-----  
Intro to Automatic Voice Network  
Commonly know as AUTOVON  
Part III 'Operating Procedures'  
-----

Now, you're at the part that you have been waiting for!! Testing!! Call Directory Assistance using normal tones xxx-555-1212. Now, quickly switch to 1633, and press down the [#] key. You will now get a dial tone. You can then switch back to normal, and try dialing different numbers. The two most interesting are 6 and 7. These often form a loop-around type connection, and two people can call in, one using 6 and one using 7, and talk in this matter...

Happy Phreaking you bad boys!!

ShAdOwRuNnEr

Wait for Phile #4, posting some of the AUTOVON exchanges no.'s  
Watch phor it!!!!!!
