerance. Accompany 1st of 3 to 6 bottles with Strep. See also SCR HRP & YEL HRP.</i>
SQA CEL	SQUAMOUS CELL CARCINOMA		MVB	<i>Scab-like deterioration of skin usually in contained spots. See also TUB SCR</i>
SQUISH	SQUISHY SKIN LUMPS	3-8	F	<i>Benign, flexible, squishy lumps just under the skin that seem to multiply if surgically removed.</i>
SQUISH #2	SQUISHY SKIN LUMPS#2		MBF	<i>This formula works best with ADENO D for yellow cysts that collect around the eyes.</i>
SQUISH #3	SQUISHY SKIN LUMPS#3		MVF	<i>The first formula did not work as broadly as expected. This formula based on Cancer Miasm.</i>
SQUISH #4	SQUISHY SKIN LUMPS#4		MVF	<i>The first formula did not work as broadly as expected. This formula based on Cancer Miasm.</i>
SRC CAR	SARCOCARCINOMA		MVB	<i>Combination of quasi cancers that follow long term irritation of any part of the body.</i>
SRCOMA	SARCOMA		MVB	<i>A quasi cancer that follows long term irritation of any part of body, especially liver/gb after parasites, kidneys that block up after medicines. Could be most anywhere. Check with different retroviruses</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

SRG TSU	STRONG TISSUE		MRV	<i>Aimed at Ehlers Danlow Syndrome. Subjects often have hyperflexibility in different joints and unusual ability to pull folds of skin from body. When they sprain an ankle or other joint, pain is deeper and recovery time is longer than others by 3x+.</i>
SRG V&A	STRONG VEINS AND ARTERIES		MVB	<i>Miasmatic group including Diphtheria that may be behind a number of artery/vein narrowings attributed to age.</i>
SSP	SLEEPING SICKNESS PARASITE	4-7	P	<i>Trypanasoma or Chagas Disease. In areas of good nutrition people fight the tiredness from this thyroid disease and exhaust their adrenals.</i>
SSS	STAPH/STREP/SHIGELL A	1-3	B	<i>Common bacteria trio that bind each other in place. Involved with wide variety of infections like fungus and virus, especially in intestines.</i>
STEN VR	STENOSIS VIRUS		V	<i>There is a virus that contracts heart valves, pulmonary arteries, parts of the pituitary channels and more.</i>
STF A#1	STAPH AUREUS #1	2-6	B	<i>Commonly found staph infection in heart valves and heart walls</i>
STF A#2	STAPH AUREUS #2	2-6	B	<i>Commonly found staph infection in heart valves and heart walls</i>
STF A#3	STAPH AUREUS #3		B	<i>Causes considerable catarrh (fluid) in nose causing crusting and throat drainage when head is cold.</i>
STF ALB	STAPH ALBUS	1-4	B	<i>Well-known form of Staph infecting wounds, causing scars to stay pink and irritated. Usually "post operative".</i>
STF MUS	STIFF MUSCLE DISEASE		MV	<i>Designed for Myotonia Congenita (Thompson's Disease). Painless muscle stiffness mostly in hands, legs and eyelids. Handgrip releases slowly. Improves with exercise. Leads to always tight muscles.</i>
STF/STR	STAPH/STREP	1-3	B	<i>Two common bacteria that can appear together.</i>
STK ADN	STUCK ADRENALS	10-12	MVF	<i>A group of miasms with residues for Addison-like long-term adrenal weakness. Includes Syphmed, RCCP and Blood Deprivation Virus</i>
STKADR2	STUCK ADRENALS #2		MVF	<i>Based on Cholera Miasm, this improvement on the previous version may do more for slow adrenals</i>
STM HOR	STIMULATION HORMONES		MRV	<i>This could be called a mesoderm glioma in the hypothalamus which blocks the infundibular stem between the hypothalamus and pituitary. It is also part of Arginine Vassopressin Secretion. In short, this can block in varying degrees the hormonal activation of the pituitary and adrenals</i>
STR	STREP	1-3	B	<i>Multiple kinds of strep together.</i>
STR BN	STREP IN BONE	3-7	B	<i>Involved in most cases of bone cancer and osteoporosis. See BON INF.</i>
STR DIG	STRESS DIGESTION		MVB	<i>For the production of a liver-made enzyme for digestion that can be exhausted by thyroid and/or adrenals (stress).</i>
STR DIS	STEROID DISSOLVE			<i>Enzymes needed to dissolve steroids stuck in body from steroid injections</i>
STR FG A	STREP FUNGUS A	2-5	F	<i>Maduromycosis activated by Actinomycosis (the most common form of Maduromycosis).</i>
STR FG N	STREP FUNGUS N	2-5	F	<i>Maduromycosis activated by Nocardiosis. See IEL and IEV.</i>
STR PNM	STREP PNEUMONIA	1-4	B	<i>Combination of two bacteria that love lungs and bones</i>
STRON	STRONTIUM 90	1-4	C	<i>Strontium 90 is a form of radiation fallout or contaminate of nuclear explosions or bombs (usually).</i>
STRS WT	STRESS WEIGHT		VB	<i>Weight caused by a drain on the pituitary and adrenals that gathers pathogens of depletion.</i>
STUD	STUD		MVB	<i>Combination of blockages aimed at restoring sperm strength. Not designed for erection issues.</i>
SUG BUG	SUGAR BUGAR	10-12	MRF	<i>Pancreas based miasm involving starch digestive problems</i>
SUG STO	SUGAR STORE		MVB	<i>Glucose Malabsorption Disease - Insufficient digestion of sugar so that it stores as fat and blocks kidneys to cause edema. See also SUG BUG</i>
SUL SEN	SULFUR SENSITIVITY		VBFB	<i>A common variety of pathogens in the liver that helps with the digestion of sulfur-rich food and helps with some skin issues involving sulfur</i>
SURV SS	SURVIVOR STRESS SYNDROME		E	<i>This issue is usually deep in the subconscious, at the base of complex, interwoven life strategies. It is like a king pin remedy for difficult emotional problems. It spawns from fetal experiences when abortion was considered or attempted and there were conditions around gestation that made fetal survival questionable. The subjects are chameleon-like in their ability to do whatever it takes to (1) survive and (2) prosper. However prosperity is always only for survival and the person never seems to be happy about prosperity. Inner conflicts are usually as well-hidden as the stark fear of not surviving so that fear/stress is the only way of life known, until the issue is resolved. Diseases develop out of long-term stress.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

