Ganano - Gananoque	Orlean - Orleans	Winche - Winchester
Gilmou - Gilmour	Osgood - Osgoode	Wellin - Wellington
Glouct - Gloucester	Ott - Ottawa-Hull	WolfeI - Wolfe Island

Special notes:

(Hull) - Hull exchanges in area 819 are listed here for reference
 Ott GV, or Ottawa Gov't - Federal government exchanges in Ottawa
 HullGV - Federal government exchanges in Hull
 Ott/C - Ottawa cellular number

The following codes identify an exchange in 819 area, but are close to Ottawa; these are likely unavailable for use in 613 because they would conflict with Ottawa dialing (or cause future conflicts if an exchange becomes part of the Ottawa-Hull local area):

<Aylm> - Aylmer	<Lusk> - Luskville
<Buck> - Buckingham	<Perk> - Perkins
<Chel> - Chelsea	<Quyo> - Quyon

<Gati>	-	Gatineau	<SPWk>	-	St Pierre de Wakefield
<Kaza>	-	Kazabazua	<Thur>	-	Thurso
<Low >	-	Low	<Wake>	-	Wakefield

Other abbreviations

- ??? - unknown exchange local to Ottawa
- ?L? - unknown exchange long distance to Ottawa
- [Diry] - Directory Assistance Exchange
- [Pgr?] - This exchange active for some special service, likely for pagers
- [T-ID] - Used for testing, for number of calling phone
- [T-TK] - Listed as a talk test
- [T-T0] - Test with tone
- [T-??] - possible test service of unknown type
- [976S] - 976 Service - for special announcements, party lines, etc.
- (T-PT) - reserved for phone testing
- (950S) - reserved for future alternate long distance service

Notes on area 613

This list mentions the 613 exchanges, as well as listing relevant area code 819 exchanges in the Ottawa-Hull region. Exchanges for federal government services are specially marked and sorted as to which province (and hence area code) they belong to.

The Ottawa-Hull exchange is unique in that its exchange is split across two area codes. All the Ottawa-Hull exchanges are listed here, and so far none of the Hull (area 819) exchanges are in conflict with other 613 exchanges, although some exchanges on the Ottawa side are the same as some used in Drummondville, Quebec (in area 819); other instances of Ottawa (Ontario-side prefixes) appearing in 819 can be found.

Care would have to be taken with Ottawa's local dialing area, since it covers both sides of the provincial border. Thus, exchanges in Quebec that are local to Ottawa (or close enough that they could someday be local) would have to be protected.

Yes, you read right, area code 613 for Eastern Ontario has a St Regis QUEBEC (575 prefix). Furthermore, it has local calling privileges to Fort Covington NEW YORK, USA. (There are a few other examples of cross-border local dialing around; see area code 807 document for the Minnesota connection, or a bunch in area 506).

Many of the mystery exchanges (the ones with question marks like ??? and ?L?) are often found to be active only in certain areas. These can be testing exchanges, or new exchanges forming, some strange modifications to the telephone switching systems, or perhaps new prefixes forming.
