Other abbreviations and notes

[Diry] - Directory Assistance Exchange

(T-PT) - exchange reserved for phone testing

[T-??] - exchange listed as active for phone testing

(950S) - reserved for special long distance services

[976S] - reserved for special announcement services

Queb?? - some activity reported in previous years; could have been
an old Quebec exchange or other active prefix

Note and Comment

Corrections and additions to the 418 list would be appreciated; check the master notes that should be present with Tel Codes for more details. For instance, information on cellular or pager exchanges is unknown.

997, 998 seem to have been listed in phone book, but don't seem to be confirmed through other sources.

Somewhat crowded in this area code, although the only really major centre would be Quebec City, with only a few medium-sized places such as Jonquiere-Chicoutimi. Most of the exchanges are taken by a lot of individual communities and exchanges in remote areas.

Baie-Comeau gets plenty of exchanges. That's what happens when your home town has a prime minister ...