SVELTE	SVELTE		<i>MVB</i>	<i>Unblocks the synthesis of thyroxine (T4) in the thyroid, which is thought to be responsible for best metabolizing. If nothing else is blocking metabolism, the T4 could help your body become svelte (slender or slim).</i>
SWL FGN	SWELLING FUNGUS	1-6	F	Actinomycosis found in many cases where the tissue is swelling or cancerous.
SWL KEY	SWELLING KEY		<i>MVB</i>	<i>Eliminates the body's propensity to make more papillherpes, which may be the family of virus that create lumps in the body. It will still be necessary to clean out all the lumps that have already formed.</i>
SWL PN	SWELLING PAIN	4-9	RV	Includes all the residues that make bones,(hands) swell - Measles, Mumps, Rubella, Coxsackie, CMV.
SWL SKN	SWELLING SKIN		<i>MVB</i>	<i>In addition to the standard skin diseases that make the skin swell (Psoriasis, Hives, Eczema), this condition exists more in the epidermal layers of the skin than the roots. Externally the skin is easily affected by sun and attracts black fly bites. Internally the epidermal layers of organs will swell with acidity, carbohydrates and many infections.</i>
SWT H&F	SWEATY HANDS & FEET		<i>MV</i>	<i>Central nervous system issue often magnified by adrenal/emotional issues. See also SWT LES</i>
SWT LES	SWEAT LESS		<i>MBF</i>	<i>Hyperhidrosis (Profuse Perspiration) antidote. Miasmic and adrenal based. See al;so SWT NIC, SWT H&F</i>
SWT NIC	SWEAT NICE		<i>MBF</i>	<i>Bromhidrosis-Antidote to adrenal blockage with lymph bacteria that produces odorous perspiration, no matter how well we clean.</i>
SWT VIR	SWEETNESS VIRUS	2-3	V	Herpes # 4 with coxsackie,usually found in the pancreas, adrenals. One of 2 remedies to shorten miasm remedy time. See also DRG VIR.
SYF	SYPHILIS		<i>B</i>	<i>Well known venereal disease, often with genital herpes. This is the chief neurological disease of all times. It often depletes the body so much that nothing seems to heal easily. It deteriorates the brain sooner or later, like the miasmic version.</i>
SYF MED	SYPHIMEDORRHINUM	8-10	M	Spliced Miasm of Syphilis and Gonorrhea. Behind Dupuytren's Contracture, etc.
SYF PIN	SYPHILINUM PINTA		<i>M</i>	<i>Whereas Syphilinum is the remedy for Jekyll/Hyde Syndrome, SYF PTA is for the same with destructive tendencies</i>
SYF YST	SYPHILINUM YEAST	7-9	F	Somewhat the final ingredient in the design to eradicate genital herpes (used with SYF CLM, NRV HRP) (and sometimes with GEN BRN).
SYFCLM	SYPHILINUM/ CHLAMYDINUM	11-12	M	Part of basis of Crohn's, Sprue, chronic IBS, Diverticulitis, Genital Herpes. Lodges in liver giving liver problems. Part of cystic fibrosis.
SYFLUM	SYPHILINUM	10-12	M	One of the most destructive miasms that combines with so many other miasms in destructive diseases. Very active in mind, skin, intestines
SYN 1A	SYNTHESIZER 1A		<i>MVB</i>	<i>Synthesizes enzohormones and connectors shared by the pituitary, adrenals and thyroid for skin, scant sweat, scant eyebrows, dehydrating nerves and pancreas.</i>
SYRNX B	SYRINGOBULBIA		<i>MVF</i>	<i>Fluid filled cavity within the brain stem. Often with several of: vertigo, stuttering, unilateral or bilateral facial sensory impairment, horseness, inarticulate speech, difficulty swallowing and peripheral neuropathy</i>
SYRNX M	SYRINGOMYELIA		<i>MVF</i>	<i>Fluid filled cavity within the spinal cord that pressures the nerves into numbness (peripheral neuropathy). Pain dissemination starting at fingers. Later stages lead to mild spacity. Often with spinal tumor.</i>
SYS SCL	SYSTEMIC SCLEROSIS		<i>MVF</i>	<i>Hardening of organs like esophagus, lungs, kidneys,heart. Major symptoms of thinning lips,mask-like face,difficulty swallowing</i>
T & E	THYROID & EYES		<i>MVB</i>	<i>Presbyopia - Especially effects the flexibility of eye lens and the ability to focus.</i>
T & H	THYROID & HEARING		<i>MVB</i>	<i>A way of strengthening hearing for some issues of the ears that also affect the thyroid</i>
T ACTIN	TEETH ACTINOMYCOSIS		<i>F</i>	<i>An infection in the nerves of the teeth by the fungus, actinomycosis, aka Swelling Fungus</i>
T BOT	TEETH BOTULISM		<i>B</i>	<i>A well-known form of clostridium in the nerves of the teeth</i>
T CL MAL	T CELL MALADY		<i>MVB</i>	<i>Thymus-based insufficiency for making effective T Cells (not making receptor/effector/catalystic proteins). See also Jump Start. For B Cell insufficiency see BAC DIS.</i>
T CLM	TEETH CHLAMYDIA		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T CLOS	TEETH CLOSTRIDIUM		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T CMV	TEETH CMV		<i>V</i>	<i>A ubiquitous virus of mononucleosis fame that also affects teeth nerves.</i>
T COX A	TEETH COXSACKIE A		<i>B</i>	<i>Unusual infection usually centering around Bucosal Mucosa mouth/jaw infections</i>
T E COLI	TEETH E. COLI		<i>B</i>	<i>Special form of this bacteria in teeth nerves.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

T ENTRO	TEETH ENTERO		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T KLEB	TEETH KLEBSIELLA		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T MDRA	TEETH MADURA		<i>F</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T MUCOR	TEETH MUCOR		<i>F</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen</i>
T NESRA	TEETH NEISSERIA		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen</i>
T POLIO	TEETH POLIO		<i>V</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T SAL	TEETH SALMONELLA		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T SML PX	TEETH SMALL POX		<i>V</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T SPIRO	TEETH SPIROCHETAL		<i>B</i>	<i>Infection in teeth nerves often relating to lingering Lymes Disease and degenerative diseases, since Spirochete is also related to syphilis.</i>
T STAPH	TEETH STAPH		<i>B</i>	<i>Special form of this bacteria in teeth nerves.</i>
T STR FN	TEETH STREP FUNGUS N		<i>B</i>	<i>Infection in teeth nerves that often affects heart.</i>
T STREP	TEETH STREP		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T TUB	TEETH TUBERCULOSIS		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T TYPHD	TEETH TYPHOID		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen</i>
T VIBRO	TEETH VIBRIO		<i>B</i>	<i>Tooth nerve infection that weakens the organ that it connects to, especially to this pathogen.</i>
T4 DIS	T4 DISEASE		<i>MVB</i>	<i>Stops or substantially alters the primary thyroid hormone which decreases digestion, energy, drive and sexual hormone production in the adrenals.</i>
TAP	TEMP ADRENAL PARALYSIS	3-12	<i>VB</i>	<i>Paralyzed emotional shock (often very old) that instigates so many latent diseases.</i>
TAP WRM	TAPE WORM		<i>P</i>	<i>General formula for tapeworm including cloves and black walnut hull (green stage)</i>
TB ADR	TUBERCULOSIS ADRENALS		<i>B</i>	<i>Bacteria that rides on red blood cells and will often land in a weakened organ.</i>
TB ALBU	TUBERCULOSIS ALBUMIN		<i>B</i>	<i>Often present when there are blood diseases, especially leukemias.</i>
TB ASCT	TUBERCULOSIS ASCITES		<i>B</i>	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often with leukemias and several lymphomas. (LM IMBD)</i>
TB BLAD	TUBERCULOSIS BLADDER		<i>B</i>	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB BLOD	TUBERCULOSIS		<i>B</i>	<i>TB in different aspects of the blood, muffling its function. Included in CDC</i>
TB BLVS	TUBERCULOSIS BLOOD VESSELS		<i>B</i>	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ TB BLVS in dementia cases.</i>
TB BN SK	TUBERCULOSIS BONE SKIN		<i>B</i>	<i>Tuberculosis of the periosteum, the (skin) covering of the bones</i>
TB BONE	TUBERCULOSIS BONE		<i>B</i>	<i>Causes deterioration of spinal bones with stiffness, tiredness and lower back soreness. (Which is usually from adrenals or ANK SPN)</i>
TB BRES	TUBERCULOSIS BREASTS		<i>B</i>	<i>Common bacteria that rides red blood cells and often instigated by TEETH TB.</i>
TB BRN	TUBERCULOSIS BRAIN		<i>B</i>	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ TB TNSL and lumps.</i>
TB CART	TUBERCULOSIS CARTILAGE		<i>B</i>	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB CCH	TUBERCULOSIS CALCIUM/ CARBON/ HISTAMINE		<i>B</i>	<i>The combination that spells weight collection can attract TB in a way that seals the combination from dissolution.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

