

APPENDIX H

MEDICAL ASSESSMENT CHECKLIST
SAMPLE FORMAT

H-1. General

a. This appendix provides a tool for use in assessing the health care delivery system and the medical needs of a HN or US-backed group. This checklist is intended only as a guide and may be modified for use as the situation dictates.

b. This checklist is arranged by category of information. The more detailed the information obtained, the better this checklist will aid the medical planner in correctly assessing the medical requirements and developing the requisite programs for alleviating the identified deficiencies. Additional

information in the form of brochures, magazine articles, or newspaper articles or advertisements of medical facilities, health service education programs, and medical equipment or supplies available will also assist in the planning effort.

c. The mission reconnaissance checklist presented in Appendix K is of a more limited scope and is intended for the assessment of a specific village or district.

H-2. Medical Assessment Checklist

GENERAL INFORMATION

Name of Location _____

Map Grid Coordinates _____

Topography (such as mountains or desert) _____

Climate (such as tropic or arctic) _____

Temperature Ranges:

Summer _____ to _____

Winter _____ to _____

SAMPLE

Significant Seasonal Variants (such as monsoon season) _____

Availability of Water

Source	Quality	Quantity	Contaminants
