Well, Rob, I have first hand knowledge about the Mass. State Police communications and can give you the frequencies for MA. but can only give you the FCC listed frequencies for NH and ME.

Mass. State Police

42.44 Channel 1 Statewide Emergency/Tactical Operations  
42.34 Channel 2 Troop "A" operations / car-to-car Western Ma  
42.4 Channel 3 Troop "C" operations  
42.50 Channel 4 Troop "D" operations / car-to-car Western Ma  
42.54 Channel 5 Station "h" sometimes Troop "A"  
42.46 Channel 6 Troop "B" operations / Car-to-Car Eastern Ma  
42.42 Channel 7 Team "55" / radar operations \*must have\*  
44.74 Channel 8 Air Wing

154.92 Cruiser repeater (325 cruisers have these) Great to see if cruiser is close. Range approx. .5-1 mile

465.0125R Repeats Channel 4. Only in Quincy, Hingham, area

159.03R Troop "E" Operations (All turnpike patrols)

156.03 Input to turnpike repeater

Notes:

Troop "B" - From western border to a Springfield area  
Troop "C" - From Springfield area east to Approx. 495 area  
Troop "A" - 495 to Boston and north to NH border  
Troop "D" - South shore from Boston to Cape along RI border  
Troop "E" - refer to mile markers to identify location along turnpike. Mile markers on the median start with MM1 in West Stockbridge and MM134 in Boston.

Incidentally, try 453.7125. Its a road monitoring system which contains information about windspeed, direction, humidity, temp, and chemicals at bridges. Located at Westfield River Bridge, Chicopee River, and Quabog river. Around Interchange 3 and 5, I think. It would be interesting to see if it is digital or a computer voice, etc. That would be appreciated.

Here is a list of NH and ME freq. I don't know much about them though.

Channel	Transmitter City