TB CL PL	TUBERCULINUM/ CHLAMYDINUM/ POL	10-12	M	Spliced miasms OF Tuberculinum/Chlamydinum/Polioinum most affecting eyes and giving vision problems
TB COLL	TUBERCULOSIS COLLAGEN		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB CPIL	TUBERCULOSIS CAPILLARIES		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ TB BRN in dementia cases.</i>
TB CRBF	TUBERCULOSIS CEREBRAL FLUID		B	<i>Tuberculosis that sets into the fluid and the choroid plexi that filters the fluid. See also TB Brain for bacterial infection of the brain tissue.</i>
TB CRBN	TUBERCULOSIS CARBON		B	<i>TB on the many forms of carbon in the body.</i>
TB CRFT	TUBERCULOSIS CARBOHYDRATES/ FATS		B	<i>TB on a form of fat combined to carbohydrates.</i>
TB DFRM	TUBERCULOSIS DIAPHRAGM		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB DISK	TUBERCULOSIS DISK		B	<i>The disks between vertebrae can attract TB and easily deteriorate with the bacteria. Usually there is an accompanying TB infection in the tendons or ligaments or spine or bones or any grouping of these.</i>
TB EDYM	TUBERCULOSIS EPIDIDYMIS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB ENZ	TUBERCULOSIS ENZYMES		B	<i>Enzymes that are weakened or mis-made attract tuberculosis bacteria</i>
TB EYES	TUBERCULOSIS EYES		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB FAT	TUBERCULOSIS FAT		B	<i>TB on a form of fat</i>
TB GB	TUBERCULOSIS GALL BLADDER		B	<i>A bacterial infection that usually follows a deeper infection in the liver. May develop independently.</i>
TB GLIA	TUBERCULOSIS GLIA CELLS		B	<i>TB in the cells that transport neurons.</i>
TB HPTH	TUBERCULOSIS HYPOTHALAMUS		B	<i>TB in this major portion of the diencephalon distorts, disturbs and muffles function. It is important when we see the organs of the diecephalon as part of the control tower of the body function.</i>
TB INST	TUBERCULOSIS INTERSTITIAL CELLS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Seen in hormone depletion cases.</i>
TB KID	TUBERCULOSIS KIDNEYS		B	<i>Familiar bacteria that makes a specific mutation for many organs</i>
TB LFE	TUBERCULOSIS LIPID/ FATS/ ENZYMES		B	<i>TB on a combination of fats and mis-made enzymes.</i>
TB LIGM	TUBERCULOSIS LIGAMENTS		B	<i>Bacterial infection in the ligaments. often corresponds to gall bladder infections and bone infections.</i>
TB LIPD	TUBERCULOSIS LIPID		B	<i>TB on a form of fat</i>
TB LIV	TUBERCULOSIS LIVER		B	<i>Often a complication of Polycystic Liver and other deep liver issues.</i>
TB LMCH	TUBERCULOSIS LYMPH CHANNELS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ leukemias</i>
TB LPCR	TUBERCULOSIS LIPID/ CARBOHYDRATES		B	<i>TB on a combination of lipids and carbohydrates.</i>

HEALERS WHO SHARE TESTINGS

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

TB LPFT	TUBERCULOSIS LIPID FATS		B	<i>TB binding a combination of lipids and fats in the blood and tissue.</i>
TB LYMF	TUBERCULOSIS LYMPH		B	<i>Causes black spots to gather usually around ankles /feet and usually accompanies FUS FES. Miliary TB often is associated to the issue.</i>
TB MCLN	TUBERCULOSIS MUCOSAL LINING		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Most any internal organ.</i>
TB MENG	TUBERCULOSIS MENINGS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. See also TB NRV</i>
TB MITO	TUBERCULOSIS MITOCHONDRIA		B	<i>TB on what is often considered the "power house" of the body's energy. Included in CDC.</i>
TB MRW	TUBERCULOSIS BONE MARROW		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/TB BON and "Big Four"</i>
TB MUSC	TUBERCULOSIS MUSCLES		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB NRV	TUBERCULOSIS NERVES		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. See also TB MENG</i>
TB OVAR	TUBERCULOSIS OVARIES		B	<i>Common bacteria that rides red blood cells and often instigated by TEETH TB.</i>
TB PANC	TUBERCULOSIS PANCREAS		B	<i>Widespread bacteria that usually follows Teeth Tuberculosis.</i>
TB PIN	TUBERCULOSIS PINEAL		B	<i>TB in this major portion of the diencephalon distorts, disturbs and muffles function. It is important when we see the organs of the diencephalon as part of the control tower of the body function.</i>
TB PIT	TUBERCULOSIS PITUITARY		B	<i>TB in this major director of hormonal activity runs the risk of muffling all activity in the endocrine glands.</i>
TB PLSM	TUBERCULOSIS PLASMA		B	<i>Often present when there are blood diseases.</i>
TB PRCR	TUBERCULOSIS PERICARDIUM		B	<i>Bacteria in the sack around the heart that impairs the function of heart. When in the TB time cycle, it is known as one of the major causes of heart attacks. TB is starting to cycle again.</i>
TB PRNM	TUBERCULOSIS PERITONEUM		B	<i>It is common to attract TB in the sack that holds gut organs when there is TB in the organs or when there is a blood disease that causes fluid to collect in the peritoneum.</i>
TB PROS	TUBERCULOSIS PROSTATE		B	<i>Familiar bacteria that makes a specific mutation for many organs</i>
TB SERM	TUBERCULOSIS SERUM		B	<i>Often present when there are blood diseases.</i>
TB SKIN	TUBERCULOSIS SKIN		B	<i>Skin can be dry or itch when showering. If taken too rapidly, causes lots of initial itching and coughing/sniffing as detoxification.</i>
TB SNFL	TUBERCULOSIS SINOVIAL FLUID		B	<i>The fluid in the joints can attract TB if stagnant and/or diseased.</i>
TB SNUS	TUBERCULOSIS SINUS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB SPIN	TUBERCULOSIS SPINE		B	<i>Makes stiffness around central nervous system, stiff legs-easier to walk backwards than forwards. Easily misdiagnosed as MS.</i>
TB SPLN	TUBERCULOSIS SPLEEN		B	<i>Bacterial infection indicating low oxygen and high risk of depletion.</i>
TB STMK	TUBERCULOSIS STOMACH		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. See also TB MCLN.</i>

