(>Introduction<)

        This is a fairly simple modification that can be made
to any phone. All it does is allow you to take any 2 lines in
your house and create a party line. So far I have not heard of
any problems with it from my friends that have set one up and I
ha

I think that the convenience of having two people on line at any
one time will make up for the minor volume loss.

(>Phone Modification Instructions<)

Here is the diagram:

```
KEY:_____
       ! PART                  ! SYMBOL !
       ------------------------------------
       !BLACK WIRE             !    *    !
       !YELLOW WIRE            !    =    !
       !RED WIRE               !    +    !
       !GREEN WIRE             !    -    !
       !SPDT SWITCH            !   _/_   !
       !                           _/_   !
       !VERTICAL WIRE          !    |    !
       !HORIZONTAL WIRE        !    _    !
       ------------------------------------

       *      =     -      +
       *      =     -      +
       *      =     -      +
       *      =     -      +
       *      =     -      +
       *      ==_/_-       +
       *******_/_+++++
       |              |
```

```
     |              |
     |              |
     |_____PHONE____|
```

        In some houses the black and yellow are already wired
in others you will have to go out to your box and rewire it. A
good way to figure out which line is which is to take the phone
you are looking for off the hook. Then you only need to take
the red and green wires entering your phone and hook them to the
different pairs of red and green going into the house. You
can't hurt anything in the phone or telephone by probeing. When
you find the pair that you want take the black from your line
and attach it to the red of the other line then take the yellow
and attach it to the green line. Now you are all set to go.
For people with rotary phones you can have one person call you
then place the second call out to the other person. Though not
phreakers tool, the brown box can be phun.
