[T-PT] - in service for phone testing

(T-PT) - reserved for phone testing
(950S) - reserved for alternate long distance service
(976S) - reserved for special announcements services

Note and Comment

December 1991 updates: 393 Tracadie, 465 St Stephen, 545 Bathurst, but none of the major places in N.B. have picked up new prefixes for months.

Here is the New Brunswick prefix chart. New Brunswick local service is provided by NBTel. Nothing too earth-shattering for 1991 but for a few new prefixes: Fredericton (451), St John (557, 639, 643), Caraquet (726) and some test numbers have now been determined.

An NBTel source mentioned that the 98X exchanges were for payphones in Fredericton, Moncton and Saint John, the largest centres in New Brunswick.

International local calling exists between:

- McAdam, NB and Vanceboro, ME
- Clair, NB and St Francis & Ft Kent, ME
- Edmunston, NB and Madawaska, ME
- St-Leonard, NB and Van Buren, ME