HEALERS WHO SHARE TESTINGS

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

TB TEND	TUBERCULOSIS TENDONS		B	<i>Very similar to TB Ligaments, this is a connection of bones and muscles.</i>
TB THLM	TUBERCULOSIS THALAMUS		B	<i>TB in this major portion of the diencephalon distorts, disturbs and muffles function. It is important when we see the organs of the diecephalon as part of the control tower of the body function.</i>
TB TNSL	TUBERCULOSIS TONSILS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ TB BRN.</i>
TB TRD	TUBERCULOSIS THYROID		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. Often w/ TB of lymph based tumors.</i>
TB UTER	TUBERCULOSIS UTERUS		B	<i>Bacterial infection indicating low oxygen and high risk of depletion. See also CLM TRA.</i>
TBR BCT	TUBER BLASTO CYTOMA		MVB	<i>A compound lump lead by tuberculosis, mixing with insufficiently made new cells and forming a cyst on top of the lump. Likes brains</i>
TBR CAD	TUBER CYST ADENOMA		MVB	<i>A lump lead by the bacteria, tuberculosis, with cystic and adeno virus cells joined in.</i>
TBR CAR	TUBER CARCINOMA		MVB	<i>A carcinoma forced by the bacteria, tuberculosis. Included in CDC</i>
TBR CC	TUBER CHORIO CARCINOMA		MVB	<i>Usually starting with fetal tissue and usually starting in the uterus, it may deteriorate the uterine wall and predispose the fetus to infection of the choroid tissue. With TB this is more commonly seen in adults with long developing problems in the lymph, lymph nodes, blood vessels, lungs, liver and brain.</i>
TBR CS	TUBER CHORIO SARCOMA		MVB	<i>Usually starting with fetal tissue and usually starting in the uterus, it may deteriorate the uterine wall and predispose the fetus to infection of the choroid tissue. With TB this is more commonly seen in adults with long developing problems in the lymph, lymph nodes, blood vessels, lungs, liver and brain. Considered somewhat milder than TBR CC</i>
TBR CSC	TUBER COLLAGEN SARCO CARCINOMA		MVB	<i>A tuberculosis-led lump with collagen cells and sarcoma/ carcinoma destruction. Often with RV Enzy. Associated with tinnitus and hearing loss.</i>
TBR ESQ	TUBER EPITHELI SQUAMOMA		MVB	<i>A lump lead by tuberculosis mixed into epithelial and squamous cells</i>
TBR FAD	TUBER FIBRO ADENOMA		MVB	<i>A lump lead by the bacteria, tuberculosis with fibro and adeno virus joined in.</i>
TBR FBS	TUBER FIBRO BLASTOMA		MVB	<i>Complex lump led by tuberculosis and mixed with fibroadenoma and blast cells. Commonly found in thyroid, adrenals, ovaries and uterus.</i>
TBR FCT	TUBER FIBRO CYTOMA		MVB	<i>A lump lead by the bacteria, tuberculosis with fibro and cyto cells joined in.</i>
TBR FLD	TUBER FOLLICULAR ADENOMA		MVB	<i>Most commonly seen in the thyroid</i>
TBR FLE	TUBER FOLLICULAR EPITHELIOMA		MVB	<i>Most commonly seen in the thyroid</i>
TBR FML	TUBER FIBRO MELANOMA		MVB	<i>A compound-content lump often found in the lungs and spine. Usually the bacteria tuberculosis will also be found widespread, along with T TUB.</i>
TBR FMS	TUBER FIBRO MASTOMA		MVB	<i>A lump lead by the bacteria, tuberculosis, with fibro and mast cells joined in.</i>
TBR FPC	TUBER FOLLICULAR PICORNA CARCINOMA		MVB	<i>A lump based on tuberculosis involving follicular cells, picorna virus and wrapped in carcinoma. Found mostly on endocrine glands like adrenals, thyroid and pancreas.</i>
TBR INS	TUBER INSULINOMA		MVB	<i>Tuberculosis complication of an insulinoma which causes the pancreas to emit too much of the hormone, insulin.</i>
TBR LAD	TUBER LYMPHO ADENOMA		MVB	<i>A lump led by tubercular cells mixed with lymph cells that could be on any tissue. Commonly seen in thyroids, adrenals, reproductive glands, liver, etc.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

TBR LBG	TUBER LYMPHO BLASTO GIOMA		MVB	<i>A lump lead by tuberculosis with lymph/blast cell combinations joined in. Generally accompanies lymphoblastic leukemia and loves liver, thyroid and pancreas.</i>
TBR LBL	TUBER LYMPHO BLASTOMA		MVB	<i>A lump led by tuberculosis involving lymph and new cells.</i>
TBR LCT	TUBER LYMPHO CYTOMA		MVB	<i>A compound lump led by tuberculosis with lymph invasion. Common in thyroid.</i>
TBR LFG	TUBER LYMPHAN GIOMA		MVB	<i>A lump lead by tuberculosis with lymph blobs joined in. Generally accompanies lymphoblastic leukemia and loves liver, thyroid and pancreas.</i>
TBR LFM	TUBER LYMPHO FOLLICULAR MYXOMA		MVB	<i>A compound lump lead by tuberculosis bound to lymph into glomular cells by the myxo virus. Commonly found in thyroid nodules.</i>
TBR LGM	TUBER LYMPHO GLOMERULAR MYXOMA		MVB	<i>A compound lump lead by tuberculosis, bound to lymph into glomerular cells by the myxo virus. This is a good candidate for reproductive glands, kidneys and areas of the cranial nerves inside the central nervous system.</i>
TBR LPA	TUBER LYMPHO POLIO ADENOMA		MVB	<i>A compound lump led by tuberculosis with lymph, polio virus and adeno virus components. Common in thyroids, liver and eye areas.</i>
TBR LPB	TUBER LYMPHO POLIO BLASTOMA		MVB	<i>Impaired nerve lump on new cells by tuberculosis bacteria and polio virus also involving lymph.</i>
TBR LSF	TUBER LYMPHO SEMIOVALE FOLLICULAROMA		MVB	<i>Compound lump led by tuberculosis involving lymph, brain and follicular cells.</i>
TBR MEL	TUBERMELANOMA		MVB	<i>Lump of tuberculosis and melanoma. Loves lungs, brain and adrenals.</i>
TBR NCC	TUBER NEURO CHORIO CARCINOMA		MVB	<i>Considered a rare form of combination lump that involves TB mixed into both the choroid layer of tissue and into the nerves. Usually in the brain.</i>
TBR OSR	TUBER OSTEO SARCOSIS		MVB	<i>Gradual bone deterioration</i>
TBR PBM	TUBER POLIO BASAL MENINGIOMA		MVB	<i>A lump based on tuberculosis combined with polio virus, basal cell carcinoma and meninges cells. Good candidate for the mesencephalon for those with walking difficulties.</i>
TBR PCC	TUBER POLIO CYSTIC CARCINOMA		MVB	<i>Lump lead by tuberculosis and polio found on nerves.</i>
TBR PCR	TUBER POLIO CARCINOMA		MVB	<i>Destruction of nerves by tuberculosis bacteria and polio virus.</i>
TBR PFM	TUBER POLIO FIBRO MYXOMA		MVB	<i>A lump lead by tuberculosis in a very familiar combination with polio and including fibro and myxo virus.</i>
TBR PFN	TUBER POLIO FOLLICULAR NEUROMA		MVB	<i>Commonly found in the frontal lobe of the brain and the thyroid.</i>
TBR PML	TUBER POLIO MELANOMA		MVB	<i>A compound lump lead by tuberculosis tied in with polio virus and melanoma. May often be found in thyroid and eyes, but could be anywhere</i>
TBR PMN	TUBER POLIO MENINGIOMA		MVB	<i>Destruction of nerve menings lead by tuberculosis bacteria and polio virus.</i>
TBR PNR	TUBER POLIO FOLLICULAR GLUCOMA		MVB	<i>Lump in pancreas or liver led by tuberculosis in the folicular and glucogen cells.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

