FEDERAL GOVERNMENT LICENSE PLATES

Copied by: John Johnson, KWV8BP

Source: The "Top Secret" Registry of U.S. Government Radio Frequencies

Some states issue their own license plates to federal vehicles, but many vehicles also use the standard white/blue plates issued by the government. Undercover vehicles use state-series plates that aren't listed in MV computers.

According to "The License Plate Book," by Thomson C. Murray (Interstate Publishing Co. Inc., Cleft Road, Mill Neck NY 11765), the following prefixes are used on some of the white/blue plates to identify the agencies:
