Other abbreviations

??? - unknown exchange which appears to be active
 ?L? - exchange active, but unknown (and long distance from London)

[Diry] - Directory Assistance Exchange
 [Pgr?] - This exchange active for some special service, likely for pagers
 [T-ID] - Used for number identification testing
 [T-TK] - Used for plant talk
 [T-??] - Used for unknown type of testing
 [1] - 873 exchange was formerly Forest (now 786); now it appears to be out of service
 [976S] - 976 Service - for special announcements, party lines, etc.

(950S) - reserved for special long distance services
 (T-??) - reserved for phone testing

Notes on 519 area

Most new prefixes March-November 1991 are in London: 430, 850, 858, 878. Guelph got 766 in 1991.

March 1991 new prefixes: 246 Strathroy, 464 Sarnia, 572 and 883 Kitchener-Waterloo.

Between March and September 1990, 519 added some Hespeler (240, 241), London (457, 680), Brantford (751), Stratford (272), Kitchener-Waterloo (571), St Thomas (637), Windsor (250), and stragely enough, a new Fergus 787 exchange. A new pager exchange 550 is likely a recent add as well.

Exchanges just before March 1990 edition: Woodstock 421; Ingersoll 425; London 642, 646, 670, 671, 675; Kitchener 570, 725, 895, 896; Hespeler 651 (and 654 the year before (hungry little exchange there... plus the all-new 240, 241 prefixes added after that time)).

Meanwhile, Forest got moved from 873 to 786 many years ago. 873 is no longer in service, at least as a Forest exchange.

Independent phone companies formerly working within a Bell exchange have split off into separate exchanges. Note the Clinton, Norwich, and Woodstock independent exchanges, and more recently independent exchanges in Hensall and Seaforth. Apart from the new exchange number, the independent exchanges generally function the same as the exchange from which they were split from in terms of local calling area. Alvinston recently split up its exchange like this, also.