TBR POC	TUBER POLIO OSTEO CARCINOMA		MVB	<i>A lump led by tuberculosis affecting nerves and bones. Often seen in cartilage and often with TB Cartilage.</i>
TBR PSH	TUBER POLIO SCHWANNOMA		MVB	<i>A lump based on tuberculosis bound to nerves with the polio virus and the schwann cells.</i>
TBR PSQ	TUBER POLIO SQUAMOMA		MVB	<i>A lump lead by the bacteria, tuberculosis with the polio virus and sqamous cells joined in. A very good candidate for nerves involving eyes, but not limited to such.</i>
TBR SMX	TUBER SPONGIO MYXOMA		MVB	<i>A compound lump lead by tuberculosis bound with spongy cells and mixed with myxovirus. First found on gall bladders and in prostates and ovaries.</i>
TBROMA	TUBERCULOMA		MVF	<i>Lump anywhere in body based on several Tuberculinum miasms</i>
TBS	TO BE SAFE	2-7	B	<i>A mild form of active TB is beginning to come through the air systems of large buildings (not yet contagious).</i>
TEA 50B	THYROID ENZYME ACTIVATION 50B		MVB	<i>A thyroid enzyme that dissolves ascites (lymph/albumin) and activates the liver to break down subsequent albumin for digestion.</i>
TEM IMU	TEMPERATURE & IMMUNITY		MVF	<i>Pituitary-based remedy. Brings internal temperature back up comfortably in way that will move coagulated lymph, prevent infection, digest better and control fluids. People who have condition hardly sweat.</i>
TES BLK	TESTOSTERONE BLOCK		MVB	<i>Adrenal-based effort to free a basic hormone</i>
TESTOS	TESTOSTERONE RESTORE		MVB	<i>Brain based- suppression of adrenal function to make testosterone.</i>
TET CEF	TETANUS ENCEPHALITIS	2-5	B	<i>Mimics carpel tunnel and trichinosis together. Weaken wrists, makes forearm rotation painful and can even put arms to sleep.</i>
THAL	THALLIUM ANTIDOTE	2-7	C	<i>A major nerve poison player in MS cases from dental work.</i>
THAL A	THALASSEMIA A		M	<i>Thalassemias are the most common blood diseases in the world and in 80% of the population. Usually used with a kidney remedy</i>
THAL B	THALASSEMIA B		M	<i>Thalassemias are the most common blood diseases in the world and in 80% of the population. Usually used with a kidney remedy</i>
THAL C	THALASSEMIA C		M	<i>Thalassemias are the most common blood diseases in the world and in 80% of the population. Usually used with a kidney remedy</i>
THAL E	THALASSEMIA E		MVB	<i>A blood disease that causes subjects to be generally tense, restless and manifest physical problems because of the lowered immunity. (undiscovered by science in 2000)</i>
THIN	THIN		MVF	<i>Thyroid/Parathyroid joint miasmatic condition that causes liver to form heparin. Heparin binds mucous, carbohydrates, insufficiently digested amino acids, and calcium to cause weight. Take with THINNER.</i>
THINER	THINNER		MF	<i>Joint action of pituitary and adrenals to take heparin (half formed prostaglandin) to full prostaglandin which will convert the elements that Heparin holds (mucous/carbohydrates/insufficiently digested amino acids/calcium) into energy. Take with THIN.</i>
THK AD	THICK AMYLOIDOSIS DISSOLVE		ENZ	<i>An enzyme group that dissolves general amyloid tissue deposits.</i>
THK AML	THICK AMYLOIDOSIS DISEASE		MVB	<i>A bone/liver disease that insufficiently converts glycoprotein (mucous), leaving a waxy, thick substance that binds and clogs whatever area it is in. The material attracts and holds a wide assembly of chemicals, metals and other toxins. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK BDC	THICK BRAIN DROSS CLEANER		ENZ	<i>A group of enzymes that eat amyloid deposits in brain. Best taken with THK BRN.</i>
THK BRN	THICK BRAIN		MVB	<i>A deposit of amyloid tissue (tapioca-like protein mixed with carbohydrates) that fills in around the cell area and reduces function. Also affects heart, nerves and liver. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK COL	THICK COLLAGEN		MVB	<i>A deposit of amyloid tissue in the collagen (protein of reticular fibrils that forms the elastic fibers of the tendons, ligaments and connective tissue). Related to translocation chromosome structure). Use with BON HRD for stria. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK FUL	THICK & FULL		MVB	<i>Hair regain formula w/added remedy for hair-eating bacteria. Thick was already working. Now we want more of the full.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

THK HRT	THICK HEART		MVB	<i>A secondary amyloidosis that deposits amyloid tissue (waxy, starch-like, mucousy protein, mixed with carbohydrates) in the heart. It is related to the "isochromosome" structure. Congests the heart and valves in the heart septum, causing the heart to work harder. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK LPD	THICK LIPID		MVB	<i>A deposit of amyloid tissue encasing lipid cells, involving "isochromosome" chromosome structure. The tapioca-like substance forms a waxy fat with lipid cells. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK LYM	THICK LYMPH		MVB	<i>A deposit of amyloid tissue in the lymph related to the "inversion" chromosome structure. It thickens lymph, impairs perspiration and adds to some weight conditions. Sometimes involves blood, kidneys, spleen. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK NRV	THICK NERVES		MVB	<i>A secondary amyloidosis that deposits amyloid tissue (waxy, starch-like, mucousy protein, mixed with carbohydrates) in the nerves. It is related to the "duplication" structure. It causes nerves to underfunction, strangling many organs of the essential neurological stimulation. In a different way from THK BRN and its relationship to Alzheimer's, this relates strongly to memory loss. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK PLS	THICK PLASMA		MVB	<i>A deposit of amyloid tissue (tapioca-like protein mixed with carbohydrates) that fills in around the cell area and reduces function. In the plasma, it may play multiple clogging roles in addition to making the most fundamental aspects of the cell unavailable. Also affects heart, nerves and liver. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK SKN	THICK SKIN		MVB	<i>An amyloid condition causing a whitening of the skin. Usually this is with a skin fungus like one of the tineas, trichophytions or lichens. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK TIS	THICK TISSUE		MVB	<i>A combined hereditary and secondary megaloblastic amyloidosis. Commonly found in people who develop a "fleshiness" with weight. Take with equal or more bottles of THK AD and PRTNOS.</i>
THK TMR	THICK TUMOR		MVB	<i>Spotty deposits of amyloidosis that encourages tumors to form. Take with equal or more bottles of THK AD and PRTNOS.</i>
THL ROS	THALAMUS ROSE		MVF	<i>A lump on the thalamus that causes a wide-spread diffuse block of many hormone receptor sites. Subjects manifest compound endocrine problems.</i>
THLOMA	THALOMA		MVB	<i>Lump in the thalamus</i>
THROMB	THROMBUS		MVF	<i>Lump in (not on) the wall of the artery impeding blood flow. It is one of the causes of thrombosis, a term which officially includes the blockage of arteries by loose particles as well as this kind of growing lump.</i>
THY MIM	THYROID MIASM		M	<i>A Typhoid-based carryover from our ancestors</i>
THYG CS	THYROGLOSSAL CYSTITIS		MVB	<i>An infection of the pyramidal extension of most thyroids into the glossal duct. The thyroid tissue in this duct extends from the thyroid, past the Adam's apple to the tongue. There seems to be some special relationship of this area to double chins and production of thyroxin. Take with a little dulse 1 tab/morn or 7drops/morn).</i>
THYMOM	THYMOMA		MVB	<i>Specific mass/tumor found on the thymus which controls lots of your immunity and strongly interfaces with the health of the heart.</i>
THYROX	THYROXINE RESTORE		MVB	<i>Based on the hypothalamus/pituitary connection, this builds and stimulates the thyroid from a location outside the thyroid.</i>
TIC HER	TICK HERITAGE		MP	<i>Inherited sensitivity and affect of what is today called tick Lyme disease. Tiredness, swelling, especially around tick bites.</i>
TIC POI	TICK POISON		T	<i>Venom of tick lodging in thymus to cause tiredness.</i>
TIC TOX	TICK TOXINS	2-4	B	<i>Ticks involved in Spirochete leave residual bacteria and viruses, most of which this covers.</i>
TINNUM	TINEAINUM		M	<i>Miasm of common hair fungus. Used in Sparse Hair, Monk Hair and Receding Hair Line</i>
TINu	TINNITUS u		VF	<i>Improvement on previous remedy for ringing in the ear.</i>
TIR CRN	TIRED & CRANKY		MVB	<i>A miasm based insufficiency of adrenals. Long term pattern of getting so tired that the person is uncontrollably cranky. (Especially in menopause)</i>
TIS TON	TISSUE TONER		T	<i>Removal of unattached calcium and carbon dross</i>
TLC	THYROID LIVER CONNECTION		MVF	<i>Prepares cholesterol for the thyroid to use in the synthesis of thyroid hormones</i>
TMS FEV	THYMUS FEVER	2-7	V	<i>Thymus and thyroid are both affected by thymus fever. Often seen with long history of illnesses.</i>
TMS OPN	THYMUS OPEN	3-5	VF	<i>Fever/fungus (actinomycosis) blocking immune system</i>
TMS SRG	THYMUS STRONG	1-4	VP	<i>One of the strongest boosts to immunity we've discovered yet, especially when the immune system is compromised.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmic-based remedies generally take from 10-16 bottles

