CARRIERS.TXT

I hope that these files will be of some help to you. This has severely drained my notebooks/folders t I think it makes a nice file. Although I have passwords to many of the systems listed, I don't believe that giving them out in this fashion would be very wise. I might make another (or just a revision) in about a year. I'm sure that these computers will please every hacker who reads this. Thank you.
