14.95

---

Dont forget, one of the best sources for frequencies is your simple search option on your scanner. By searching you can find sometimes hidden freq's that are not listed in any book you can buy... Take your time when searching , dont get agrivated and keep changing scanning ranges... Good luck..

This file was brought to you by John Johnson of The Hotline BBS, give us a call, we have an entire section dedicated to Scanner & Radio related topics.