TOLO	TORULOSIS		F	<i>A form of candida known to often simultaneously attack intestines and lungs. I believe it is different from the form of blastomycosis claimed by medicine</i>
TON TON	TONSIL TONING		RVF	<i>Brain is slowed by remnants of mumps, chicken pox and a few funguses</i>
TONIT	TONIGHT		MV	<i>Combination of brain, adrenal, prostate and nervous system releases for some men with erectile difficulties.</i>
TOO BLD	TOOTH BUILD		MVB	<i>Aimed at helping a tooth fill back in after an infection is gone.</i>
TOR BAS	TOURETTE'S BASE		MVB	<i>The inherited foundation with common bacteria that allows Tourette's. Add the animal bacteria or toxin that constitutes the form of the jerking and mental reaction</i>
TORO	TORO	3-7	RV	<i>The most common residues that cause T esticles OR O varies to swell. Also check MDC.</i>
TOXO	TOXOPLASMOSIS	1-5	P	<i>A more direct approach to the parasite when it is in other organs than the pancreas (kidneys, adrenals). Uplift/Sassafras oil still good for pancreas-location</i>
TRD ARK	THYROID SPARK		MVB	<i>A lump in the median preoptic nucleus of the hypothalamus that prevents the release of Thyroid Stimulating Hormones (TSH) and Gonadotropic Hormones from pituitary. Reduces the production of vital T3 & T4 hormones in the thyroid needed for metabolization.</i>
TRD BLD	THYROID BUILDER		MVB	<i>A pituitary/pineal/bone/seminovale remedy to bring many elements together to build the thyroid.</i>
TRD BLZ	THYROID BLAZE		MVF	<i>Aimed at helping free the raw ingredient in the bone for T-3 (Thyroid hormone) development. T-3 is missing in most thyroid medication.</i>
TRD BSC	THYROID BASIC		MV	<i>Releases Thyroxine-binding globulins (TBG) which, among other functions, are needed for the absorption of iodine (main food of thyroid) and the thyroid hormone T4.</i>
TRD CAL	THYROID CALCIUM		RVB	<i>Thyroid affecting parathyroid in a way that does not allow the calcium to be converted to usable form. Related to KID CAL and AST CYT.</i>
TRD CLG	THYROID CLOG		MVB	<i>Causes phlegm in throat and some foods to "catch" in throat. Affects heart (sometimes causing myxoma and lumps). Can cause lumps in kidney which cause edemic weight.</i>
TRD CLR	THYROID CLEAR		VC	<i>Antidote to a little-known virus and the aluminum, flouride and chlorine that it traps in the thyroid. Hypofunctioning thyroid lead to tiredness and weight.</i>
TRD EAR	THYROID EAR		VB	<i>Adeno/Diphtheria/SAD a combination of thyroid pathogens. Involves ears plus depression, especially in absence of sun.</i>
TRD FLK	THYROID FLUKES	2-6	P	<i>Deterioration of Thyroid.</i>
TRD HIT	THYROID HEIGHTS		MVF	<i>Altitude causes malfunction of all thyroid tasks.</i>
TRD HOR	THYROID HORMONES		BF	<i>Fungi and candidi that depress the thyroid hormones and drain the adrenal hormones</i>
TRD MET	THYROID METABOLISM DISEASE		MVB	<i>The condition prevents the thyroid from metabolizing oxygen and performing one of its major roles in metabolization. See also Lungthyroid Toxicosis.</i>
TRD MM	THYROID METABOLIZING MACHINE		MVB	<i>This formula helps the thyroid use iodine to prepare sodium for the transportation of metabolites (responsible for metabolization) throughout the body. Take with LIV MET; sometimes with HYP MET.</i>
TRD NRV	THYROID NERVES		MRB	<i>Infections in the teeth nerves and and bacteria from bone infections can interfere with the nerves to the thyroid and stop stimulation that helps it work. Often good for appx 20% improvement in thyroid function.</i>
TRD OPN	THYROID OPEN	3-12	VF	<i>Fever/fungus (actinomycosis) of thyroid removal (and this subsequently feeds thyroid). Dulse needed when rebuilding thyroid.</i>
TRD OX	THYROID OXYGEN CONVERSION		MVB	<i>Pathogenic combination blocking thyroid from using oxygen for metabolizing. Involves carbon blockages.</i>
TRD OXY	THYROID OXYGEN		MRB	<i>A hypothalamus-based remedy that unbocks the thyroid function in the absorption of oxygen.</i>
TRD PLS	THYROID PARALYSIS		VB	<i>Nerve bacteria (a form of clostridium) surpressing thyroid. Possible adjunct to cellulitis issues. Also long-term, thyroid-related depression.</i>
TRD REL	THYROID RELEASE		VF	<i>Unleashes thyroid hormones and activities that were blocked by pathogens from carbohydrates.</i>
TRD SHE	THYROID SHEATH INFECTION		MVB	<i>The usual cause of iodine non-absorption in the thyroid and the starting factor for goiters. Iodine is considered the chief food of the thyroid. Take with a little dulse 1 tab/morn or 7drops/morn).</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

