Radio Sweden's telecommunications program "Sweden Calling DXers" is the oldest program of its kind on the air, having started back in February 1948. The program's popularity is attested by the fact that it attracts between 5 and 10 percent of all letters to radio Sweden. The "Sweden Calling DXers" bulletins are mailed regularly to some 1500 contributors to the program from around the world, and an Electronic Edition is available on the CompuServe HamNet Forum as well as telephone-based and packet radio computer bulletin board systems internationally. Our publications "The Beginners Guide to DXing" and "The DXers Guide to the Galaxy" are available for free. The new fourth edition of the "DXers Guide to Computing" is being published during the fourth quarter of 1990. It will cost US\$ 5, GBP 3, SEK or FF 30, DM 8 or 8 IRCs.

Broadcast in all of our languages except Swedish every Tuesday, "Sweden Calling DXers" concentrates on the latest shortwave news. We also keep you up-to-date on the latest in satellites and other exotic forms of electronic communications.
