I got bored today with Telenet/Tymnet and decided to read some old 2600 magazines. Well I found an old CNA list, and with the help of a few TSPS operators and a dumb-bitch DA operator I got a couple of UNPUBLISHED CNA's. I've added them to the program, they include:

205: Alabama all locations
618: Alton, Illinois and surrounding areas
913: Topeka, Kansas and surrounding areas
516: Hempstead, New York and local surrounding areas
315: Syracuse/Utica, New York and local surrounding areas
919: Williamston/Winston-Salem, North Carolina and surrounding areas
803: South Carolina all locations
915: El Paso, Texas and surrounding areas

I am still missing CNA's for areacodes: 818, 409, 714, 719, 808, 507, 609, 201. These CNA's are quite mysterious as of now, the old CNA's for these were:

818: 213-501-3255
409: 713-820-4112
714: 213-501-3255
808: 212-334-4336
507: 402-345-0600
609: 201-676-7070
201: 201-676-7070

I cannot even find 719's CNA dial up new or old. If anyone has any
