Notes on 514

Any additions, corrections or news in the 514 area would be appreciated. See the Tel Codes general notes for more information.

As of December 1991, a few new prefixes were listed since the previous March 1991 release. Mostly, these were a few new Montreal numbers (834, 855, 997, 998) plus a new St Eustache (974) and a new St Lambert (926). Otherwise, 514 is not a massive growth area at this time and will likely have plenty of room for new prefixes for years to come.

To make this list printer-friendly, accents have been dropped.