TRD SPC	THYROID SPICE		MVB	Common thyroid disease as evidenced by double chins. Remedy spices up your digestion,spices up libido, spices up hormones,regulates kidney cause of low blood pressure, spices up blood strength.
TRD SQA	THYROID SQUASH		B	A little known bacteroid can cause a long-term, unnamed disease of the thyroid. Typical cold hands, cold feet, never-warm-enough symptoms.
TRD SRG	THYROID STRONG	2-6	V	A high potency thyroid triple virus. Appx 50% of the population tests for it.
TRD SRK	THYROID SHRUNK		VB	As implied, the organ literally shrinks and doesn't work well. Area of skin around thyroid appears wrinkled.
TRD STN	THYROID STONES	3-7		Formed from a strange mixture of blood and thyroid substances.
TRD TRD	THYROID TIRED		MVB	A form of inherited thyroid insufficiency based on family teeth problems
TRD TUM	THYROID TUMOR		VB	Non-inherited infection of thyroid from mycobacteria and virus
TRD VIR	THYROID VIRUS	3-5	V	Weakened Thyroids have this like a cold. Check before going to Low Thyroid.
TRDOMA	THYROIDOMA		MVB	A lump/bump on the thyroid decreasing its ability to function. See also TRD TUM and GOITER.
TRIR	THYROID RADIOACTIVE IODINE REVERSE		CB	Iodine 131 is used to kill diseased thyroids. The remainder of iodine continues problems and needs to be REVERSED.
TRKM	TRICHIMONIS	1-4	P	A parasite most known for vaginal discomfort that often accompanies Chlamydia and Gardnerella.
TRN TRD	TRENCH THYROID	10-12	MB	A miasm involving both Trench Fever and Malaria
TRN VLV	TRUNCUS VALVE DEFECT		MVB	Blood flow to lungs is shunted from right ventricle of heart to aorta before entering pulmonary arteries. Causes shortness of breath, pain on side of legs and enlarged nose
TROXEM	THYROXEMIA		MVB	Bone-based approach for freeing all elements in the bones that make thyroid hormones ready for thyroid distribution.
TRTOMA	TERATOMA		MVF	A lump composed of different kinds of tissue, none of which normally occur together or at the site of the lump. Most commonly seen in the ovaries or the testes.
TTM	THE THREE MIASMS	10-12	M	Triple splice of Tuberculosis, Syphilis, Gonorrhea. Few have this - usually splices are of 2 miasms.
TUB CAR	TUBERCARCINOMA		MVB	A carcinoma based on the bacteria, tuberculosis. Included in CDC.
TUB CLM	TUBERCULINUM/CHLAMYDINUM	10-12	M	Spliced miasms most affecting eyes and giving vision problems
TUB FLU	TUBERCULINUM FLU	10-12	M	A double miasm that causes or is involved in kidney-related water weight (edema).
TUB MED	TUBERMEDORRHINUM	10-12	M	Spliced Miasm of Tuberculosis and Gonorrhea. Behind most cases of gnarly hands, lots of alopecia cases, etc.
TUB POL	TUBERCULINUM POLIO MIASM		M	A missing link, as an alternative to Polio Miasm, for the eye muscles to let the eyes regain their shape (and vision)
TUB RIK	TUBERSCULINUM RICKETS		MR	Miasm base of skin rashes and "pimples" that break out with exposure to the sun. See TUB SCR for sun-generated skin cancer
TUB SCL	TUBEROUS SCLEROSIS		MVF	A neurocutaneous disease with adenoma sebaceum, nodules and sclerotic patches in the cerebral cortex, retinal tumors, depigmented leaf-shaped macules on the skin, tumors of the heart and kidneys, pitting or deterioration of teeth enamel.
TUB SCR	TUBERCULINUM SCURVY	10-12	MR	Miasmatic weakness of skin to sun that may turn into skin cancer. Redheads, most Irish and others are likely candidates
TUB SYF	TUBERSYPHILINUM	7-10	M	Spliced Miasm of Tuberculosis and Syphilis. Behind Sprue, Lupus, Cystic Fibrosis etc. etc.
TUBNUM	TUBERCULINUM	12-18	M	One of the classic, early miasms concerning mostly bones, skin and eyes and involved in kidneys, blood
TWO POL	TWO POLES	3-7	MFB	Tuberculosis miasm in brain attracts pituitary funguses and CLM GRN for bipolar depression. LMF GRN also needed sometimes.
TXOLS	TOXIC OIL SCLERADERMA		MVB	An inherited gall bladder condition that causes contraction of tendons usually by displacing fingers and toes in a contorted manner
TYFD	TYPHOID	2-5	B	Typhoid may play a role as a disease, part of lymes, bone spurs and as a residue.
TYFD M	TYPHOID MIASM	10-12	M	Settles in Peyer's patches and decreases HCL for digestion. Causes dark 1/3 circles under eyes when in G.B..
TYFS	TYPHUS	2-5	B	Rickettsial fever of bleeding poxes, vascular constriction, kidney stoppage & spinal encephalitis. Residue may be similar..

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

UP & GO	UP & GO		F	<i>A flesh-deteriorating slime of a fungus that gets into all parts of the body, especially the brain. May clog many an organ in a mucous ++ way.</i>
URC HRP	URIC HERPES	5-7	MVB	<i>A typhoid-based impairment of the gall bladder's ability to break down uric crystals. They deposit in kidneys causing gout, etc</i>
URT STN	URETHRAL TRACT STENOSIS		MVB	<i>A narrowing of the urethral tract from the bladder that may allow scant voiding despite strong urge. The backed-up urine may cause bladder and urinary tract infections.</i>
UVITIS	UVEITIS		MVB	<i>Causes swelling/redness of whole eye, often to the point of near blindness.</i>
UYL FEV	URBAN YELLOW FEVER	6-9	R	<i>Residue variation of familiar Yellow Fever. Used with some Diabetics. Chief symptom is craving (presently or formerly) for sodas (soft drinks)</i>
VAC BRN	VACCINATION BRAIN PARALYSIS		VBC	<i>Media of the vaccination plus bacteria gained in the process infects the brain. With autism, add REGRET; with flailing of arms & body, add DISTEMPER; with hyperventilation-like cough, add Bordetella Pertussis.</i>
VAC FNG	VACCINATION FUNGUS	2-5	FC	<i>The infamous maduramycosis together with elements used to clean monkey kidneys and make vaccinations</i>
VAC NW	VACCINATION NERVES & WEIGHT		MVF	<i>Aimed at Histidinemia, an inherited disease often activated by vaccinations that deteriorates nerves, causes a "pudgy" weight and can impair mentality.</i>
VAR ULC	VARICOSE ULCER	7-10	VB	<i>Often in leg ulcers and can also be in eyes, heart, pancreas, etc.</i>
VAR VEN	VARICOSE VEIN		MVB	<i>Vein Weak has worked well for most cases of Varicose Veins, but a wider version works better for other cases</i>
VAR VEN2	VARICOSE VEIN2		MVB	<i>An improvement on a previous remedy for varicose veins.</i>
VEG FNG	VEGETABLE FUNGUS		F	<i>On red, yellow or orange vegetables. Blocks carotenes, lycopenes and xanthophylls. Robs vitamin A and contracts mucous muscles.</i>
VEN TEN	VEIN TENSION		MVF	<i>Anterior pituitary emits hormone which pushes lymph out of veins so that it deposits toxic weight in body. Also check BON LMF</i>
VEN VLV	VEIN VALVES		MVB	<i>Hardening of the valves in the veins that prevents strong return of blood to heart. Low pulse, low blood pressure, impotence.</i>
VEN VOL	VEIN VOLUME		MVB	<i>Aimed at Arterioembolic Kidney Disease. Slowly contracting veins cut down lymph drainage causing low blood pressure, decrease blood volume to heart/lungs for oxygenation. Subjects are winded easily, sweat little, have decreased thirst (dehydrate easily).</i>
VEN WEK	VEIN WEAK	7-10	RF	<i>Diphtheria with fungus. Test on spider veins, varicose veins, bursting veins in eyes and head.</i>
VEN WEP	VEIN WEEP		MVB	<i>Corrects an inherited issue which makes the veins strength too weak to hold blood contents at high altitudes. A leakage of plasma, platelets, salts and hormones causes ascites and joint toxicity.</i>
VEN WRM	VEIN WORM	3-5	P	<i>An ignored round worm in science gets into the veins especially around varicose veins and some brain issues</i>
VES DGN	VESSEL DEGENERATION		MVB	<i>Highly associated with Wegener's Granulomatosis. May appear simultaneously with nasal, lung and kidney conditions in a deteriorating fashion.</i>
VIB PAR	VIBRIO PARAHAEMOLITICUS		B	<i>Bacteria that is major part of hair loss. Now included in other hair formulas. Can be taken alone.</i>
VIBE UP	VIBE UP			<i>An ambitious attempt to attune the body automatically as the earth changes its Hertz vibratory rate</i>
VIPOMA	VIPOMA		MBF	<i>Tumor of non Beta pancreatic islet cells causing watery diarrhea, insufficient calcium in blood and insufficient hydrochloric acid for digestion. Often with parathyroid problems and insufficient iron in blood.</i>
VITIL	VITILIGO		MVB	<i>A depigmentation of the skin based on inherited factors and triggered by other factors related to red blood cells</i>
VLV STG	VALVE STRENGTH		MBF	<i>For organ valve tissue and nerves of ileocecal valve, bladder valves, gall bladder valves, heart valves (see also HVD) and lymphatic valves.</i>
VN BDMA	VEIN BODYOMA		MVF	<i>Vein body tumor. Slows drain of deoxygenated blood which causes oxygen deprivation of whole body. Slowness invites infection when blood gathers/stagnates.</i>
VOC REL	VOICE RELEASE		MVB	<i>The strained or crackly or husky voice that often comes with miasms/age.</i>
VPV	VISCERAL POLYPS VIRUS	3-5	V	<i>Ubiquitous virus that binds with other viruses, bacteria, fungi, residues, miasms.</i>
VRL ENC	VIRAL ENCEPHALITIS	3-9	VB	<i>A spinal issue that strongly resembles Polio.</i>
VRL MEN	VIRAL MENINGITIS		V	<i>Virus attacking the covering of the nerves mostly in the central nervous system.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

