Eskimo - Eskimo Point	Repuls - Repulse Bay
GriseF - Grise Fiord	Resolu - Resolute
HallBe - Hall Beach	Saniki - Sanikiluaq
Iglool - Igloolik	WhaleC - Whale Cove

Other abbreviations

[Diry] - Directory Assistance Exchange
[Test] - Used for testing
[976S] - 976 Service - for special announcements, party lines, etc.

(Purt) - old Purtunig NWT prefix; appears to have vanished from service
(T-PT) - reserved for phone tests
[T-PT] - test prefix listed as active
[T-TK] - test talk prefix listed as active
(950S) - 950 prefix is reserved for special long distance services

Note and Comment

Few changes were found in 1991 (as of November 1991). A few new prefixes in Sherbrooke and Trois-Rivieres were found, but otherwise little growth in the area code was found.

819 includes the eastern portion of the Northwest Territories under Bell Canada's jurisdiction. The western NWT and Yukon covered under the Northwestel phone company are in area code 403.

The La Forge 1 exchange (853) is likely a relatively recent add.

The Ottawa-Hull exchange is unique in that its exchange is split across two area codes. All Ottawa-Hull prefixes in 819 are listed here. The prefixes on the Ottawa, Ontario side are listed in the 613 chart. An exchange in Ottawa (613) need not prevent that prefix from being used elsewhere in 819 territory; for instance, 523 prefix in 613 is in Ottawa (613 area, Ontario side) while in 819 it is in La Tuque, PQ.

Grise Fiord has been touted as the world's most northerly telephone exchange. Points in the western Northwest Territories are in area code 403.

Purtunig, NWT (484) used to be about the smallest telephone exchange in Canada, listing only the Asbestos Corporation. The exchange has disappeared from the Northwest Territories directory in recent years and is no longer in service.

French accents have not been included in this list. No disrespect is intended; this is due more to technical limitations (ie. various standards of representing accented characters) and the risk of doing something bizarre should this list be printed on one of the various kinds of printers around.