VRL PNM	VIRAL PNEUMONIA		V	<i>Deep respiratory virus that feels like a combination of a cold and a flu. Coughing, sometimes fever and spinal achiness (which are also symptoms for other kinds of pneumonia) See CLM PNM, KLB PNM, PNM RES.</i>
VSD	VENTRICAL SEPTAL DEFECT		MVB	<i>Unclosed hole in lower mid wall of heart which doesn't allow blood from lungs to bring enough oxygen. Shortness of breath, easy sweating.</i>
VTNUM A	VITAMINUM A		M	<i>Miasmatic Deficiency of Vitamin A causes dry eyes, liver dysfunction and nerve withering</i>
VYN COG	VINYL CONGESTION		C	<i>Some people are allergic to plastic or vinyl, even to sit on (while clothed).</i>
WARTS	WARTS		VF	<i>Skin lesion virus that often is rough in appearance. Sometimes they appear as flesh-colored and smooth in clusters on the face, neck, wrists, hands and knees. Sometimes they are flat, almost not raised in varying shades of flesh.</i>
WAT COL	WATER COLLECT		MVB	<i>An inherited kidney condition that causes water to leak from the kidneys into the body.</i>
WBC FNG	WHITE BLOOD CELL FUNGUS		F	<i>When the white blood cells have gorged themselves with partially dead red blood cells, a fungus emerges in liver (w/liver)</i>
WELD WF	WELDERS WHIFFS		C	<i>Designed for the arsenic based fumes that welders are primarily exposed to. See also IG</i>
WHOO M	WHOOPIING COUGH MIASM		M	<i>May partially explain brain damage from shots including Pertussis (the most dangerous part of a DPT shot)</i>
WHOP FD	WHOOPIING FEDS		VB	<i>Heavy, hacking cough especially when lying down. Phlegm, fever/chills, weakness, stiffness, different aches for different people. Sometimes needs Fusiform Nasopharynx for lingering phlegm. Courtesy of government contrails.</i>
WHT BRN	WEIGHT BORN		MBF	<i>For those who were born as heavy children and remained so into adulthood. May be linked with Weight Miasm</i>
WHT BST	WEIGHT BUSTER		VB	<i>Parathyroid based viruses cause water retention</i>
WHT LOS	WEIGHT LOSE		MVB	<i>Adrenal-based, hormone suppression that helps prevent metabolism and adds to weight holding. For lipedema add SLP WEL, LIP LOS CRB BLK & FOD BLK</i>
WHT M	WEIGHT MIASM		M	<i>Combination of miasms that may be a family issue of weight for some</i>
WHT REL	WEIGHT RELEASE		MVF	<i>The weight held by adrenal clogging and hormonal thwarting may yield to this formula</i>
WHT VIR	WEIGHT VIRUS	10-12	MVB	<i>Inherited weight (only) that runs in the family. Candida program and LMF WHT/CLM TRA for current weight issues.</i>
WILL M	WILL MIASM	10-12	M	<i>People report gain of solid sense of self and mission. Permanent removal of implants and basis of mistaken ET contract.</i>
WILSON	WILSON'S DISEASE		MF	<i>Copper Surplus inherited condition marked by mild drooling, headaches, tremors, inability to speak, gold-greenish rings in the cornea.</i>
WK LVBL	WEAK LIVER/BLOOD		MB	<i>Blood disease (PCDUS) associated with Inherited hypercholesterolemia, liver diseases, biliary tree, liver spots, hemorrhages, neurological</i>
WLDWLM	WILD WILMA'S	10-16	MVB	<i>Marie Strummel's Disease is a form of arthritis that curls the hands outward and contracts them.</i>
WOW CEL	WOW CELLS		MBF	<i>Condition of brain (Thalamus) that causes adrenals to produce a prostaglandin that creates histamine receptors/binders with calcium which makes carbohydrates less assimilatable. the condition converts stress to weight. We're open to a better name.</i>
WOZ ADN	WOOZIE ADRENALS	6-10	MF	<i>Inherited slowness of adrenal causing perpetual tiredness and drained thyroid, increasing to weight problems and depression.</i>
WRINKL	WRINKLES		MVB	<i>Gall Bladder-based, miasmatic remedy to rectify weakness in absorbing oils and producing collagen which are so necessary for preventing wrinkles</i>
WTC AFT	WTC AFTERMATH		BC	<i>Chemtrail. Symptoms are queasy after eating, headaches (sometimes), exhaustion, coughing (sometimes). Worse with dairy products. Sounds like the western world way of life these days.</i>
XOTROP	EXOTROPIA		VB	<i>Nicknamed "Wall Eye" because at least one of the eyes aims outwards towards the wall.</i>
YEL FEV	YELLOW FEVER	7-9	R	<i>A residue (or actual case) Missing link in diabetes. With diabetes, also check CPCD, SWT VIR, Can Pan., PANFLK.</i>
YEL HRP	YELLOW FEVER HERPES	3-6	RVB	<i>Especially prevalent in Liver/Pancreas connection with symptom of complete intolerance to alcohol.</i>
YES SIR	YES SIR		MV	<i>Combination of brain, adrenal, prostate and nervous system releases for some men with erectile difficulties.</i>
YF D C	YF D C	3-5	RVB	<i>Yellow Fever/Diphtheria/Coxsackie - Liver/Pancreas problems. See also BD Flukes, YEL HRP.</i>
ZNC CLD	ZINC CHLORIDE		C	<i>Imbalances electrolytes for digestive and adrenal distress and locks in respiratory distress. Part of contrail spraying in 99</i>
ZNCNUM	ZINCINUM		M	<i>Zinc Deficiency Miasm affects prostates, eyes, livers and shows up in stretch marks in the skin.</i>

HEALERS WHO SHARE TESTINGS

JUNE 30, 2002

B=Bacteria; C=Chemical; D=Disease; E=Emotional; ENZ=Enzymes; F=Fungus; M=Miasm; P=Parasite; T=Toxins; V= Virus

Miasmatic-based remedies generally take from 10-16 bottles

ZNG ZNG	ZING ZING		<i>MVF</i>	<i>A scientifically unidentified parathyroid disease. Unblocking it allows the transformation of calcium in adrenals/kidneys, multiple hormones, bones, lymph and weight channels.</i>
ZZZ	ZZZ	1		Sleep aid
